GENERAL INFORMATION

COVID-19 vaccination will be required of all attendees, exhibitors, and guests (including children) on-site at ACG 2022 in Charlotte.

We will ask you to confirm that you are fully vaccinated (individuals are considered “fully vaccinated” two weeks after completing the second dose of a two-dose COVID-19 vaccine or two weeks after receiving a single dose of a one-dose vaccine). Unvaccinated individuals will not be allowed in the conference area, including the Exhibit Hall. If you are not vaccinated or if you prefer not to travel, a virtual platform is available to participate in ACG 2022.

All guests of registered attendees must check in at the Guest Pass desk in the ACG 2022 registration area at the Charlotte Convention Center on Level 1 Concourse and complete a COVID-19 Vaccination Attestation form to receive a guest badge.

GENERAL INFORMATION

The 87th Annual Scientific Meeting of the American College of Gastroenterology will be conducted on Monday, Tuesday, and Wednesday, October 24–26, 2022, in conjunction with the Annual Postgraduate Course on Saturday and Sunday, October 22–23, 2022, at the Charlotte Convention Center. Attend the optional Practice Management Summit on Friday, October 21 for a full day of practice management tips. Four additional optional programs will be held on Friday, October 21: three half-day courses, the GI Pathology and Imaging Course, the What’s New in GI Pharmacology Course, and the Practice Management Summit; and one full-day course, the ASGE Endoscopy Course.

REGISTRATION INFORMATION

Charlotte Convention Center, Level 1 Concourse

Registration will be open in the Charlotte Convention Center on the Level 1 Concourse during the following hours:

Friday, October 21.....	6:00 am - 5:30 pm
Saturday, October 22.....	7:00 am - 5:00 pm
Sunday, October 23.....	7:00 am - 6:30 pm
Monday, October 24	6:30 am - 5:00 pm
Tuesday, October 25	7:00 am - 5:00 pm
Wednesday, October 26.....	8:15 am - 12:15 pm

Registration will remain open until Saturday, December 31, 2022, and you can continue to register for virtual access to the ACG 2022 Conference Platform through that date. All registrants will have access to the Conference Platform until March 31, 2023. For questions regarding registration, contact Meeting Services at registration@gi.org or 301-263-9000.

MEETING MATERIALS

Meeting materials for registrants attending in-person in Charlotte, including attendee badges and bags, will be available for pick-up on-site at the ACG 2022 Registration Desk, located in the Level 1 Concourse of the Charlotte Convention Center, beginning on Friday, October 21 at 6:00 am.

Both in-person and virtual registration include access to presentation handouts, slides, and on-demand content (based on course registration) on the ACG 2022 Conference Platform until March 31, 2023. Virtual registrants will use the Conference Platform to watch the livestreamed sessions during the conference dates (livestream sessions will NOT be available in the mobile app). Handouts and slides will remain available on the ACG mobile app after March 2023. PLEASE NOTE: No printed materials or USBs will be available.

In-person attendees can use the meeting app to view, take notes, and highlight speaker slide presentations on tablets and mobile devices. Use the app to follow along with live presentations and take notes to review after the event. Registrants will also be able to download and print PDFs of the slides directly from the app.

The ACG 2022 Meeting App is available in the ACG Mobile App, which can be easily downloaded from the Apple iTunes, Google Play, or Amazon stores (you may need your Apple, Google, or Amazon account information to successfully download the app). Once you’ve installed the ACG Mobile App, tap the ACG 2022 icon to open the app.

A WiFi or cellular data connection is required to download the app and download documents within the app (PDF documents and slides), but once documents have been downloaded inside the app, Internet is NOT required to use the app on an ongoing basis, access materials, and take notes. Information on how to access the app and the PDF files was e-mailed to all registrants before the meeting.

On-site App help: visit the Meeting App Help booth in the Registration area for assistance.

OPTIONAL COURSES - FRIDAY, OCTOBER 21

Separate registration fees apply for all optional Friday courses. Visit the ACG Registration Desk to purchase admission to Friday courses. Details for optional Friday courses begin on page 21.

ANNUAL POSTGRADUATE COURSE AND LEARNING LUNCHEON SESSIONS - SATURDAY AND SUNDAY, OCTOBER 22 - 23

The Postgraduate Course Learning Luncheons must be purchased separately. You must register for the Postgraduate Course to purchase this package. In-person attendees purchasing the package will be able to select and attend a Saturday and a Sunday lunch session during the registration process. Registration includes access to the faculty presentation slides and pre-recorded narrations for ALL 24 Bonus Luncheon Sessions. These recorded sessions will be available on the ACG 2022 Conference Platform until March 31, 2023. Bonus Luncheon Sessions will not be livestreamed. Visit the ACG Registration Desk to purchase access; some in-person lunch sessions may be sold-out.

ANNUAL SCIENTIFIC MEETING AND OPTIONAL BONUS SESSIONS - MONDAY THROUGH WEDNESDAY, OCTOBER 24 - 26

Any individual wishing to attend the Scientific Sessions must be registered. There is no registration fee for ACG Members (including FACG and MACG), Resident/Trainee/Candidate Members, Advanced Practice Provider Members, and Associate Members to attend the Annual Scientific Meeting sessions.

The Annual Meeting Bonus Sessions (formerly the Breakfast Sessions) will only be available as pre-recorded sessions on the ACG Conference Platform. There will be no in-person Bonus Sessions offered in Charlotte. Annual Scientific Meeting registrants can purchase on-demand access to recorded presentations for ALL 24 AM Bonus Sessions, worth up to 25 hours of CME! See page 42 for a complete list. Separate purchase is required.

NEW! “Meet the Experts” Breakfast Sessions — ACG is introducing “Meet the Experts” sessions, to be offered on Monday and Tuesday mornings. These in-person, open-to-all, 45-minute sessions will be tied to select topic areas from the optional Annual Scientific Meeting Bonus Sessions. Sessions on Monday (7:00 am – 7:45 am) will cover Liver, IBD, Emerging Technology, Oncology, and Women’s Health. Tuesday sessions (7:30 am – 8:15 am) will cover Pancreas, Functional GI, CAM, IBD, and Colonoscopy. Coffee and light breakfast items will be provided. While purchase of the Bonus Sessions is not required to attend these sessions, attendees who have purchased and watched the on-demand Bonus Sessions in advance will benefit most from these casual in-person opportunities for Q&A with faculty experts. Visit the ACG Registration Desk to purchase access.

LIVESTREAMING AND RECORDED SESSIONS

Starting on October 21, sessions will be livestreamed from Charlotte each day, and broadcast in Eastern Time on the Conference Platform website. With the exception of the Friday Practice Management Summit, all courses will be livestreamed.

Note: Both the Postgraduate Course and the Annual Scientific Meeting include daily simultaneous sessions. ACG will livestream one of the simultaneous sessions. Simultaneous sessions that are not livestreamed, will be recorded and posted as on-demand content on the Conference Platform after the meeting and will be available until March 31, 2023.

All sessions at ACG 2022 will be available to watch on the Conference Platform after the meeting until March 31, 2023. Both in-person and virtual registration include access to recorded on-demand content and to presentation slides (based on course registration) on the Conference Platform until March 31, 2023.

See page 12 for additional details.

ACCREDITATION/CME/MOC

The American College of Gastroenterology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit information for CME and for MOC is listed within individual course descriptions.

Procedure to Claim CME: Attendees of the ACG 2022 educational activities may claim CME by completing a course evaluation via the ACG website at evals.gi.org/am/2022. **Please see page 80 for full instructions on claiming CME and MOC.**

SELF-ASSESSMENT TEST

All PG Course registrants (virtual and in-person) will receive access to the ONLINE version of the Self-Assessment Test. Registrants who attend in-person, in Charlotte, will also receive a PRINTED copy of the test when collecting meeting materials on-site. Individuals not registered for the Postgraduate Course may purchase the test at education.gi.org.

ONLINE SELF-ASSESSMENT TEST

ACG’s Online Self-Assessment Test allows you to answer questions at your own pace, start and stop the exam as many times as you need, and saves your work each time you access the online test. The test is organized by organ system and includes 300 multiple choice questions, many with photos or videos. The test tracks your responses, indicates correct answers with detailed discussion and supporting references, and provides your overall/category scores. Complete the test with a minimum passing score of 70% and earn a maximum of 35 *AMA PRA Category 1 Credits™*. In addition, even after you’ve finished the test, you can continue to go back and review, re-read, and check on linked references for further study.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 35 MOC points in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) program. Participants will earn Medical Knowledge MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider’s responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

EXHIBIT HALL *Exhibit Hall AB*

The science and technology of medicine is ever-changing and advancing the practice of gastroenterology. Showcasing these latest advances in technology and therapeutics is the ACG 2022 Exhibit Hall where more than 200 companies will display and demonstrate their products and services. Companies that exhibit include pharmaceutical manufacturers, medical instrument suppliers, research companies, technology companies, publishers, non-profit organizations, recruiters, and more.

All attendees are encouraged to visit the exhibitors, whose participation and support help offset costs for the meeting and keep the meeting in its current form.

GENERAL INFORMATION

COMPANY SPONSORED SYMPOSIA AND PRODUCT THEATERS

These events will also be open to all ACG 2022 attendees. Please see page 50 for a complete list.

SCIENTIFIC POSTER SESSIONS *Crown Ballroom*

The Scientific Poster Programs will be conducted in the Crown Ballroom during the following hours:

Sunday afternoon, Poster Session A5:00 pm - 7:00 pm
Monday morning, Poster Session B10:00 am - 12:00 pm
Monday afternoon, Poster Session C3:00 pm - 5:00 pm
Tuesday morning, Poster Session D.....10:00 am - 12:00 pm
Tuesday afternoon, Poster Session E3:00 pm - 5:00 pm

Poster sessions do not offer CME.

ACG HANDS-ON WORKSHOP CENTER *Exhibit Hall AB*

Watch experts demonstrate the latest tools and techniques at the ACG Hands-On Workshop Center. Hands-On sessions are free to all registered attendees of ACG 2022. ACG will offer over 24 sessions, giving attendees the opportunity to gain hands-on experience. In addition, the College will offer trainee-specific hands-on sessions. All Hands-on Workshop registration and check-in will be done using the ACG 2022 Meeting App. Please see page 58 for full details. Hands-On Workshop Center hours are:

Sunday, October 23..... 3:45 pm - 7:00 pm
Resident Training Sessions:.....4:00 pm - 5:00 pm
Monday, October 2410:15 am - 4:40 pm
GI Fellows Sessions:.....7:45 am - 9:30 am
Resident Training Session:.....10:30 am - 11:30 am
Resident Training Session:.....3:45 pm - 4:45 pm
Tuesday, October 2510:05 am - 4:30 pm

Hands-On Workshop sessions do not offer CME.

THE ACG STORE *Level 1 Concourse*

Visit the Store while at the meeting to purchase promotional items from ACG. Hours are:

Friday, October 21.....8:00 am - 5:00 pm
Saturday, October 22.....8:00 am - 5:00 pm
Sunday, October 23.....8:00 am - 5:00 pm
Monday, October 248:00 am - 5:00 pm
Tuesday, October 258:00 am - 5:00 pm

COAT AND LUGGAGE CHECK *Room 104, Level 1 Concourse*

A coat/luggage check room is available on the following days:

Sunday, October 23..... 7:00 am - 6:30 pm
Monday, October 246:30 am - 6:30 pm
Tuesday, October 25..... 7:00 am - 6:45 pm
Wednesday, October 26.....8:15 am - 12:30 pm

LOST AND FOUND

Visit the ACG Registration desk. If your item has not been turned in there, please call: Charlotte Convention Center Security 704-339-6096.

SPEAKER READY ROOM *Room 105/106, Level 1 Concourse*

All faculty members are requested to review their slides in the Speaker Ready Room at least 4 hours prior to the start of the session in which they are to speak. The Speaker Ready Room will be open during the following hours:

Thursday, October 20.....3:00 pm - 5:00 pm
Friday, October 21..... 6:15 am - 5:30 pm
Saturday, October 22..... 6:45 am - 5:00 pm
Sunday, October 23..... 6:45 am - 5:00 pm
Monday, October 24 6:45 am - 6:00 pm
Tuesday, October 25..... 7:00 am - 5:00 pm
Wednesday, October 26.....7:30 am - 11:30 am

PRESS ROOM *Room W205*

Authors are requested to check the Press Board for interviews. No announcements will be made in the Scientific Sessions.

Sunday, October 23.....10:00 am - 5:00 pm
Monday, October 24 7:00 am - 5:00 pm
Tuesday, October 25..... 7:00 am - 5:00 pm
Wednesday, October 26..... 7:00 am - 11:30 am

PRIVATE NURSING ROOMS

ACG will offer a dedicated private room for nursing mothers. Please stop by the ACG Registration desk for details.

ABOUT ACG

The American College of Gastroenterology is a recognized leader in educating GI professionals and the general public about digestive disorders. Our mission is to advance world-class care for patients with gastrointestinal disorders through excellence, innovation, and advocacy in the areas of scientific investigation, education, prevention, and treatment. To learn more about ACG, visit us at booth #729 in the Exhibit Hall, or online at gi.org.

Leveraging our rich biologics experience for making quality biosimilar medicines

- Over 20 years at the forefront of innovator biologic medicines for inflammation¹
- Five FDA-approved biosimilar medicines, two with GI indications for inflammatory conditions^{2,*}
- Worldwide leader in biologics manufacturing with a reliable track record of delivering high-quality medicines³
- One of the world's leading independent biotechnology companies³

One of our most exciting pursuits is the exploration of **biosimilar medicines**

What are biosimilars?

Biosimilars are biologic medicines that are highly similar to the existing licensed biologic products (reference products or originator biologics), with clinically no meaningful differences in terms of safety and efficacy⁴

Why biosimilars?

With increased availability of potentially lower-cost biosimilars, patients, healthcare providers, and payers have a range of treatment options and a degree of flexibility in treatment choice⁵

Are biosimilars generics?

A biologic molecule is grown in living cells, which leads to inherent variability; therefore, a biosimilar is highly similar, though not structurally identical, to an originator biologic⁶

The advent of biologics for chronic inflammatory diseases and the increased availability of biosimilars for inflammatory diseases offers additional treatment plan options to healthcare providers and patients^{4,5,7}

Developing Biosimilars

Amgen Biosimilars

The ACG 2022 CONFERENCE PLATFORM

THE ACG 2022 CONFERENCE PLATFORM

IS FOR ALL PARTICIPANTS — those attending in-person in Charlotte and those attending virtually.

THE ACG 2022 CONFERENCE PLATFORM IS FOR ALL PARTICIPANTS!

In-person and virtual attendees can use the Conference Platform to:

- ✓ Browse the sessions, presentations, speakers, and abstracts and build a personal schedule.
- ✓ Connect with other attendees.
- ✓ Watch daily livestream sessions and on-demand presentations (based on course registration).
- ✓ Access and download the slide presentations.
- ✓ Visit the ePoster Hall and interact with poster authors.
- ✓ Explore the Virtual Exhibit Hall.

DAILY LIVESTREAMING

Starting on Friday, October 21, all sessions, with the exception of the Practice Management Summit, will be livestreamed from Charlotte each day, and broadcast in Eastern Time on the Conference Platform website.

Note:

- Livestream sessions will ONLY be available on the Conference Platform, NOT via the app, and participants must be logged in with their platform account.
- The Postgraduate Course and the Annual Scientific Meeting include daily simultaneous sessions. ACG will livestream one of the simultaneous sessions. Those sessions not livestreamed, including the luncheon sessions, will be posted as on-demand content after the meeting.

ON-DEMAND PRESENTATIONS AND SLIDES

In-person and virtual registration includes access to on-demand content and presentation slides (based on course registration) through the Conference Platform. Recorded sessions will be available after the meeting until March 31, 2023. Registrants who purchase Bonus Sessions can watch these on the Conference Platform starting October 21, 2022, until March 31, 2023.

VIRTUAL EXHIBIT HALL

In addition to the in-person Exhibit Hall in Charlotte, ACG 2022 will include a Virtual Exhibit Hall component with dynamic features designed to enhance your experience, whether it's in-person or virtual! All attendees will have access to the Virtual Exhibit Hall on the Conference Platform until October 26, 2022. As always, your support of the ACG exhibitors is vital as it allows the ACG to keep offering the Annual Scientific Meeting FREE for members.

VIRTUAL EPOSTER HALL

View the latest in clinical research with the ACG 2022 ePoster Hall on the Conference Platform! Colleagues will share their latest research as well as interesting cases/clinical vignettes. Browse thousands of high-quality digital posters, listen to recorded audio of presenters explaining their findings, easily search by keyword, and submit questions directly to poster authors. All participants will have access to the virtual ePoster Hall until March 31, 2023.

Visit the ACG 2022 Conference Platform
eventscribe.net/2022/ACG2022 today!

To create an account, use either the number on your name badge or the order number from your ACG 2022 registration confirmation email, and the same email address that you used to register for ACG 2022.

You must be logged in with your account in order to attend any livestream sessions, view presentation slides, and connect with other participants.

Scan QR code to visit the Platform

ACG 2022

Meeting App

USE THE MEETING APP AND ACCESS PRESENTATION SLIDES

On-site attendees can use the meeting app to view, take notes, and highlight speaker slide presentations on tablets and mobile devices. Use the app at the meeting in Charlotte to follow along with live presentations and take notes to review after the event. Registrants will also be able to download and print PDFs of the slides directly from the app. The app includes speaker bios and exhibitor information, as well as access to the ePosters, and much more!

USING THE MOBILE APP

Install ACG Mobile – All ACG event apps are housed in the ACG Mobile app. If you need to install ACG Mobile, scan the QR code below, or search the Apple App Store or Google Play Store for “ACG Mobile” to download the app. A WiFi or cellular data connection is required to download the app (Apple users must have iOS 12 or higher to use the app, which may require an operating system update. Android users must have OS 6 or higher to use the app, which may require an operating system update. iPad 2, any non-retina devices, and Kindles with an OS older than 4.4.2 are not compatible with the app. You may need your Apple App or Google Play account information to successfully download the app.)

How to Log In – Once you’ve installed ACG Mobile, tap the ACG 2022 tile. Log in using the same email that you used to register for ACG 2022, and your registration order number or name badge number as your password/access key.

Accessing the Slides – A WiFi or cellular data connection is required to download documents within the app (PDF documents and slides), but once downloaded, Internet is NOT required to use the app on an ongoing basis, access materials, and take notes. Information on how to access the app and the PDF files was e-mailed to all registrants before the meeting, and is available in the Info tile in the app.

Need app help while in Charlotte? Visit the Meeting App Help booth in the ACG Registration area for assistance.

Scan this QR Code
to download the
ACG Mobile app.

AFTER ACG 2022

Presentations at ACG 2022 will be recorded and available after the meeting as on-demand content, which can be watched until March 31, 2023, in the Conference Platform. Registrants who purchase Bonus Sessions will also be able to watch these on-demand recordings on the Conference Platform starting October 21, 2022 until March 31, 2023. Presentation slides and handouts (based on course registration) will also be available on the Conference Platform until March 31, 2023; slides and handouts will be available in the mobile app after this date.

Both in-person and virtual attendees can create an account on the Conference Platform at eventscribe.net/2022/ACG2022 using your Badge ID (or the order number listed on the confirmation email you received after registering for ACG 2022).

Special Events

and Receptions

EXHIBIT HALL OPENING WELCOME RECEPTION

Sunday, October 24, 5:15 pm – 7:00 pm

Immediately following the conclusion of the Postgraduate Course, join colleagues for the ACG 2022 Opening Welcome Reception in the Exhibit Hall. The reception will feature hors d'oeuvres and refreshments. *ACG thanks Janssen Biotech, Inc. for their support.*

ADVANCED PRACTICE PROVIDERS RECEPTION

Friday, October 21 | 5:30 pm – 6:30 pm

Room E212AB

All NP/PA ACG 2022 attendees are invited to attend. Hosted by the Advanced Practice Providers Committee.

ACG thanks Takeda Pharmaceuticals U.S.A., Inc. for their support.

ACG SCOPY AWARDS CEREMONY

Sunday, October 23 | 3:30 pm – 5:00 pm

Room E212

Come join members of the ACG Public Relations Committee and celebrate your colleagues who will receive 2022 ACG SCOPY Awards. Be inspired by the best, most innovative and impactful community education programs to raise awareness of colorectal cancer and enjoy a cocktail reception. SCOPY is ACG's Service Award for Colorectal Cancer Outreach, Prevention and Year-Round Excellence.

CELEBRATING DIVERSITY IN ACG RECEPTION

Sunday, October 23 | 5:15 pm – 6:00 pm

Room E216BD

Gather to celebrate diversity in ACG and connect with colleagues. Hosted by the Women in GI Committee and the Diversity, Equity, & Inclusion Committee.

ACG thanks Janssen Biotech, Inc. for their support.

INTERNATIONAL ATTENDEE RECEPTION

Sunday, October 23 | 5:15 pm – 6:00 pm

Room E216AC

All international attendees are invited to attend this networking reception and enjoy refreshments and hors d'oeuvres with colleagues.

ACG MENTORING PROGRAM RECEPTION

Sunday, October 23 | 5:15 pm – 6:00 pm

Room E215

Meet your mentor or mentee in person to connect, discuss your goals, and reflect on your experiences together at this free reception. All ACG mentors and mentees are encouraged to attend.

HEALIO DISRUPTIVE INNOVATORS AWARDS

Sunday, October 23 | 7:00 pm – 9:00 pm

JW Marriott Charlotte

Join us at this exclusive event presented by ACG's media partner, Healio Gastroenterology and Liver Disease, as we honor Disruptive Innovators in eight different categories. Each of these awardees has changed the face of gastroenterology and pushed the status quo toward the betterment of the field. As a true testament to Healio's peer-tested approach, their Peer Perspective Board and "Healio 200" GI experts vote on the awardees.

ACG PRESIDENT'S ADDRESS

Monday, October 24 | 9:00 am – 9:30 am

Exhibit Hall C2

Samir A. Shah, MD, FACP, ACG President, will speak to attendees during the Presidential Address to mark the beginning of the ACG 2022 Annual Scientific Meeting. The President uses this opportunity to welcome attendees, highlight accomplishments over the past year, and bid farewell as the leadership passes on to the President-Elect.

A SYSTEMATIC APPROACH TO IDENTIFY HIGH-RISK PATIENTS IN YOUR PRACTICE FOR INCREASED CANCER SURVEILLANCE

Monday, October 24 | 10:30 am – 11:30 am

Room E220

A panel will discuss how technology innovations are making it easier for practices to identify patients at risk for hereditary GI cancer and increasing access to support, care management, and related services, and on-demand educational resources. This session is sponsored by GI OnDEMAND, a joint venture between ACG and Gastro Girl, Inc., which provides access to multidisciplinary GI expertise and educational resources via a virtual integrated care and support platform, and Ambry Genetics' CARE platform. This session is free and open to all attendees.

GIQuIC - TRANSFORMING QUALITY FROM ASPIRATIONAL GOALS TO MEASURABLE RESULTS

Monday, October 24 | 1:00 pm - 2:00 pm

The GI Quality Improvement Consortium (GIQuIC) is hosting a session for current and prospective GIQuIC registry participants. GIQuIC Board members and participants will share actionable ways of using GIQuIC for quality improvement in their practices. This luncheon has a fee of \$25. Register online at acgmeetings.gi.org/registration. During the meeting, visit the Registration Desk to purchase admission if seats are still available, however, this event may be sold out.

#ACG2022 #IRL IN REAL LIFE SOCIAL MEDIA MEETUP RECEPTION

Monday, October 24 | 5:00 pm - 6:00 pm

Room E212

The Public Relations Committee welcomes you to gather with ACG members active on social media, "The #ACG2022 #IRL In Real Life Meetup."

ACG thanks Medtronic for their support.

ACG ANNUAL BUSINESS MEETING

Monday, October 24 | 6:00 pm - 6:30 pm

Exhibit Hall C2

All Members and Fellows (FACG) are encouraged to attend the Annual Business Meeting where College business will be discussed and voted on.

HOW TO GET PUBLISHED: ACG JOURNAL EDITORS' ROUNDTABLE

Tuesday, October 25 | 7:30 am - 8:15 am

Room E220

ACG's journal editors frequently receive questions about how best to get published, how they assess submissions, and how to best format a manuscript. In this session, the editors reveal answers to the "Top 10 Questions" they receive about the publication process and share pearls of wisdom about what works – and what doesn't work – when submitting papers for publication. If you want to start or improve your publishing career, then don't miss this valuable opportunity to hear directly from the editors who are eager to help! Free and open to all attendees.

AUXILIARY SCHEDULE AT A GLANCE

The ACG Auxiliary welcomes you to ACG 2022 in Charlotte. To learn more about the Auxiliary and our activities, stop by our Hospitality Suite located in the Westin Charlotte in the Tryon Room. Please see dates and hours below:

» SATURDAY, OCTOBER 22

Auxiliary Registration/Hospitality Suite*

Westin Charlotte - Tryon Room
8:00 am - 5:00 pm

» SUNDAY, OCTOBER 23

Featured LECTURES

DAVID SUN LECTURE

The Two Most Important Days: Reflections on Lasting Happiness and Living With Purpose

Sanjiv Chopra, MD

📅 SATURDAY, OCTOBER 22 | ⌚ 10:00 AM – 10:30 AM | EXHIBIT HALL C

Join colleagues as Dr. Sanjiv Chopra presents the David Sun Lecture on ways to achieve happiness and live your life's purpose no matter the challenges faced along the way.

Sanjiv Chopra, MD, is professor of medicine and former faculty dean for Continuing Medical Education at Harvard Medical School. He is also the James Tullis Firm Chief, Department of Medicine, at Beth Israel Deaconess Medical Center. For 12 years, he led the most robust academic Continuing Medical Education enterprise in the world, reaching out to 80,000 clinicians in 150 countries each year. Dr. Chopra is also editor-in-chief of the hepatology section of UpToDate, an online resource used by more than 600,000 physicians worldwide for clinical decision-making at point of care.

Dr. Chopra was designated a Master of the American College of Physicians in 2009, and has earned a number of awards, including the AGA's Distinguished Educator Award. In 2012, he was awarded the Ellis Island Medal of Honor for "Exemplifying outstanding qualities in both one's personal and professional lives while continuing to preserve the richness of one's particular heritage."

Dr. Chopra is a best-selling author and a sought after motivational speaker throughout the United States and abroad.

The David Sun Lecture, held during the Postgraduate Course, was established by Mrs. Sun in memory of her husband, Dr. David Sun, an outstanding gastroenterologist and investigator. Each year, a lecturer with a distinguished background in gastroenterology or an allied field is chosen by the ACG President subject to the approval of the ACG Educational Affairs Committee and the Board of Trustees.

THE AMERICAN JOURNAL OF GASTROENTEROLOGY LECTURE

The Transformative Power of Research Carried Out by Busy Clinicians

Patrick S. Kamath, MD

📅 MONDAY, OCTOBER 24 | ⌚ 3:05 PM – 3:35 PM | EXHIBIT HALL C2

Learn how clinicians can participate in research that helps to advance the fields of gastroenterology and hepatology when Dr. Kamath presents *The American Journal of Gastroenterology* Lecture.

Patrick S. Kamath, MD, is a professor of medicine at the Mayo Clinic in Rochester, Minnesota. His research interests include acute-on-chronic liver failure, nonalcoholic fatty liver disease, polycystic liver disease, Budd-Chiari syndrome and hereditary hemorrhagic telangiectasia. Dr. Kamath is internationally renowned as a leading researcher in hepatology and has also won numerous awards as an educator. Dr. Kamath completed his MBBS from St. John's Medical College, Bangalore University and DM (Gastroenterology) from Postgraduate Institute of Medical Education & Research and MD (Internal Medicine) from Postgraduate Institute of Medical Education & Research.

Dr. Kamath has contributed to recently published research on management of acute-on-chronic liver failure and on prevention and treatment of cirrhotic complications, including management of hepatic encephalopathy in the hospital, primary prophylaxis of variceal bleeding, and prevalence and prediction factors of infections in patients with cirrhosis. He and his co-workers were instrumental in developing the Model for End-Stage Liver Disease (MELD) score, which is used worldwide to determine prognosis in liver disease and prioritize organ allocation for liver transplantation. Dr. Kamath also serves as a co-investigator in the Translational Research and Evolving Alcoholic Hepatitis Treatment (TREAT) consortium. This collaboration among researchers at Mayo Clinic, Indiana University, and Virginia Commonwealth University is aimed at improving understanding of alcoholic hepatitis and developing novel therapies to treat it. It is funded by the National Institutes of Health.

Dr. Kamath works to improve understanding of the mechanisms and complications of liver disease, in the hopes of developing new strategies of prevention and treatment that will improve quality of life and overall outcomes for patients with various liver diseases. His current focus is on finding ways to improve survival in patients with acute-on-chronic liver failure. He is also dedicated to the education of the next generation of physicians, who will further advance this work.

The AJG Lecturer was chosen by the co-editors of The American Journal of Gastroenterology with approval from the ACG Educational Affairs Committee and the Board of Trustees.

J. EDWARD BERK DISTINGUISHED LECTURE

The Promise and Progress of New Approaches to Treating the Inflammatory Bowel Diseases

Bruce E. Sands, MD, MS, FACP

📅 TUESDAY, OCTOBER 25 | ⌚ 10:05 AM – 10:35 AM | EXHIBIT HALL C2

At this year's J. Edward Berk Distinguished Lecture, Dr. Sands will describe the efficacy and safety of newer agents for IBD, and the potential for combination therapy and precision medicine approaches to treat Crohn's disease and ulcerative colitis.

Dr. Sands is the Chief of the Dr. Henry D. Janowitz Division of Gastroenterology at the Mount Sinai Medical Center, and the Dr. Burrill B. Crohn Professor of Medicine at the Icahn School of Medicine at Mount Sinai. He was awarded his MD at Boston University School of Medicine and completed an internship and residency at the Hospital of the University of Pennsylvania in Philadelphia. He received his fellowship training in gastroenterology at Massachusetts General Hospital and also completed a Master of Science in Epidemiology at the Harvard School of Public Health. Dr. Sands was a faculty member at Harvard Medical School and Medical Co-Director of the Massachusetts General Hospital Crohn's and Colitis Center, and then served as the Acting Chief of the Gastrointestinal Unit at Massachusetts General Hospital before moving to Mount Sinai in 2010. Dr. Sands is a Fellow of the ACG and AGA. Additionally, he has served as the Chair of the Crohn's & Colitis Foundation of America's Clinical Research Alliance, and Chair of the Immunology, Microbiology and IBD Section of the AGA. He served as an Associate Editor for the journal *Gastroenterology*.

Dr. Sands is widely published in the area of inflammatory bowel diseases, with numerous publications in journals such as *Gastroenterology*, *Gut*, and the *New England Journal of Medicine*. In addition to his extensive research background, Dr. Sands is internationally renowned for his expert care of complex inflammatory bowel disease.

The J. Edward Berk Distinguished Lecturer is awarded to individuals prominent in gastroenterology or a related area. The lecturer is nominated by the ACG President and the appointment is subject to approval by the Board of Trustees. The lectureship was established in recognition of the significant contributions made by J. Edward Berk, MD, MACG, to clinical gastroenterology during his long and distinguished clinical and academic career.

EMILY COURIC MEMORIAL LECTURE

Colon Cancer Screening: What Do We Need to Build and Who Will Come?

Aasma Shaukat, MD, MPH, FACG

📅 TUESDAY, OCTOBER 25 | ⌚ 4:30 PM – 5:00 PM | EXHIBIT HALL C2

Join Dr. Shaukat as she delivers the Emily Couric Memorial Lecture and discusses current colon cancer screening tests and strategies to increase screening uptake in all populations.

Aasma Shaukat, MD, MPH, FACG serves as the Director of Outcomes Research in the Division of Gastroenterology and Hepatology at NYU Langone Health. Dr. Shaukat also has dual appointments as the endowed Robert M. and Mary H. Glickman Professor of Medicine and Gastroenterology in the Department of Medicine and Professor in the Department of Population Health. In addition to her role within the division, she serves as co-director of translational research education and careers in the Clinical and Translational Science Institute and is a staff physician at the New York Harbor VA Medical Center. Before joining NYU Langone, Dr. Shaukat served on the faculty at the University of Minnesota Medical School, where she was a professor of medicine and public health and section chief of gastroenterology service at the Minneapolis VA Health Care System. An alum of the Aga Khan University Medical College in Karachi, Pakistan, Dr. Shaukat obtained a Master of Public Health in international health and epidemiology from Johns Hopkins School of Public Health. She went on to complete her residency in internal medicine at the State University of New York School of Medicine in Buffalo, New York, and a fellowship in gastroenterology at Emory University.

A highly regarded clinician, distinguished epidemiologist, and prolific researcher, Dr. Shaukat has published extensively on colorectal cancer screening, prevention, and quality indicators for colonoscopy. She has pioneered some of the foundational studies on the reduction in morbidity and mortality related to colon cancer screening and, most recently, served as first author on the newly updated ACG Clinical Guidelines: Colorectal Cancer Screening 2021 published in *The American Journal of Gastroenterology*. Her research has been consistently funded by organizations such as the National Institutes of Health, Department of Veterans Affairs, American College of Gastroenterology, and American Society for Gastrointestinal Endoscopy.

Dr. Shaukat has published more than 180 peer-reviewed articles in numerous top-tier medical publications, authored a number of textbook chapters, and serves on multiple editorial boards. She is a thought leader and has given numerous keynote presentations both nationally and internationally. She has served on several review panels and holds leadership roles with numerous professional organizations and task forces, including the U.S. Multi-Society Task Force on Colorectal Cancer, the American Society of Clinical Investigation, chair of the Young GI members committee for the WGO, chair of the GI field advisory board for Veterans healthcare administration, the American Society for Gastrointestinal Endoscopy Quality and Safety Committee, and the American Gastroenterological Association Clinical Practice Updates Committee.

The Emily Couric Memorial Lecture was developed by the ACG, the Virginia Gastroenterological Society, and the Old Dominion Society of Gastroenterology Nurses and Associates in honor of Virginia State Senator Emily Couric, who died of pancreatic cancer in October 2001. Senator Couric was a strong advocate for health care issues, particularly in her instrumental work to pass the nation's first legislation mandating health insurance coverage for colorectal cancer screening.

DAVID Y. GRAHAM LECTURE

Why Do All Diseases Start in the Gut?

Emeran A. Mayer, MD

📅 WEDNESDAY, OCTOBER 26 | ⌚ 10:20 AM – 10:50 AM | EXHIBIT HALL C2

Attend Dr. Mayer's David Y. Graham Lecture and gain a better understanding of how the gut connectome translates microbial signals into health and disease.

Emeran A. Mayer, MD, is a Distinguished Research Professor in the Department of Medicine at the David Geffen School of Medicine at UCLA with joint appointments in Psychiatry and Physiology. He is the Executive Director of the G. Oppenheimer Center for Neurobiology of Stress and Resilience and Founding Director of the UCLA Microbiome Center at UCLA. He is one of the pioneers and leading researchers in the role of brain gut interactions in health and chronic disease. He has been continuously funded by the NIH for the past 30 years and has published close to 400 scientific papers, co-edited 3 books, published the best-selling *The Mind Gut Connection* book in 2016 and *The Gut Immune Connection* book in June 2021. He is the recipient of the 2016 David McLean award from the American Psychosomatic Society and the 2017 Ismar Boas Medal from the German Society of Gastroenterology and Metabolic Disease. His most recent work has focused on alterations in the bidirectional communications within the brain gut microbiome system and their role in chronic inflammatory and functional diseases of the gut, obesity, and cognitive decline.

The Graham Lecture is chosen by the ACG President and is subject to approval by the Board of Trustees. Established in 2004 in recognition of the many contributions to clinical gastroenterology made by David Y. Graham, MD, MACG, this named lectureship was made possible through a donation by Otsuka Pharmaceuticals Co., Inc. and Meretek Diagnostics, Inc.

GI FELLOWS-IN-TRAINING

events

! These sessions are available for in-person attendees only

NAVIGATING, NETWORKING, AND NEGOTIATING YOUR FIRST JOB WORKSHOP

Friday, October 21 | 5:45 pm - 9:00 pm

The ACG Women in GI Committee is hosting a program for both men and women geared towards senior GI fellows and junior faculty, addressing the specifics of both the private practice and academic job search. Discussions will focus on details of private practice versus academics, contract analysis, networking skills, negotiating skills, and work-life balance. Separate breakouts for small group discussions are planned.

Advance registration is required and space is limited. There is a \$25 fee for this workshop. Dinner will be provided. Visit the Registration Desk on Level 1 for registration information, however, this event may be sold out.

CAREER OPPORTUNITIES FOR WOMEN IN GI LUNCHEON

Saturday, October 22 | 12:20 pm - 1:35 pm

The ACG Women in GI Committee is hosting a program geared toward residents, trainees and junior faculty who are facing difficult decisions regarding the future of their medical careers. Female gastroenterologists from a variety of medical backgrounds will address the issues of being a female subspecialist, balancing career and family, and opportunities for women in medicine, and more specifically, gastroenterology.

Advance registration is required and space is limited. Visit the Registration Desk on Level 1 for registration information, however, this event may be at capacity.

GI JEOPARDY: BUZZ IN FOR YOUR TRAINING PROGRAM

Saturday, October 22 | 5:30 pm - 7:00 pm | Room W207

ACG's favorite quiz show, GI Jeopardy, is back! Contestants are all current Fellows-in-Training, but all are welcome to attend the competitive final round, a spirited GI version of the television classic.

TRAINEES LUNCH SESSION: LIFE AFTER TRAINING: CHOOSING YOUR PATH AFTER FELLOWSHIP

Sunday, October 23 | 12:20 pm - 1:35 pm

Enjoy a special luncheon session reconnecting with colleagues and interacting directly with our panel of ACG leaders.

Advance registration is required and space is limited. This luncheon is available to all trainees in gastroenterology and hepatology, and has a fee of \$25. Visit the Registration Desk on Level 1 for registration information, however, this event may be sold out.

HANDS-ON WORKSHOP CENTER - RESIDENT-ONLY SESSIONS - EXHIBIT HALL AB

Sunday, October 23	Monday, October 24	Monday, October 24
4:00 pm - 5:00 pm	10:30 am - 11:30 am	3:45 pm - 4:45 pm

Residents will be able to get hands-on endoscope training in our residents-only training sessions. Experts will be available to guide residents on the use of the scopes as they navigate tasks using the Thompson Endoscopic Skills Trainer (T.E.S.T).

ENDOTITANS HANDS-ON CHALLENGE

Sunday, October 23 | 5:15 pm - 7:00 pm | Hands On Workshop - Exhibit Hall AB

The EndoTitans Challenge is back! Join us in the Hands-On Workshop area of the Exhibit Hall to cheer on the competitors. Winners will take home both bragging rights and a travel grant for ACG 2023.

HANDS-ON ENDOSCOPY WORKSHOP CENTER: TRAINEE-ONLY SESSIONS

Monday, October 24 | 7:45 am - 9:30 am | Exhibit Hall AB

The always popular FREE Hands-on Endoscopy Workshop Center sessions will again be offered in the Exhibit Hall. Expert faculty will demonstrate techniques using a wide variety of equipment and products. Attendees will then have an opportunity to practice using the equipment.

RESIDENTS SESSION - APPLYING FOR GI FELLOWSHIP

Monday, October 24 | 10:30 am - 11:30 am | Richardson Ballroom

The American College of Gastroenterology is introducing a special session for internal medicine residents who are interested in pursuing a career in gastroenterology. Gastroenterology & Hepatology fellowship continues to be one of the most competitive internal medicine subspecialties. This session will focus on answering questions that prospective GI fellowship applicants may have. In addition, a panel of GI fellowship program directors and current GI fellows will share their experiences and tips regarding the application process.

This free session is open to all residents attending the Annual Meeting. No pre-registration is required.

HOW TO GET PUBLISHED: AN ACG JOURNAL EDITORS ROUNDTABLE

Tuesday, October 25 | 7:30 am - 8:15 am | Room E220

ACG's journal editors frequently receive questions about how best to get published, how they assess submissions, and how to best format a manuscript. In this session, the editors reveal answers to the "Top 10 Questions" they receive about the publication process and share pearls of wisdom about what works—and what doesn't—when submitting papers for publication. If you want to start or improve your publishing career, then don't miss this valuable opportunity to hear directly from the editors who are eager to help!

This session is free and open to all in-person attendees.

ITERATIVE HEALTH

Bringing the
latest in precision
medicine to GI Care.

Precision medicine has seen a number of game-changing advancements over the past few years. Now we're bringing the benefits of AI-driven computational tools to gastroenterology.

Learn how we are creating a
higher worldwide standard for
GI care at our booth: 1341

TEXT YOUR QUESTIONS TO THE MODERATORS!

Do you have a
question for the
moderator of
a course you're
attending?

1. **FIND THE CODE** for your session below
 2. **TEXT THE CODE AND YOUR QUESTION TO 22333** during the session
 3. **You MUST TEXT "LEAVE" to 22333 AT THE END OF EACH SESSION** in order to participate in subsequent sessions.
- FOR EXAMPLE:** if you have a question during Saturday's Postgraduate Course Session 1A: Colorectal Cancer, you would send a text to 22333 with the code ACGPG1A and your question.

MONDAY OCTOBER 24	Presidential Plenary Session 1	8:00 am - 9:00 am	Exhibit Hall C2	Code: ACGPRES1
	Presidential Plenary Session 2	9:30 am - 10:30 am	Exhibit Hall C2	Code: ACGPRES2
	Resident Session - Applying for GI Fellowship	10:30 am - 11:30 am	Richardson Ballroom	Code: ACGRES
	Simultaneous Symposium 1A	11:30 am - 12:45 pm	Exhibit Hall C2	Code: ACGAM1A
	Simultaneous Symposium 1B	11:30 am - 12:45 pm	Exhibit Hall C1	Code: ACGAM1B
	Simultaneous Symposium 1C	11:30 am - 12:45 pm	Richardson Ballroom	Code: ACGAM1C
	Plenary Session 1A	2:15 pm - 3:00 pm	Exhibit Hall C2	Code: ACGPL1A
	Plenary Session 1B	2:15 pm - 3:00 pm	Exhibit Hall C1	Code: ACGPL1B
	Simultaneous Symposium 2A	4:45 pm - 6:00 pm	Exhibit Hall C2	Code: ACGAM2A
	Simultaneous Symposium 2B	4:45 pm - 6:00 pm	Exhibit Hall C1	Code: ACGAM2B
	Simultaneous Symposium 2C	4:45 pm - 6:00 pm	Richardson Ballroom	Code: ACGAM2C
TUESDAY OCTOBER 25	Journal Editors Roundtable	7:30 am - 8:15 am	E220	Code: ACGJER
	Plenary Session 2A	8:30 am - 10:00 am	Exhibit Hall C2	Code: ACGPL2A
	Plenary Session 2B	8:30 am - 10:00 am	Exhibit Hall C1	Code: ACGPL2B
	Simultaneous Symposium 3A	11:30 am - 12:45 pm	Exhibit Hall C2	Code: ACGAM3A
	Simultaneous Symposium 3B	11:30 am - 12:45 pm	Exhibit Hall C1	Code: ACGAM3B
	Simultaneous Symposium 3C	11:30 am - 12:45 pm	Richardson Ballroom	Code: ACGAM3C
	Plenary Session 3A	2:15 pm - 3:45 pm	Exhibit Hall C2	Code: ACGPL3A
	Plenary Session 3B	2:15 pm - 3:45 pm	Exhibit Hall C1	Code: ACGPL3B
	Simultaneous Symposium 4A	5:10 pm - 6:25 pm	Exhibit Hall C2	Code: ACGAM4A
	Simultaneous Symposium 4B	5:10 pm - 6:25 pm	Exhibit Hall C1	Code: ACGAM4B
WEDNESDAY OCTOBER 26	Plenary Session 4A	8:30 am - 10:15 am	Exhibit Hall C2	Code: ACGPL4A
	Plenary Session 4B	8:30 am - 10:15 am	Exhibit Hall C1	Code: ACGPL4B
	Simultaneous Symposium 5A	11:00 am - 12:15 pm	Exhibit Hall C2	Code: ACGAM5A
	Simultaneous Symposium 5B	11:00 am - 12:15 pm	Exhibit Hall C1	Code: ACGAM5B

FRIDAY COURSES

i The following courses will be held in-person, livestreamed, and available as on-demand content after the meeting: the Friday morning GI Pathology and Imaging Course; the Friday afternoon What's New in GI Pharmacology Course; and the Friday ASGE Endoscopy Course. The Friday afternoon Practice Management Summit will not be livestreamed. It will be held in-person and will be recorded and posted as on-demand content to the Conference Platform after the meeting.

INDICATES LIVESTREAM SESSION FOR VIRTUAL REGISTRANTS

GI PATHOLOGY AND IMAGING COURSE

Friday, October 21, 2022 | 7:00 am - 12:30 pm | Richardson Ballroom. A

Course Directors: Olga C. Aroniadis, MD, MSc, FACP, and Anita Afzali, MD, MPH, MHCM, FACP

i This program will be held in-person, livestreamed, recorded, and available as on-demand content after the meeting.

LEARNING OBJECTIVES

- Describe current concepts of radiology and pathology in the evaluation and treatment of patients with gastrointestinal diseases.
- Identify radiologic findings related to gastrointestinal diseases of the esophagus, stomach, small and large intestine, liver, gallbladder, and pancreas.
- Evaluate both basic and advanced pathology findings in patients with gastrointestinal diseases through close examination of representative photomicrographs.
- Correlate typical radiology and pathology findings reflective of both the normal and abnormal physiology and pathophysiology.

ACCREDITATION / CME / MOC

The American College of Gastroenterology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American College of Gastroenterology designates this other activity (blended learning) for a maximum of 5.25 *AMA PRA Category 1 Credits*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 5.25 MOC points in the American

Board of Internal Medicine's (ABIM) and the American Board of Pediatrics' (ABP) Maintenance of Certification (MOC) programs. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM and ABP MOC credit.

COURSE AGENDA

7:00 am Welcome and Introductions

Olga C. Aroniadis, MD, MSc, FACP, and
Anita Afzali, MD, MPH, MHCM, FACP

7:05 am Exploring Swallowing and Digestion: Pathology and Imaging of the Esophagus and Stomach

Pathologist: Nicole C. Panarelli, MD
Radiologist: Douglas S. Katz, MD, FACP, FASER, FSAR

8:05 am Q & A

8:15 am A Deep Dive into the GI Tract: Pathology and Imaging of the Small Bowel and Pancreas

Pathologist: David N. Lewin, MD
Radiologist: Rashmi T. Nair, MD

9:20 am Q & A

9:25 am Break

9:45 am The Hepatobiliary System: Pathology and Imaging of the Liver and Gallbladder

Pathologist: Rondell P. Graham, MBBS
Radiologist: Zarine K. Shah, MD

11:05 am Q & A

11:15 am Understanding Polyps, Tumors, IBD, and More: Pathology and Imaging of the Colon and Rectum

Pathologist: Emma E. Furth, MD
Radiologist: David J. Vining, MD

12:20 pm Q & A

12:30 pm Course Adjourns

FACULTY

Anita Afzali, MD, MPH, MHCM, FACP

Executive Vice Chair, Department of Internal Medicine; Associate Chief Medical Officer, UC Health and Cincinnati Children's Hospital, University of Cincinnati, Dublin, OH

Olga A. Aroniadis, MD, MSc, FACP

Associate Professor of Clinical Medicine, Stony Brook University Hospital, Stony Brook, NY

Emma E. Furth, MD

Professor of Pathology and Laboratory Medicine, Hospital of the University of Pennsylvania, Philadelphia, PA

Rondell P. Graham, MBBS

Head of Section of GI/Liver Pathology, Mayo Clinic, Rochester, MN

Douglas S. Katz, MD, FACP, FASER, FSAR

Professor of Radiology, NYU Long Island School of Medicine, and Vice Chair of Research, Department of Radiology, NYU Long Island School of Medicine, NYU Langone Hospital - Long Island, Mineola, NY

David N. Lewin, MD

Director of Gastrointestinal Pathology, Medical University of South Carolina, Charleston, SC

Rashmi T. Nair, MD

Associate Professor, University of Kentucky, Lexington, KY

Nicole C. Panarelli, MD

Associate Professor of Pathology, Montefiore Medical Center, Bronx, NY

Zarine K. Shah, MD

Associate Professor, The Ohio State University Wexner Medical Center, Columbus, OH

David J. Vining, MD

Professor, The University of Texas MD Anderson Cancer Center, Sugar Land, TX

FRIDAY COURSES

FRIDAY, OCTOBER 21, 2022 | ⌚ ALL TIMES ARE EASTERN

📺 WHAT'S NEW IN GI PHARMACOLOGY COURSE

Friday, October 21, 2022 | 1:45 pm - 5:20 pm | Richardson Ballroom A

Course Directors: Brooks D. Cash, MD, FACP, and William D. Chey, MD, FACP

! This program will be held in-person, livestreamed, recorded, and available as on-demand content after the meeting.

COURSE DESCRIPTION

Experts will define and describe the use and management of new pharmacological therapies as well as provide updates on current pharmacological treatment options for a variety of GI disorders during the What's New in GI Pharmacology Course.

ACCREDITATION / CME / MOC

The American College of Gastroenterology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American College of Gastroenterology designates this other activity (blended learning) for a maximum of 3.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 3.25 MOC points in the American

Board of Internal Medicine's (ABIM) and the American Board of Pediatrics' (ABP) Maintenance of Certification (MOC) programs. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM and ABP MOC credit.

COURSE AGENDA

- 1:45 pm Welcome and Introductions**
Brooks D. Cash, MD, FACP, and William D. Chey, MD, FACP
- 1:50 pm In the Belly of the Beast: Acute and Chronic Intestinal Pseudo-Obstruction**
Brooks D. Cash, MD, FACP
Apply best evidence for the pharmacologic therapy of acute and chronic intestinal pseudo-obstruction.
- 2:10 pm What's New and What's Best for the Medical Treatment of NAFLD**
Nancy S. Reau, MD, FACP
Identify current best practices for assessing and treating NAFLD and review emerging therapies.
- 2:30 pm Mastering the Medical Management of Portal Hypertension and Hepatic Encephalopathy**
Benjamin D. Renelus, MD
Explain current and emerging medical therapies for compensated and decompensated chronic liver disease.
- 2:50 pm Weighing the Evidence for Pharmacologic Options for Obesity and Post-Bariatric Surgery Patients**
Violeta Popov, MD, PhD, FACP
Describe currently available medical and endoscopic bariatric therapies and optimal patient selection.
- 3:10 pm Q & A**

3:25 pm Break

3:40 pm Expert Opinion on CIC/IBS-C: Focus on the ACG/AGA Clinical Practice Guideline

William D. Chey, MD, FACP

Discuss updated guidance for the medical management of IBS-C and CIC.

4:00 pm Best Practices in Crohn's Disease: Current Standard of Care and Emerging/Investigational Therapies

Bruce E. Sands, MD, MS, FACP

Evaluate the evidence supporting current pharmacologic options for Crohn's disease and discuss therapies in development.

4:20 pm View from the Top: Management of Chronic Abdominal Pain

Lin Chang, MD, FACP

Explain and apply the rationale for pain modulating therapies in patients with chronic abdominal pain.

4:40 pm Stop the Bleeding: Managing Anticoagulation in the Perendoscopic Period

Neena S. Abraham, MD, MSc (Epid), MACG

Describe the newest information regarding the management of anticoagulation in the perendoscopic period and in patients with acute and chronic GI bleeding.

5:00 pm Q & A

5:20 pm Course Adjourns

FACULTY

Neena S. Abraham, MD, MSc (Epid), MACG

Professor of Medicine, Mayo Clinic, Scottsdale, AZ

Brooks D. Cash, MD, FACP

Dan and Lillie Sterling Professor of Medicine; Chief, Division of Gastroenterology, Hepatology, and Nutrition, University of Texas Health Science Center at Houston, Houston, TX

Lin Chang, MD, FACP

Professor of Medicine, David Geffen School of Medicine at UCLA, Los Angeles, CA

William D. Chey, MD, FACP

Timothy T. Nostrand Collegiate Professor of Gastroenterology; Director, GI Physiology Laboratory; Medical Director, Michigan Bowel Control Program; Director, Digestive Disorders Nutrition and Behavioral Health Program, University of Michigan, Ann Arbor, MI

Violeta Popov, MD, PhD, FACP

Director of Bariatric Endoscopy, NYU Langone Health/NY VA Harbor Health System (Manhattan), New York, NY

Nancy S. Reau, MD, FACP

Professor of Medicine, Associate Director of Solid Organ Transplantation; Section Chief, Hepatology, Richard B. Capps Chair of Hepatology, Rush University Medical Center, Chicago, IL

Benjamin D. Renelus, MD

Assistant Professor of Medicine, Morehouse School of Medicine, Atlanta, GA

Bruce E. Sands, MD, MS, FACP

Chief, Division of Gastroenterology, Icahn School of Medicine at Mount Sinai, New York, NY

PRACTICE MANAGEMENT SUMMIT 2022: Mounting Pressure For GI Practices: But A Toast To Survival

Friday, October 21, 2022 | 1:45 pm – 5:30 pm | Room E219AB

Course Directors: Vonda G. Reeves, MD, MBA, FACC, and Manoj K. Mehta, MD, FACC

! This program will be held in-person, recorded, and available as on-demand content after the meeting. (no livestream option will be offered)

COURSE DESCRIPTION

Join ACG in 2022 for our Practice Management Summit. Healthcare delivery is transforming at an accelerating rate, but opportunities in the field of gastroenterology remain strong for private practice physicians to claim ownership of their practices and their careers. Managing challenges to independence will be even more important during these changing times, but that alone will not be enough for success. Participants in the Practice Management Summit will hear from colleagues about new and innovative ways to improve operations, enhance productivity, and guarantee success of their practices.

ACCREDITATION / CME / MOC

The American College of Gastroenterology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American College of Gastroenterology designates this other activity (blended learning) for a maximum of 3.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 3.75 MOC points in the American Board of Internal Medicine's (ABIM) and the American Board of Pediatrics' (ABP) Maintenance of Certification (MOC) programs. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM and ABP MOC credit.

COURSE AGENDA

1:45 pm Welcome and Introductions

Vonda G. Reeves, MD, MBA, FACC, and Manoj K. Mehta, MD, FACC

SESSION 1: Pressure Points in GI Practice Management: Mistakes and Threats

1:50 pm Toolbox Tidbits #1

1:55 pm Mistakes: Avoiding Costly Billing and Coding Errors

Arlene Morrow, RN, CPC, CCS-P, CMSCS, CCC, PCS and Kathleen A. Mueller, RN, CPC, CCS-P, QMC, QMGC
Describe common billing and coding errors and how to streamline the documentation and billing process for your practice.

2:35 pm Threats: Medicolegal Risks Today and on the Horizon

Erin Smith Aebel, JD
Explain the various legal situations for a GI practice and how to mitigate risks.

2:55 pm Q & A

SESSION 2: Unpacking the ACG Practice Management Toolbox

3:10 pm Toolbox Tidbits #2

3:15 pm Management Leadership: Staffing Challenges and Tips in a Post-COVID World

Harry E. Sarles, Jr., MD, MACG

Discuss staffing challenges including guidance on staff retention and satisfaction.

3:35 pm Cognitive Overload: Improving Emotional Intelligence for the Stretched and Stressed

David J. Hass, MD, FACC

Identify the difference between being stretched and being stressed and how to use emotional intelligence to address both.

3:55 pm Q & A

4:10 pm Break

SESSION 3: Partnering With Private Equity: Are You Satisfied?

4:20 pm Toolbox Tidbits #3

4:25 pm Partnering With Private Equity

Ericka L. Adler, JD, LL.M

Recognize the components of a good private equity contract and how to make sure that everyone will come out ahead.

4:45 pm Q & A

4:55 pm Break / Reception Begins

SESSION 4: COVID and Cocktails: A Toast to Survival!

5:00 pm Panel Discussion – Disruption or Distortion: Emergent Practices in GI

Praveen Suthrum, MBA, and Scott Fraser, MBA

Distill and dispel the emergent trends ahead for GI practices.

5:30 pm Course Adjourns

FACULTY

Ericka L. Adler, JD, LL.M

Shareholder, Practice Group Leader, Roetzel & Andress, Chicago, IL

Erin Smith Aebel, JD

Shareholder, Trenam Law, Tampa, FL

Scott Fraser, MBA

Founding Partner, Fraser Healthcare, Malvern, PA

David J. Hass, MD, FACC

Associate Clinical Professor of Medicine, Yale University School of Medicine, Hamden, CT

Manoj K. Mehta, MD, FACC

Medical Director, The Endoscopy Center of the North Shore, Wilmette, IL

Arlene Morrow, CPC, CMSCS, CMM

Consultant, Seminar Leader, McVey Seminars, Tampa, FL

Kathleen A. Mueller, RN, CPC, CCS-P, QMC, QMGC

President, AskMueller Consulting, LLC, Lenzburg, IL

Vonda G. Reeves, MD, MBA, FACC

Physician, GI Associates Endoscopy Center, Flowood, MS

Harry E. Sarles, Jr., MD, MACG

Founding Partner and Medical Director for DRI, GI Alliance, Rockwall, TX

Praveen Suthrum, MBA

Cofounder and President, NextServices, Ann Arbor, MI

FRIDAY COURSES

FRIDAY, OCTOBER 21, 2022 | ⌚ ALL TIMES ARE EASTERN

ASGE ENDOSCOPY COURSE:

Expanding the Scope of Fundamental and Advanced Endoscopy

Friday, October 21, 2022 | 8:00 am - 4:15 pm | Richardson Ballroom B

Course Directors: James L. Buxbaum, MD, FASGE, Peter V. Draganov, MD, FASGE, FACP, and Aasma Shaukat, MD, MPH, FASGE, FACP

! This program will be held in-person, livestreamed, and recorded. ASGE will email a link to virtual participants for the livestream. Recordings will be available after the course in GI Leap.

COURSE DESCRIPTION

Participate in-person or virtually from home or office. You'll still receive the world-class educational experience that is the hallmark of ASGE, including the ability to participate in real-time Q&A sessions.

Course materials will be available prior to the start of the course and upon completion, you will receive access to recordings of each presentation along with pdf files of presentations in GI Leap.

If you are looking to access CME and MOC credit, then plan your participation in this program so you can earn both of these valuable credits.

We look forward to your participation at this hybrid event.

ACCREDITATION / CME / MOC

The American Society for Gastrointestinal Endoscopy (ASGE) is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

ASGE designates this other activity (blended learning) for a maximum of 6.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 6.75 Medical

Knowledge MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

Upon completion of this educational activity, physicians will be able to:

- Summarize highlighted emerging tools to diagnose early neoplasia of colon, esophagus, stomach, pancreas, bile duct, and small intestine (comprehension).
- Identify cutting-edge endoscopic therapy for diseases of the GI lumen and pancreaticobiliary tree (knowledge).
- Provide examples of how to adopt stated endoscopic evidence-based diagnostic recommendations into your daily clinical gastroenterology practice (comprehension).

COURSE AGENDA

7:00 am Continental Breakfast

8:00 am Introductions by Course Directors

James L. Buxbaum, MD, FASGE, Peter V. Draganov, MD, FASGE, FACP, and Aasma Shaukat, MD, MPH, FASGE, FACP

SESSION 1: UGI: Starting at the Source

Moderators: Aasma Shaukat, MD, MPH, FASGE, FACP, and James L. Buxbaum, MD, FASGE

8:05 am Point Counterpoint: All Barrett's Should Be Ablated
Nicholas J. Shaheen, MD, MPH, FASGE, MACG

8:15 am Point Counterpoint: Risk Stratification and Selection Is Key for Barrett's Ablation
Sachin B. Wani, MD, FASGE

8:25 am Practice Updates: Management and Surveillance of Gastric Metaplasia
Robert J. Huang, MD

8:45 am State of the Art Lecture: Risk Stratification and Treatment of UGI Bleeding
Alan N. Barkun, MD, CM, MSc, FASGE, FACP

9:05 am Cases: Resection of Ampullary/Duodenal Polyps, Esophageal Strictures
Mohammad Bilal, MD, Rabia de Latour, MD, Mohammed O. Othman, MD, FASGE

9:25 am Q & A

9:40 am Break

SESSION 2: Colon: Heart of the Matter

Moderators: Peter V. Draganov, MD, FASGE, FACP, and James L. Buxbaum, MD, FASGE

9:50 am Point Counterpoint: Cold Snare Polypectomy for Polyps Large and Small
Charles J. Kahi, MD, MSc, FASGE, FACP

10:00 am Point Counterpoint: Selecting Polypectomy Technique Based on Polyp Characteristics
Amit Rastogi, MD, FASGE

10:10 am Practice Updates: Quality Indicators Beyond ADR and Interventions to Achieve Them
Aasma Shaukat, MD, MPH, FASGE, FACP

10:30 am State of the Art Lecture: Role of Endoscopy in the Management of Inflammatory Bowel Disease
Bo Shen, MD, FASGE, FACP

10:50 am Cases: Colonic Stenting, EMR, ESD, Endoscopic Full Thickness Resection
Uzma D. Siddiqui, MD, FASGE, FACP, Karl K. Kwok, MD, FASGE, Ara S. Sahakian, MD

11:15 am Q & A

11:30 am Lunch With Networking

SESSION 3: Biliary and Pancreas: Endoscopy in the Fight Against Obstruction, Inflammation, and Neoplasia

Moderators: *Peter V. Draganov, MD, FASGE, FACG, and James L. Buxbaum, MD, FASGE*

- 12:30 pm Point Counterpoint: Clear the Path: Papillary Dilation for Bile Duct Stones**
Prabhleen Chahal, MD, FASGE, FACG
- 12:40 pm Point Counterpoint: Go to the Source: Cholangioscopy for Bile Duct Stones**
Raj J. Shah, MD, MASGE, FACG
- 12:50 pm Practice Updates: Endoscopic Management of Acute Pancreatitis**
Shyam S. Varadarajulu, MD
- 1:10 pm State of the Art Lecture: Endohepatology: New Frontier for the Gastroenterologist**
David L. Diehl, MD, FASGE
- 1:30 pm Cases: Biliary Stenting for Cholangiocarcinoma, Endoscopic Gastro-Jejunostomy, Endoscopic Cyst Gastrostomy, and Necrosectomy Pancreatic Cyst Radiofrequency Ablation**
Ji Young Bang, MD, MPH, Amrita Sethi, MD, MASGE, and V. Raman Muthusamy, MD, MAS, FASGE, FACG
- 1:50 pm Q & A**
- 2:05 pm Break**

SESSION 4: The Cutting Edge: New Frontiers For Endoscopy

Moderators: *Peter V. Draganov, MD, FASGE, FACG, and James L. Buxbaum, MD, FASGE*

- 2:20 pm Point Counterpoint: Malignant Gastric Outlet Obstruction - Duodenal Stenting Is the Time-Tested Therapy**
Andy Tau, MD
- 2:30 pm Point Counterpoint: Malignant Gastric Outlet Obstruction. EUS Guided Gastro-Jejunostomy Is the Preferred Endoscopic Therapy in 2022**
Mouen A. Khashab, MD, MASGE
- 2:40 pm Practice Updates: Artificial Intelligence for Everyday Practice: Indications, Applications and Beyond**
Douglas K. Rex, MD, MASGE, MACG
- 3:00 pm State of the Art Lecture: The POEM Alphabet**
Dennis J. Yang, MD, FASGE, FACG
- 3:20 pm Cases: Tips, Techniques, and Tricks (POEM, TIFF, STER)**
Sofiya Reicher, MD, FASGE, FACG, Neil R. Sharma, MD, FACG, and Alireza Sedarat, MD
- 3:40 pm Q & A**
- 4:00 pm Final Remarks / ASGE Endoscopy Course Adjourns**

2022 ACG ANNUAL POSTGRADUATE COURSE

Course Directors: Christina Y. Ha, MD, FACP, and Colleen R. Kelly, MD, FACP

 INDICATES LIVESTREAM SESSION FOR VIRTUAL REGISTRANTS

i The Postgraduate Course includes simultaneous symposia sessions. Only one simultaneous symposia session per day will be livestreamed to virtual participants. The remaining symposia will be recorded and posted to the Conference Platform as on-demand content after the meeting.

In-person registrants can attend any of the simultaneous symposia sessions in Charlotte and will have access to all on-demand sessions through the Conference Platform after the meeting.

PROGRAM DESCRIPTION

With the need to remain abreast of the many new and emerging advancements in the field of gastroenterology and the patient volume increasing as the population ages, the clinical gastroenterologist is more challenged than ever to deliver the best patient care in each situation they encounter. Research across gastroenterology and hepatology areas progresses at a rapid pace. Advances in technology, diagnostic modalities, and therapeutic options have had a positive impact on the management of many GI diseases. Scientific education, based on critical foundational knowledge and clinical skills, the communication of practical methods for treatment, and the ability to integrate the newest tools in diagnosis with the latest therapeutic/treatment options, are key necessities for the GI clinician to deliver top quality patient care. This course will provide updates on a variety of gastroenterology and hepatology subjects including IBD therapy, colorectal cancer screening, functional GI disorders, esophageal disorders, GI bleeding, and liver disease. Expert faculty will deliver scientific presentations in a variety of formats. Didactic lectures, followed by interactive question and answer sessions, a choice of simultaneous sessions, and in-person Optional Learning Luncheons (separate purchase required) on the latest topics in GI and liver clinical care will be offered.

The program is designed primarily for clinicians in GI/hepatology, as well as physician assistants, nurse practitioners, and other advanced practice providers interested in a scientifically sound approach to the management of GI and liver illnesses.

▶ SATURDAY, OCTOBER 22, 2022 | 7:50 AM - 5:15 PM | EXHIBIT HALL C

7:00 am Registration Open

📍 Level 1 Concourse

7:50 am Introduction by Course Directors

SESSION 1A: Colorectal Cancer: Best Practices for Early Recognition and Surveillance

Moderator: Folasade P. May, MD, PhD, MPhil

8:00 am Screening for CRC: Who, What, When, Where and Why?

Folasade P. May, MD, PhD, MPhil

Summarize the latest guidelines and best practices for colorectal cancer screening based on individual risk factors. Provide recommendations regarding how to improve community CRC screening rates.

8:20 am A Primer on Polyps: Identification, Description, and Resection

Tonya R. Kaltenbach, MD, MS, FACP

Discuss the features that differentiate adenomas, hyperplastic lesions, serrated polyps, and lateral spreading tumors. Discuss the role of enhanced imaging modalities and best practices for endoscopic resection.

8:40 am What Happens Next? Post-Polypectomy Surveillance Recommendations

Samir Gupta, MD

Explain the recommendations for surveillance and screening intervals in individuals found to have polyps during colonoscopy based on the number, size, and histology of polyps removed.

9:00 am Quality Indicators in Colonoscopy: It's All in the Details

Douglas K. Rex, MD, MACG

Define the markers of a high-quality colonoscopy including prep quality and withdrawal time. Explain the importance of rating the quality of bowel preparation during colonoscopy and determining interval colonoscopy for patients with inadequate bowel preparation.

9:20 am Panel Q&A

9:40 am Break

10:00 am The David Sun Lecture - The Two Most Important Days: Reflections on Lasting Happiness and Living With Purpose

Sanjiv Chopra, MD

Introduced by: Samir A. Shah, MD, FACP, ACG President

SESSION 1B: Hot Off the Presses: The Latest Liver Updates for Practicing Clinicians

Moderator: Jasmohan S. Bajaj, MD, MSc, FACP

10:30 am Acute-on-Chronic Liver Failure: Updates From the 2022 ACG Guidelines

Jasmohan S. Bajaj, MD, MSc, FACP

Summarize the latest recommendations for evaluation and management of patients who present with acute and severe hepatic derangements in the setting of underlying liver disease or cirrhosis.

10:50 am More and Younger Patients: Trends in Alcohol-Associated Liver Disease and Most Effective Treatments

Vijay H. Shah, MD, FACP

Explain the role of the gastroenterologist in the diagnosis and multidisciplinary management of alcohol use disorder and alcohol-associated liver disease. Summarize the latest treatment options for ALD.

MERGING THE EVIDENCE AND THE ART: THE LATEST CLINICAL PRACTICE UPDATES IN GASTROENTEROLOGY AND HEPATOLOGY

11:10 am The Rapidly Growing Epidemic of Non-Alcoholic Fatty Liver Disease: What Should We Do?

A. Sidney Barritt, IV, MD, MSCR, FACG

Highlight the risk factors and the evidence-based management of nonalcoholic liver disease. Describe the indications and limitations of non-invasive testing and liver biopsy in patients with NAFLD.

11:30 am Does This Patient Need a Liver Biopsy? Utilizing Noninvasive Markers of Fibrosis and When to Pull the Trigger to Get Tissue

Ayşe Aytaman, MD, FACC

Describe indications and limitations of noninvasive testing and indications for obtaining a liver biopsy in patients with abnormal liver function tests.

11:50 am Panel Q&A

12:10 pm Break for Learning Luncheons

SATURDAY OPTIONAL LEARNING LUNCHEONS | 12:20 PM - 1:35 PM

12:20 pm Optional Learning Luncheons – Choose from 12

(Separate registration required. Visit Registration Desk on Level 1.)*

1. What Every Clinician Needs to Know About the Microbiome:

Composition, Function and Emerging Live Microbiome Therapeutics

Paul Feuerstadt, MD, FACC

Become familiar with common terminology, methodologies used to examine the gut microbiome, composition of function of the gut microbiome and ways microbiome data are communicated in the scientific literature. Discuss the spectrum of products in the pipeline for treatment of recurrent *C. difficile* and other indications and consider how their approval is likely to change the landscape around FMT.

2. Master Class: Complex and Challenging Polyps

Douglas K. Rex, MD, FACG

Learn expert tips and techniques for endoscopic resection of polyps that are large, flat, difficult to visualize, or otherwise challenging.

3. Preventing the “Inadequate Bowel Prep” Dilemma: Best Practices and Patient Guidance to Yield a High-Quality Exam

Audrey H. Calderwood, MD, MS, FACC

Explain the definition of inadequate bowel preparation and the appropriate interval to repeat colonoscopy procedure in the event of an inadequate bowel preparation.

4. *H. pylori*: Rise of the Resistance – Initial and Rescue Regimens

Colin W. Howden, MD, FACC

Identify who and how to test for *H. pylori*, choose best first-line regimens, and discuss the role of antibiotic resistance testing.

5. Esophageal Physiologic Testing: When to Order it and How to Interpret the Findings

C. Prakash Gyawali, MD, MRCP, FACC

Describe the role of performing a reflux monitoring study while on versus off treatment with proton pump inhibitors. Summarize the indications for esophageal manometry and describe classic manometric findings of esophageal disorders such as achalasia.

6. How I Do It: A Practical Approach to the Diagnosis and Management of Functional Dyspepsia

Linda Ahn B. Nguyen, MD, FACC

Understand normal gastric function and recognize the role of both altered motility and altered sensation in patients presenting with functional dyspepsia and describe management strategies that target these differing mechanisms.

7. Gas and Bloating: Controlling Emissions

Gregory S. Sayuk, MD, MPH

Identify an organized approach to the evaluation of symptoms of gas, bloating, and belching, and utilize best empiric therapies.

8. Quality Indicators in Upper GI Endoscopy

Sachin B. Wani, MD

Explain the accepted indications for upper endoscopy and the quality indicators for endoscopy including structural measures, process measures, and outcome measures.

9. Updates in the Management of Hepatocellular Carcinoma

Patricia D. Jones, MD, MSCR

Highlight the risk factors, surveillance and management strategies for hepatocellular carcinoma including patient criteria for liver transplantation.

10. Optimizing Nutrition in Liver Disease

Craig J. McClain, MD, FACC

Highlight the impact of malnutrition and deficiencies in chronic liver disease and strategies to optimize nutritional status to improve patient outcomes.

11. Updates in Caring for Pregnant Women With Irritable Bowel Syndrome: A Case-Based Approach

Baharak Moshiree, MD, FACC

Highlight the key strategies for monitoring and treating irritable bowel syndrome in women throughout pregnancy and post-partum.

12. Cases From an IBD Center: Managing IBD Patients Beyond Luminal Inflammation

Anita Afzali, MD, MPH, MHCM, FACC

Discuss some of the daily challenges and frustrations encountered in caring for patients with inflammatory bowel disease including mental health issues, compliance, communications, managing expectations and medication coverage.

1:35 pm Break

SIMULTANEOUS SYMPOSIA | 1:45 pm - 3:00 pm

SYMPOSIUM A: Chronic Diarrhea: Can't Stop, Won't Stop – Best Practices for Diagnosis and Management

Moderator: Colleen R. Kelly, MD, FACC

📍 Richardson Ballroom

1:45 pm Microscopic Colitis: Triggers, Treatments, and Tricks of the Trade

Darrell S. Pardi, MD, MS, FACC

Summarize the clinical presentation, risk factors, and management of microscopic colitis. Provide strategies to access treatment options for more refractory cases of microscopic colitis.

2:05 pm Challenging Cases in *C. difficile*

Colleen R. Kelly, MD, FACC

Explain how to diagnose *C. difficile* using multi-step testing, recognize symptomatic colonization, and identify how to manage severe/fulminant or complex cases.

2:25 pm The Evolving Case: Stepwise Approach to Chronic Diarrhea

Carl V. Crawford, Jr., MD

Develop a rational approach for the evaluation of patients with chronic diarrhea and describe indications for expanded testing to rule out more elusive or rarer etiologies.

2:45 pm Panel Q & A

POSTGRADUATE COURSE

SATURDAY & SUNDAY, OCTOBER 22-23, 2022 | 🕒 ALL TIMES ARE EASTERN

📺 INDICATES LIVESTREAM SESSION FOR VIRTUAL REGISTRANTS

SYMPOSIUM B: The Rapidly Growing Epidemic: Obesity Practice Guidance

Moderator: Reem Z. Sharaiha, MD, MSc

📍 Exhibit Hall C1

1:45 pm Obesity Treatment: Role of the Clinical Gastroenterologist

Octavia Pickett-Blakely, MD, MHS

Summarize non-surgical approaches to managing obesity including diet and pharmacological options. Review the pre-procedure or pre-operative assessments for bariatric patients prior to surgery or endoscopic treatments.

2:05 pm Bariatric Endoscopy

Reem Z. Sharaiha, MD, MSc

Summarize the endoscopic bariatric procedures currently available and those on the horizon. Discuss the appropriate candidates for bariatric endoscopic versus surgical procedures.

2:25 pm Managing Postoperative Complications of Bariatric Surgery

Pichamol Jirapinyo, MD, MPH

Recognize the anatomy of bariatric surgery, identifying, and treating complications including nutritional deficiencies, marginal ulceration, and endoscopic management of surgical complications.

2:45 pm Panel Q & A

📺 SYMPOSIUM C: Starting at the Top: Esophageal Disorders Made Easy

Moderator: Nicholas J. Shaheen, MD, MPH, MACG

📍 Exhibit Hall C2

1:45 pm Leading Off With Barrett's: Update on the New ACG Treatment Guidelines

Nicholas J. Shaheen, MD, MPH, MACG

Recognize risk factors for GERD that need to be considered when deciding whether a patient should be screened for Barrett's esophagus. Review the management of non-dysplastic BE including surveillance intervals.

2:05 pm Bird Beaks, Botox, and POEMs: Diagnosis and Management of Achalasia

John E. Pandolfino, MD, MSCI, FACP

Identify the 3 subtypes of achalasia and summarize the comparative effectiveness of botulinum toxin injection, pneumatic dilation, Heller myotomy, and POEM for the treatment of achalasia.

2:25 pm Sorting Out GERD, NERD, and Non-Cardiac Chest Pain

Rena H. Yadlapati, MD, MSHS, FACP

Formulate a plan for the evaluation of patients with GERD symptoms that do not respond to treatment with lifestyle management or PPIs, including the role of endoscopy, reflux monitoring studies, impedance, and motility testing.

2:45 pm Panel Q & A

3:00 pm Break

📺 SESSION 1C: Addressing the Challenges of Pancreaticobiliary Diseases

Moderator: Uzma D. Siddiqui, MD, FACP

📍 Exhibit Hall C

3:35 pm Endoscopic Management of Acute and Chronic Pancreatitis

Uzma D. Siddiqui, MD, FACP

Appraise EUS-guided pain management in the setting of chronic pancreatitis and pancreatic cancer, its safety and efficacy. Discuss the indications and pitfalls of EUS-guided drainage of pancreatic fluid collections.

3:55 pm An Updated Approach to Pancreatic and Biliary Strictures

B. Joseph Elmunzer, MD, MSc

Summarize the differential diagnosis of pancreatic and biliary strictures and appraise the utility of cross-sectional imaging, cholangioscopy, optical advances and endomicroscopy for indeterminate biliary and pancreatic strictures. Describe the management strategies of biliary and pancreatic strictures.

4:15 pm Complications of ERCP: How to Identify and Address Them

Martin L. Freeman, MD, MACG

Summarize the complications of ERCP including early recognition, diagnosis, and management strategies.

4:35 pm Panel Q&A

📺 4:55 pm Take-Home Pearls: What Did We Learn Today?

Christina Y. Ha, MD, FACP, and Colleen R. Kelly, MD, FACP

Review important and practical take-home messages from today's talks.

5:15 pm Adjourn for the day

🕒 SUNDAY, OCTOBER 23, 2022

7:50 AM - 5:15 PM | EXHIBIT HALL C

7:00 am Registration Open

📍 Level 1 Concourse

7:50 am Introduction by Course Directors

📺 SESSION 2A: GI Bleeding: Diagnosis, Management, Prevention

Moderator: Neena S. Abraham, MD, MSc (Epid), MACG

8:00 am Management of Anticoagulants and Antiplatelets During Acute GI Bleeding

Neena S. Abraham, MD, MSc (Epid), MACG

Recognize low-risk versus high-risk patients and endoscopic procedures and properly manage antithrombotic and antiplatelet agents.

8:20 am Upper GI Bleeding

Loren A. Laine, MD, FACP

Discuss the initial assessment and risk stratification of patients with UGI bleeding. Define the role of medical therapy and endoscopic modalities to treat UGI bleeding. Discuss the role of repeat endoscopy for patients with evidence of recurrent UGI bleeding.

8:40 am Acute Lower GI Bleeding

Lisa L. Strate, MD, MPH, FACP

Define the role of endoscopy, surgery, and interventional radiology in the management of lower GI bleeding.

9:00 am Disorders of the Hepatic and Mesenteric Circulation

Patrick S. Kamath, MD

Summarize the presentation and management of vascular disorders of the portal and mesenteric circulation.

9:20 am Panel Q&A

9:40 am Break

📺 SESSION 2B: Maximizing the Yield of the IBD Toolbox

Moderator: Christina Y. Ha, MD, FACP

10:00 am What's the Goal? Determining the Goals of Care Using Treat-to-Target and Shared Decision-Making Approaches

Millie D. Long, MD, MPH, FACP

Describe how to apply a "treat-to-target" strategy from selection to monitoring to optimization for an individual patient to improve outcomes.

10:20 am What Are We Looking At? Endoscopic Features of IBD

Anita Afzali, MD, MPH, MHCM, FACP

Explain the endoscopic features of IBD disease activity, post-surgical anatomy including ileocolonic anastomoses and ileal pouches. Describe the features that should be included in a quality IBD endoscopy report.

POSTGRADUATE COURSE

SATURDAY & SUNDAY, OCTOBER 22-23, 2022 | ⌚ ALL TIMES ARE EASTERN

📺 INDICATES LIVESTREAM SESSION FOR VIRTUAL REGISTRANTS

10:40 am How Does It Work? Describing the Mechanisms and Risks of Treatments to Patients

Christina Y. Ha, MD, FACC

Summarize the mechanisms of action, adverse effects and monitoring strategies of the biologics and small molecules in patient-friendly language.

11:00 am Why Choose Surgery? Counseling Patients About the Indications and Role of Surgery in IBD

Benjamin L. Cohen, MD, MAS

Identify both patient and disease related factors that should be considered to determine the appropriate time to send a patient to surgery and post-operative surveillance.

11:20 am What Else Do We Need to Do? Health Care Maintenance for IBD Patients

Freddy Caldera, DO, MS, FACC

Explain appropriate recommendations and timing for vaccinations, cancer screenings, osteoporosis assessments, and psychosocial care.

11:40 am Panel Q&A

12:00 pm Break for Learning Luncheons

SUNDAY OPTIONAL LEARNING LUNCHEONS | 12:20-1:35 pm

12:20 pm Optional Learning Luncheons – Choose from 12

(Separate registration required. Visit Registration Desk on Level 1.)*

13. Food Allergies vs Sensitivities and Their Role in the GI Tract: Fact or Fiction?

Brooks D. Cash, MD, FACC

Identify the latest evidence-based dietary advice for patients with functional GI diseases.

14. To Capsule or Not to Capsule, What's the Indication?

Shirley C. Paski, MD

Highlight the clinical scenarios where capsule endoscopy is important for clinical decision making.

15. Pancreatic Cancer: Screening, Surveillance, and Treatment

Aimee L. Lucas, MD, FACC

Appraise the need for pancreatic cancer screening in high-risk populations and local treatments for pancreaticobiliary malignancy.

16. Drug-Induced Liver Injury: Early Identification and Treatment

Haripriya Maddur, MD

Summarize the clinical presentation, potential causes, and management of drug-induced liver injury and when to refer for specialized care.

17. Portal Hypertension Management 101: Best Practices Based on Evidence and Experience

Patrick S. Kamath, MD

Describe surveillance, diagnosis, and management strategies for hepatic encephalopathy, varices, and ascites due to cirrhosis/portal hypertension.

18. Complications of Endoscopic Therapies: See Something, Do Something

Uzma D. Siddiqui, MD, FACC

Highlight the key features for early recognition and management of complications of endoscopy therapies including EMR, ESD, POEM, and dilation.

19. Middle of the Night Emergencies: Things You Need to Get Out of Bed For vs What Can Wait Until Morning

David A. Greenwald, MD, FACC

Discuss how to approach and triage GI emergencies such as bleeding, food impactions, foreign bodies, and cholangitis. Consider effective communications over emergency cases and how after-hours care can be optimized.

20. Breath Testing: A Clinician's Primer

William D. Chey, MD, FACC

Understand the types of breath testing available, both office and home based, and the utility of breath testing in clinical practice for diagnosis of lactose malabsorption, SIBO, and sucrose isomaltase deficiencies.

21. Making Peace With the Pelvic Floor

Adil E. Bharucha, MBBS, MD

Identify patients with pelvic floor dysfunction and develop a treatment plan.

22. The Reflux Conundrum: The Various Presentations and Mimickers of GERD

Rena H. Yadlapati, MD, MSHS, FACC

Outline the evidence-based approach to diagnosing and management of reflux including atypical presentations and non-acid related esophageal symptoms.

23. Beyond Antibiotics: Evidence-Based and "Outside the Box" Approaches to Management of Ileal Pouch Disorders

Edward L. Barnes, MD, MPH

Describe a systematic approach to the diagnosis of pouch-related complications and their management.

24. Updates in Dysplasia Surveillance in IBD

Samir A. Shah, MD, FACC

Provide an overview of the latest clinical practice updates for dysplasia surveillance in IBD including utilization of advanced imaging modalities such as narrow-band imaging and chromoendoscopy.

1:35 pm Break

SIMULTANEOUS SYMPOSIA | 1:45 pm – 3:00 pm

📺 SYMPOSIUM D: Lumps and Bumps in the GI Tract: Updates From New Guidelines

Moderator: Carol A. Burke, MD, FACC

📍 Exhibit Hall C2

1:45 pm Non-polypoid and Submucosal Masses in the GI Tract

Vanessa M. Shami, MD, FACC

Highlight the endoscopic and ultrasonographic features of submucosal masses of the GI tract. Summarize the management and surveillance strategies for the various types of submucosal lesions.

2:05 pm GI Polyposis Syndromes

Carol A. Burke, MD, FACC

Summarize the recommendations for screening and surveillance of patients with genetic colorectal cancer syndromes.

2:25 pm Gastric Premalignant Conditions

Douglas R. Morgan, MD, MPH, FACC

Recognize the implications of intestinal metaplasia of the stomach and risk of progression to high-grade dysplasia and cancer. Highlight the risk factors for gastric cancer and surveillance strategies.

2:45 pm Panel Q & A

SYMPOSIUM E: Small Bowel Disorders: More Than Just the Gluten

Moderator: Amy S. Oxentenko, MD, FACC

📍 Exhibit Hall C1

1:45 pm Celiac Disease Update

Carol E. Semrad, MD, FACC

Describe the differential diagnosis, testing, surveillance, and management of celiac disease including refractory celiac disease.

2:05 pm Enteric Infections and Food-borne Illnesses

Mark S. Riddle, MD, DrPH, FISTM

Learn the epidemiology, evaluation, and management of gastroenteritis including both common and rarer pathogens to be aware of.

2:25 pm Celiac Mimics and Autoimmune Enteropathies

Amy S. Oxentenko, MD, FACC

Appreciate the non-celiac causes of villous blunting as well as evaluation and management of autoimmune enteropathy.

2:45 pm Panel Q & A

POSTGRADUATE COURSE

SATURDAY & SUNDAY, OCTOBER 22-23, 2022 | ⌚ ALL TIMES ARE EASTERN

📺 INDICATES LIVESTREAM SESSION FOR VIRTUAL REGISTRANTS

SYMPOSIUM F: Gastrointestinal Complications of Oncology Treatments and Palliative Care Options

Moderator: Jennifer C. Lai, MD, MBA

📍 Richardson Ballroom

1:45 pm Immune Checkpoint Inhibitor Colitis and Other GI-Related Adverse Events

David M. Faleck, MD

Describe the mechanisms, presentation, and management of gastrointestinal complications of immune checkpoint inhibitor therapies.

2:05 pm Palliative Care in End-Stage Liver Disease

Jennifer C. Lai, MD, MBA

Provide recommendations and insights for gastroenterologists on palliative care strategies for end-stage liver disease.

2:25 pm Endoscopic Options for Malignant Luminal Obstruction and Bleeding

Amrita Sethi, MD

Understand the role of palliative stenting and venting G-tubes in malignant obstruction, nausea, and vomiting. Describe options for management of malignant GI bleeding including vascular interventional and endoscopic therapies.

2:45 pm Panel Q & A

3:00 pm Break

📺 SESSION 2C: What's New in Functional GI Disorders?

Moderator: Linda Anh B. Nguyen, MD, FACP

📍 Exhibit Hall C

3:35 pm The Lowdown on the Slowdown: Gastroparesis Updates

Linda Anh B. Nguyen, MD, FACP

Describe the clinical presentation, diagnosis, and latest evidence-based management of gastroparesis.

3:55 pm Moving Ahead: Best Practices for Addressing Constipation

William D. Chey, MD, FACP

Appraise the quality of evidence behind currently available pharmacotherapy for chronic idiopathic constipation (CIC) and irritable bowel syndrome with constipation (IBS-C).

4:15 pm Finishing Strong: Management of Benign Anorectal Disorders

Adil E. Bharucha, MBBS, MD

Evaluate the role of pelvic floor dysfunction in chronic constipation, irritable bowel syndrome (IBS) and fecal incontinence. Summarize the indications and classic findings for anorectal manometry.

4:35 pm Panel Q&A

4:55 pm 📺 Take-Home Pearls: What Did We Learn Today?

Christina Y. Ha, MD, FACP, and Colleen R. Kelly, MD, FACP

Review important and practical take-home messages from today's talks.

5:15 pm Postgraduate Course Adjourns

5:00 pm - 7:00 pm Scientific Poster Session A

5:30 pm - 6:30 pm Scientific Poster Session A - Authors Present / Poster Rounds With the Experts

📍 Crown Ballroom

❗ ***Separate Purchase Required for Postgraduate Course Optional Learning Luncheon Bonus Sessions:** You must register for the Postgraduate Course to purchase this package. In-person attendees purchasing the package will be able to select and attend a Saturday and a Sunday session during the registration process. Registration includes access to the faculty presentation slides and pre-recorded narrations for ALL 24 Bonus Luncheon Sessions. These recorded sessions will be available on the ACG 2022 Conference Platform until March 31, 2023. Bonus Luncheon Sessions will not be livestreamed.

ACCREDITATION / CME / MOC

The American College of Gastroenterology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American College of Gastroenterology designates this other activity (blended learning) for a maximum of 36.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

AMA PRA Category 1 Credits™ are awarded as follows: 18.75 *AMA PRA Category 1 Credits™* for the Postgraduate Course, and 18 *AMA PRA Category 1 Credits™* for the Postgraduate Course Optional Learning Luncheon Bonus Sessions (Bonus Luncheon Session must be purchased separately).

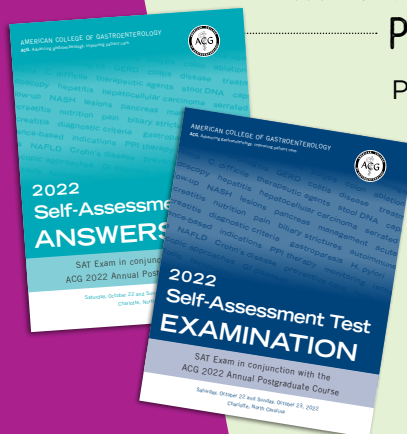

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 36.75 MOC points in the American Board of Internal Medicine's (ABIM) and the American Board of Pediatrics' (ABP) Maintenance of Certification (MOC) programs. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM and ABP MOC credit.

YOUR POSTGRADUATE COURSE REGISTRATION INCLUDES THE 2022 SELF-ASSESSMENT TEST!

All PG Course registrants (virtual and in-person) will receive access to the ONLINE version of the test. Registrants who attend in-person in Charlotte will also receive a PRINTED copy of the test when collecting meeting materials on-site.

THE 2022 EDITION INCLUDES:

- ✓ 300 questions
- ✓ The ability to track scores overall and by category
- ✓ Correct answers, detailed explanations, and a bibliography (with links to PubMed)
- ✓ 35 *AMA PRA Category 1 Credits™* and ABIM MOC points upon successful completion

NOT PARTICIPATING IN THE POSTGRADUATE COURSE?

Purchase the online test:

SATEST.GI.ORG

Members: \$99

Non-members: \$150

Lisa L. Strate, MD, MPH, FAGG
Professor of Medicine, Section Chief of Gastroenterology, Harborview Medical Center, Harborview Medical Center, Seattle, WA

Sachin B. Wani, MD
Professor of Medicine, University of Colorado, Anschutz Medical Center, Aurora, CO

Rena H. Yadlapati, MD, MSHS, FAGG
Associate Professor, University of California San Diego, San Diego, CA

2022 ANNUAL SCIENTIFIC MEETING

The Annual Scientific Meeting
is FREE for ACG members!

*Underlined names are presenting authors.

 INDICATES LIVESTREAM SESSION FOR VIRTUAL REGISTRANTS

The Annual Scientific Meeting includes simultaneous sessions. Only select simultaneous sessions will livestream to virtual participants. The remaining sessions will be recorded and posted to the Conference Platform as on-demand content after the meeting.

In-person registrants can attend any of the simultaneous sessions in Charlotte, and will have access to all on-demand sessions through the Conference Platform after the meeting.

PROGRAM DESCRIPTION

Gain insight from the experts, learn practical take-home points, and network with your colleagues when you attend the ACG Annual Scientific Meeting. Throughout the Scientific Meeting, faculty will present the latest in GI and hepatology, and how to incorporate findings into patient care. Hear about the latest clinical research during the free papers/oral presentation plenary sessions. In addition, there will be several featured lectures by world-renowned experts that delve into deeper discussion on a specific topic.

Twelve scientific symposia and over 65 oral abstract presentations will allow attendees to hear lecture presentations from experts and to participate in interactive question and answer sessions with the faculty.

In addition, 24 bonus sessions (formerly the breakfast sessions) will be offered as a separate registration option.

Finally, ACG's 10th Annual Endoscopy Video Forum will feature the best video presentations submitted from colleagues from across the U.S. and around the world.

The Annual Scientific Meeting program is designed primarily for physicians in gastroenterology and hepatology, as well as physician assistants, nurse practitioners, and other advanced practice healthcare professionals interested in the latest information on state-of-the-art treatment of these illnesses.

MONDAY, OCTOBER 24, 2022 | 7:50 AM - 6:30 PM | EXHIBIT HALL C2

6:30 am – 5:00 pm **Registration Open**
📍 Level 1 Concourse

7:00 am – 7:45 am **"Meet the Experts" Breakfast Sessions**
(Annual Meeting Bonus Sessions A-E. See page 42 for more information, and for details about purchasing access to all 24 Annual Meeting Bonus Sessions.)

7:45 am – 9:30 am **Hands-On Endoscopy Workshop Center – Trainee-Only Sessions**
📍 Exhibit Hall AB

7:50 am – 6:30 pm **Annual Scientific Meeting**

7:50 am – 8:00 am **Opening Remarks**
Samir A. Shah, MD, FACP, ACG President

 **8:00 am – 9:00 am** **PRESIDENTIAL PLENARY SESSION 1**
Moderators: Samir A. Shah, MD, FACP, and Brooks D. Cash, MD, FACP

1. (S712). Benefits of High versus Low Dose Upadacitinib as Maintenance Treatment in Ulcerative Colitis Patients Who Were Responders to 8-week Induction With Upadacitinib: Results From the U-ACHIEVE Phase 3 Maintenance Trial

★ Outstanding Research Award in the IBD Category

Brian G. Feagan, MD¹, Gareth Parkes, DO², Pascal Juillerat, MD³, Krisztina Gecse, MD⁴, Xuan Yao, PhD⁵, Wen Zhou, MD, PhD⁶, Huiwen Deng, PharmD⁷, Dapo Ilo, MBBS, MRCS, MSc⁵, Yuri Sanchez-Gonzalez, PhD⁵, Peter D. Higgins, MD, PhD, MSc⁸, ¹Alimentiv, Inc., Western University, London, ON, Canada, ²Barts Health NHS Trust and London School of Medicine and Dentistry, London, England, United Kingdom, ³Inselspital Bern and Bern University, Bern, Switzerland, ⁴Academic Medical Center, Amsterdam, Zuid-Holland, Netherlands, ⁵AbbVie, Inc., North Chicago, IL, ⁶AbbVie Inc., North Chicago, IL, ⁷AbbVie, Inc. and University of Illinois at Chicago, Chicago, IL, ⁸University of Michigan, Ann Arbor, MI

2. (S1169). Comparison of Baveno VI Criteria, Expanded Baveno VI Criteria, Chess Alarm Score and Other Noninvasive Scores for Predicting Esophageal Varices and Varices Needing Treatment

★ ACG Auxiliary Award (Trainee)

Nimy John, MD, Yash Shah, MD, Cody J. Timmermann, MD, Fares Mashal, MD, Matthew G. Deneke, MD, Mary Rude, MD, Ragesh B. Thandassery, MD, DM; University of Arkansas for Medical Sciences, Little Rock, AR

3. (S514). Virtual Reality Improves Symptoms of Functional Dyspepsia: Results of a Randomized, Controlled, Double-Blind Pilot Study

★ ACG Governors Award for Excellence in Clinical Research

David Cangemi¹, Marilia Montenegro, MD¹, Brennan Spiegel, MD², Brian E. Lacy, MD, PhD, FACP¹; ¹Mayo Clinic, Jacksonville, FL, ²Cedars-Sinai Medical Center, Los Angeles, CA

4. (S1). Results of First Round of Enrollment from the Screening for Pancreatic Cancer in High-Risk Individuals (Pancreas Scan Study): A Prospective Multi-Center Study

★ Outstanding Research Award in the Biliary/Pancreas Category (Trainee)

Ishani Shah, MD¹, Andy Silva-Santisteban, MD¹, Katharine A. Germansky, MD¹, Rishi Pawa, MBBS², Vladimir Kushnir, MD³, Arvind Trindade, MD⁴, Jiannis Anastasiou, MD⁵, Kara L. Raphael, MD⁶, Girish Mishra, MD², Sumant Inamdar, MD⁵, Benjamin Tharian, MD⁵, Mandeep S. Sawhney, MD¹; ¹Beth Israel Deaconess Medical Center, Harvard Medical School, Boston, MA, ²Atrium Health Wake Forest Baptist, Winston-Salem, NC, ³Washington University School of Medicine, St. Louis, MO, ⁴Zucker School of Medicine at Hofstra/Northwell, Long-Island Jewish Hospital, Great Neck, NY, ⁵University of Arkansas for Medical Sciences, Little Rock, AR, ⁶Zucker School of Medicine at Hofstra/Northwell, Northwell Health, North Shore University Hospital, Great Neck, NY

5. (S1066). High 1-Year Survival Rate of Unresectable Pancreatic Cancer Size Smaller Than 4 cm in Diameter Treated With Concurrent EUS-RFA: An Average Treatment Effect on the Treated Weighted Survival Analysis

★ International Award

Pradermchai Kongkam¹, Kittitath Tantitanawat, MD², Chawin Lopimpisuth, MD², Kesinee Tiankanon, MD², Thanawat Luangsukerkerk, MD², Phonthepong Angsuwatcharakon, MD, MSc³, Wiriyaporn Ridditid, MD², Rungsun Rerknimitr, MD², Pinit Kullavanijaya, MD²; ¹Chulalongkorn University, Suanluang, Chanthaburi, Thailand, ²King Chulalongkorn Memorial Hospital, Bangkok, Krung Thep, Thailand, ³Chulalongkorn University, Bangkok, Krung Thep, Thailand

 **9:00 am – 9:30 am** **President's Address**
Samir A. Shah, MD, FACC, ACG President
Introduced by: Daniel J. Pambianco, MD, FACC, ACG President-Elect

 **9:30 am – 10:30 am** **PRESIDENTIAL PLENARY SESSION 2**
Moderators: Daniel J. Pambianco, MD, FACC, and Brooks D. Cash, MD, FACC

6. (S646). Endoscopic vs Conservative Treatment for Bleeding Peptic Ulcer With Adherent Clot: A Comprehensive Systematic Review and Meta-Analysis of Randomized Controlled Trials

Azizullah Beran, MD¹, Yasir Al-Abboodi, MD¹, Sami Ghazaleh, MD¹, Wasef Sayeh, MD¹, Mouhand F. Mohamed, MD, MSc², Khaled Elfert, MD, MRCP³, Rami Musallam, MD⁴, Anas Alsughayer, MD⁵, David Farrow, MD¹, Syed Hamaad Rahman, DO⁶, Mohammad Al-Haddad, MD, MSc⁷; ¹University of Toledo, Toledo, OH, ²Warren Alpert Medical School of Brown University, Providence, RI, ³SBH Health System, New York, NY, ⁴St. Vincent Charity Medical Center, Cleveland, OH, ⁵University of Toledo Medical Center, Toledo, OH, ⁶Methodist Dallas Medical Center, Dallas, TX, ⁷Indiana University School of Medicine, Indianapolis, IN

7. (S587). High Quality Index Colonoscopies Decrease the Risk for Advanced Outcomes at 10-Year Follow-Up Colonoscopy in Low-Risk Patients With No Index Adenomas or Serrated Polyps

★ *Outstanding Research Award in the General Endoscopy Category*
Joseph C. Anderson, MD¹, William Hisey, MSc¹, Todd Mackenzie, PhD¹, Christina Robinson, MS², Lynn F. Butterly, MD³; ¹Dartmouth, Hanover, NH, ²Dartmouth Hitchcock, Lebanon, NH, ³Dartmouth Hitchcock, Hanover, NH

8. (S244). An Appraisal of the Referral, Uptake and Outcomes of Genetic Counseling and Testing in Patients With Young Onset Colorectal Cancer

Hareem Syed, MD¹, Joshua Sommovilla, MD², Sarah McGee, MS¹, Brandie Heald, MS³, Carole Macaron, MD², Carol A. Burke, MD, FACC¹, David Liska, MD¹; ¹Cleveland Clinic, Cleveland, OH, ²Cleveland Clinic Foundation, Cleveland, OH, ³Invitae, Cleveland, OH

9. (S1585). Combining Surgical Pyloroplasty and Gastric Electrical Stimulation in Gastroparetic Patients Is Superior to Pyloroplasty Alone: A Randomized Double Blind Placebo Control Trial

★ *Outstanding Research Award in the Stomach Category*
Irene Sarosiek, MD¹, Ryan Torelli, ², Mohammad Bashashati, MD¹, Jesus Diaz, MD¹, Oswaldo Padilla, MD¹, Bright Tamis, MD¹, Sherif E. Elhanafi, MD¹, Brian Davis, MD¹, Richard W. McCallum, MD¹; ¹Texas Tech University Health Sciences Center, El Paso, TX, ²Paul L. Foster School of Medicine, El Paso, TX

10. (S386). An Objective Spatialomics Test Standardizes Management Decisions With Potential to Improve Health Outcomes for Barrett's Esophagus Patients

Nicola F. F. Frei, MD¹, Lucas C. Duits, MD, PhD², Amir Khoshiwal, MD³, Roos E. Pouw, MD, PhD³, Christian Smolko, PhD⁴, Meenakshi Arora, PhD⁴, Jennifer J. Siegel, MA, PhD⁵, Rebecca Critchley-Thorne, PhD⁴, Jacques Bergman, MD, PhD⁶; ¹University Medical Center Amsterdam, Noord-Holland, Netherlands, ²Cancer Center Amsterdam, Amsterdam UMC, University of Amsterdam, Noord-Holland, Netherlands, ³Amsterdam UMC, Amsterdam, Noord-Holland, Netherlands, ⁴Castle Biosciences, Pittsburgh, PA, ⁵Castle Biosciences, Friendswood, TX, ⁶Amsterdam University Medical Centres, Amsterdam, Noord-Holland, Netherlands

10:00 am - 12:00 pm **Scientific Poster Session B- Monday Morning Posters**
 ☿ Crown Ballroom

10:00 am – 4:45 pm **Exhibit Hall Open**
 ☿ Exhibit Hall AB

10:15 am – 4:45 pm **Hands-On Endoscopy Workshop Center**
 ☿ Exhibit Hall AB

10:30 am – 11:30 am **Break – Visit Exhibit Hall**
 ☿ Exhibit Hall AB

10:30 am – 11:30 am **Exhibitor Product Theater**
 ☿ Exhibit Hall AB

10:30 am – 11:30 am **Scientific Poster Session B - Monday Morning Posters - Authors Present / Poster Rounds With the Experts**
 ☿ Crown Ballroom

SIMULTANEOUS SYMPOSIA SESSION 1 - Choose from 2
11:30 am – 12:45 pm

 **SYMPOSIUM 1A: IBD Partners in Crime: Management of Concurrent Conditions**
Moderator: Arun C. Swaminath, MD, FACC
 ☿ Exhibit Hall C2

• **IBD and Infections: Stop Everything or No Big Deal?**

Arun C. Swaminath, MD, FACC
 Highlight common bacterial, viral (COVID), and fungal infections in IBD patients and explore ways to address ongoing immunosuppressive therapies during treatment.

• **IBD and IBS**

Ruby C. Greywoode, MD
 Differentiate between inflammatory versus functional symptoms and review multidisciplinary management strategies.

• **IBD and Malignancy: Management of Remote, Recent, and Concurrent Malignancy**

Jordan E. Axelrad, MD, MPH
 Summarize the best data on management of biologics and small molecules in patients with remote, recent, and concurrent malignancy.

SYMPOSIUM 1B: Past Presidents' Symposium
Moderator: Mark B. Pochapin, MD, FACC
 ☿ Exhibit Hall C1

• **Detection and Prevention of Colorectal Cancer**

Past President: Carol A. Burke, MD, FACC
Harminder Singh, MD, FACC
 Appraise and apply contemporary evidence in the management of hereditary colorectal cancer syndromes.

• **Preventing Neoplastic Progression in Ulcerative Colitis**

Past President: Stephen B. Hanauer, MD, MACG
Thomas A. Ullman, MD, FACC
 Recognize evolving techniques to prevent neoplastic progression in UC.

• **Epigenetics and the Development of Non-Alcoholic Fatty Liver Disease**

Past President: Rowen K. Zetterman, MD, MACG
Cynthia A. Moylan, MD, MHS
 Discuss epigenetics and the development of nonalcoholic fatty liver disease.

ANNUAL SCIENTIFIC MEETING

MONDAY THROUGH WEDNESDAY, OCTOBER 24-26, 2022 | ⌚ ALL TIMES ARE EASTERN

*Underlined names are presenting authors.

📺 INDICATES LIVESTREAM SESSION FOR VIRTUAL REGISTRANTS

SYMPOSIUM 1C: The Changing Landscape in the Management of Esophageal Disorders

Moderator: Rena H. Yadlapati, MD, MSHS, FACG

📍 Richardson Ballroom

• Non-Achalasia Motility Disorders: Treatment Highlights

Rena H. Yadlapati, MD, MSHS, FACG

Summarize the updated Chicago Classification v4.0 for motility disorders and discuss treatment options.

• EoE: What's New? Diet, Drugs, and Beyond

Kristle L. Lynch, MD

Explain EoE management strategies with current and upcoming pharmacologic agents, specialized diets, and dilation.

• GERD: Updates in the Diagnostic Criteria and Novel Therapies

Felice Schnoll-Sussman, MD, MSc, FACG

Explore the most recent diagnostic guidelines and summarize therapeutic modalities for GERD.

11:45 am – 12:15 pm **Exhibitor Product Theater**

📍 Exhibit Hall AB

12:45 pm – 2:15 pm **Lunch Break – Visit Exhibit Hall**

📍 Exhibit Hall AB

12:30 pm – 1:00 pm **Exhibitor Product Theater**

📍 Exhibit Hall AB

1:00 pm – 2:00 pm **GIQuIC - Transforming Quality from Aspirational Goals to Measurable Results**

Separate registration required

1:15 pm – 1:45 pm **Exhibitor Product Theater**

📍 Exhibit Hall AB

2:00 pm – 2:30 pm **Exhibitor Product Theater**

📍 Exhibit Hall AB

SIMULTANEOUS PLENARY SESSIONS 1 – Choose from 2

2:15 pm – 3:00 pm

📺 PLENARY SESSION 1A – ESOPHAGUS

Moderators: Moderators: C. Prakash Gyawali, MD, MRCP, FACG, and Gary W. Falk, MD, MS, FACG

📍 Exhibit Hall C2

11. (S387). Dupilumab Improves Clinical, Symptomatic, Histologic, and Endoscopic Aspects of EoE up to 24 Weeks: Pooled Results From Parts A and B of Phase 3 LIBERTY-EoE-TREET

★ Outstanding Research Award in the Esophagus Category

Evan Dellon, MD, MPH¹, Marc Rothenberg, MD, PhD², Albert Bredenoord, MD, PhD³, Alfredo Lucendo, MD⁴, Ikuo Hirano, MD, PhD⁵, Xian Sun, PhD⁶, Kiran Patel, PhD⁷, Bethany Beazley, PhD⁸; ¹University of North Carolina School of Medicine, Chapel Hill, NC, ²Cincinnati Children's Hospital Medical Center and University of Cincinnati College of Medicine, Cincinnati, OH, ³Amsterdam University Medical Center, Amsterdam, Utrecht, Netherlands, ⁴Hospital General de Tomelloso, Tomelloso, Madrid, Spain, ⁵Northwestern University Feinberg School of Medicine, Chicago, IL, ⁶Regeneron Pharmaceuticals, Tarrytown, NY, ⁷Sanofi, Tarrytown, NY

12. (S388). Risk of Esophageal Cancer in Achalasia: A Matched Cohort Study Utilizing the Veterans Affairs Achalasia Cohort (VA-AC)

★ ACG Governors Award for Excellence in Clinical Research (Trainee)

Eric E. Low, MD, MPH¹, Joshua Demb, PhD, MPH², Shailja Shah, MD, MPH¹, Ranier Bustamante, MPH², Lin Liu, PhD², Rena Yadlapati, MD, MS³, Samir Gupta, MD⁴; ¹University of California San Diego, San Diego, CA, ²VA San Diego, San Diego, CA, ³University of California San Diego School of Medicine, La Jolla, CA, ⁴Veterans Affairs San Diego Healthcare System, University of California San Diego, San Diego, CA

13. (S389). Development and Validation of a Clinical Tool to Identify Patients Who Do Not Need Biopsies When Eosinophilic Esophagitis Is Suspected

★ ACG Auxiliary Award (Trainee)

Amrit K. Kamboj, MD¹, Cary C. Cotton, MD, MPH², Liang Yen Liu, BS³, June Tome, MD¹, Diana Snyder, MD⁴, Jeff Alexander, MD⁴, Karthik Ravi, MD¹, William Harmsen, BS¹, Evan Dellon, MD, MPH⁵, David A. Katzka, MD⁶; ¹Mayo Clinic, Rochester, MN, ²University of North Carolina, Chapel Hill, NC, ³Mayo Clinic, Alix School of Medicine, Rochester, MN, ⁴Mayo Clinic, Rochester, MN, ⁵University of North Carolina School of Medicine, Chapel Hill, NC, ⁶Columbia University, New York, NY

14. (S390). Efficacy and Safety of On-Demand Vonoprazan versus Placebo in the Treatment of Heartburn in Symptomatic Nonerosive Reflux Disease (NERD) Patients: A Phase 2 Randomized Controlled Trial

Ronnie Fass, MD¹, Michael F. Vaezi, MD², Prateek Sharma, MD³, Rena Yadlapati, MD, MS⁴, Barbara Hunt, MSc⁵, Tom Harris, BSc⁵, Neila Smith, MD⁵, Eckhard Leifke, MD⁵, David Armstrong, MA, MBBCh, FRCG⁶; ¹The Esophageal and Swallowing Center, MetroHealth Medical System, Case Western Reserve University, Cleveland, OH, ²Vanderbilt University Medical Center, Nashville, TN, ³University of Kansas School of Medicine, Kansas City VA Medical Center, Kansas City, MO, ⁴University of California San Diego School of Medicine, La Jolla, CA, ⁵Phathom Pharmaceuticals, Buffalo Grove, IL, ⁶McMaster University, Hamilton, ON, Canada

PLENARY SESSION 1B – FUNCTIONAL / PRACTICE MANAGEMENT / OBESITY

Moderators: Moderators: Baharak Moshiree, MD, MSc, FRCG, and

Costas H. Kefalas, MD, MMM, FRCG

📍 Exhibit Hall C1

15. (S515). App-Delivered Gut-Directed Hypnotherapy Program Nerva Improves Symptoms in Patients With Irritable Bowel Syndrome but How Can We Ensure Users Are Compliant?

Simone Peters, PhD, Peter Gibson, MD, Emma Halmos, PhD; Monash University, Melbourne, Victoria, Australia

16. (S1480). Clinical Burden of Electronic Health Record Use Amongst Gastroenterology Providers Associated With Differences in Sex, Provider Subspecialty, and Provider Training

Aman Bali, MD¹, Michael F. Picco, MD, PhD¹, Jami Kinnucan, MD, FRCG¹, Jana G. Hashash, MD, MSc¹, Francis A. Farraye, MD, MSc²; ¹Mayo Clinic Florida, Jacksonville, FL, ²Mayo Clinic, Jacksonville, FL

17. (S1481). Impact of Time-Motion Patient Flow Analysis on the Productivity of an Endoscopy Unit in a Large Safety-Net Health Center

Christopher P. Bradley, MHS, MD¹, Matt Sumethasorn, MD², Hyun Jin Yim, MD², Megan Chang, RN¹, Leslie Martinez, MSN-Ed, RN¹, Wei-An (Andy) Lee, DO¹, Rachel Baden, MD¹, Hal Yee, MD, PhD³, Behrood Katebian, MD¹, James L. Buxbaum, MD⁴; ¹Los Angeles County University of Southern California Medical Center, Los Angeles, CA, ²University of Southern California Keck School of Medicine, Los Angeles, CA, ³Los Angeles County Department of Health Services, Los Angeles, CA, ⁴Keck School of Medicine, University of Southern California, Los Angeles, CA

18. (S1443). Predictors of Pancreatitis on Initiation of GLP-1 Receptor Agonists for Weight Loss

Robert Postlethwaite, MD, Amin Amin, MD, Jaime Almandoz, MD, Tarek Sawas, MD, MPH; University of Texas Southwestern, Dallas, TX

2:45 pm – 3:15 pm **Exhibitor Product Theater**

📍 Exhibit Hall AB

3:00 pm – 5:00 pm **Scientific Poster Session C - Monday Afternoon Posters**

📍 Crown Ballroom

📺 3:05 pm – 3:35 pm **The American Journal of Gastroenterology Lecture – The Transformative Power of Research Carried Out by Busy Clinicians**

Patrick S. Kamath, MD

Introduced by: Jasmohan Bajaj, MD, MS, FRCG, and Millie D. Long, MD, MPH, FRCG

Explain how clinicians can participate in research that moves the fields of gastroenterology and hepatology forward.

ANNUAL SCIENTIFIC MEETING

MONDAY THROUGH WEDNESDAY, OCTOBER 24-26, 2022 | ⌚ ALL TIMES ARE EASTERN

📺 INDICATES LIVESTREAM SESSION FOR VIRTUAL REGISTRANTS

📍 Crown Ballroom

SIMULTANEOUS SYMPOSIA SESSION 2 – Choose from 3

4:45 pm – 6:00 pm

📺 SYMPOSIUM 2A: Common Liver Consults

Moderator: Joseph Ahn, MD, MS, MBA, FACG

📍 Exhibit Hall C2

• Approach to Focal Liver Lesions

Joseph Ahn, MD, MS, MBA, FACG

Describe the optimal approach to diagnosing and managing focal liver lesions.

• Approach to Work-Up of Abnormal Liver Tests

Stanley M. Cohen, MD, FACG

Recognize and apply a rational and cost-effective approach to the evaluation of abnormal liver tests.

• Drug-Induced Liver Injury

Haripriya Maddur, MD

Identify cases of drug-induced liver injury and discuss best practices for their management.

SYMPOSIUM 2B: *C. difficile* Controversies

Moderator: Paul Feuerstadt, MD, FACG

📍 Exhibit Hall C1

• Fecal Transplants for *C. difficile* in 2022: Are We There Yet?

Paul Feuerstadt, MD, FACG

Summarize the evolving landscape of fecal microbiota transplantation and the future therapeutic indications for this adjunctive therapy in patients with *C. difficile* infection.

• IBD and *C. diff*: Treat One, the Other, or Both?

Carl V. Crawford, Jr., MD

Demonstrate strategies to successfully treat acute *C. difficile* infection and underlying IBD.

• Where do Antimicrobials and Bezlotoxumab Fit in 2022?

Jessica R. Allegretti, MD, MPH, FACG

Understand best practice guidelines for medical management of *C. difficile* infection.

SYMPOSIUM 2C: Live From Charlotte! The 10th Annual Endoscopy Video Forum

Moderators: Seth A. Gross, MD, FACG, and Vivek Kaul, MD, FACG

Judges: Jodie A. Barkin, MD; Rabia A. de Latour, MD; Alexandra Guillaume, MD;

Immanuel K. H. Ho, MD, FACG; Laith H. Jamil, MD, FACG; and

Kenneth J. Vega, MD, FACG

Demonstrate interesting endoscopic findings and techniques encountered in daily clinical practice.

📍 Richardson Ballroom

V1. (S346) Gallbladder to the Rescue: Transcystic Endoscopic Ultrasound-Guided Rendezvous

Ramzi Mulki, MD¹, Samuel Fernandez Prada, MD², Antonio Martinez Ortega,

MD², Ramon Sanchez-Ocana, MD², Carlos De la Serna Higuera, MD², Manuel

Perez-Miranda, MD²; ¹University of Alabama at Birmingham, Birmingham, AL,

²Unversitay Hospital Rio Hortega, Valladolid, Castilla y Leon, Spain

V2. (S347) Endoscopic Suture Repair of a Transmural Esophageal Perforation
Munraj Singh, MD, Catherine Hudson, MD, MPH; Louisiana State University Health Sciences Center, New Orleans, LA

V3. (S348) Creating Your Own Paths: EUS-Guided Transjejunal Gallbladder Drainage and ERCP, Cholecystoscopy, and Electrohydraulic Lithotripsy for Choledocholithiasis and Cholelithiasis in a Patient With Roux-en-Y Gastric Bypass

Jason Nasser, MD¹, Arjun Chatterjee, MD¹, Mohannad Abou Saleh, MD¹, Donald Kirby, MD¹, Prabhleen Chahal, MD²; ¹Cleveland Clinic Foundation, Cleveland, OH, ²Cleveland Clinic, Cleveland, OH

36. (S589). One-Liter Polyethylene Glycol + Ascorbic Acid Bowel Preparation Delivers High Levels of Adequate and High-Quality Bowel Cleansing for Colonoscopy: A Real-World, Multicenter, Observational Study of Over 13,000 Patients

Cátia Arieira, MD¹, José Cotter, MD¹, Ricardo Gorjão, MD², Vicente Lorenzo-Zúñiga, MD³, Miguel A. Pantaleón Sánchez, MD⁴, David Carral Martínez, MD⁵, Fernando Sábado, MD⁶, Elena Pérez Arellano, MD⁷, Blas J. Gómez Rodríguez, MD⁸, Antonio López Cano, MD⁹, Salvador Machlab, MD¹⁰, Jose M. Esteban López-Jamar, MD¹¹, Elena Velasco, MD¹¹, Sarbelio Rodríguez, MD¹², Juha Halonen, PhD¹³, Fatma Akriche, MD¹³, Carmen Turbí Disla, MD¹⁴, ¹Hospital da Senhora da Oliveira, Guimarães, Braga, Portugal, ²Hospital CUF Descobertas, Lisbon, Portugal, ³Hospital HM Sant Jordi, Barcelona, Catalonia, Spain, ⁴Hospital del Mar, Barcelona, Catalonia, Spain, ⁵Hospital San Rafael, A Coruña, Galicia, Spain, ⁶Consorcio Hospitalario Provincial de Castelló, Valencia, Comunidad Valenciana, Spain, ⁷Hospital La Zarzuela, Madrid, Spain, ⁸Hospital Quirón Salud Sagrado Corazón, Sevilla, Andalucía, Spain, ⁹Hospital Doctor López Cano, Cádiz, Andalucía, Spain, ¹⁰Parc Taulí Hospital Universitari & Institut d'Investigació i Innovació Parc Taulí I³PT, Sabadell, Catalonia, Spain, ¹¹Hospital Universitario Clínico San Carlos, Madrid, Spain, ¹²Hospital Ruber Juan Bravo, European University of Madrid, Madrid, Spain, ¹³Norgine, Medical Affairs, Harefield, England, United Kingdom, ¹⁴Norgine, Madrid, Spain

10:00 am – 12:00 pm **Scientific Poster Session D Tuesday Morning Posters**
📍 Crown Ballroom

10:00 am – 4:30 pm **Exhibit Hall Open**
📍 Exhibit Hall AB

10:05 am – 4:30 pm **Hands-On Endoscopy Workshop Center**
📍 Exhibit Hall AB

📺 10:05 am – 10:35 am **ACG's J. Edward Berk Distinguished Lecture – The Promise and Progress of New Approaches to Treating the Inflammatory Bowel Diseases**
Bruce E. Sands, MD, MS, FACG
Introduced By: Samir A. Shah, MD, FACG, ACG President
Describe the efficacy and safety of newer agents for IBD, and the potential for combination therapy and precision medicine approaches to treat Crohn's disease and ulcerative colitis.

10:30 am – 11:30 am **Scientific Poster Session D - Tuesday Morning Posters - Authors Present / Poster Rounds With the Experts**
📍 Crown Ballroom

10:35 am – 11:30 am **Break – Visit Exhibit Hall**
📍 Exhibit Hall AB

10:35 am – 11:30 am **Exhibitor Product Theater**
📍 Exhibit Hall AB

SIMULTANEOUS SYMPOSIA SESSION 3 – Choose from 3 11:30 am – 12:45 pm

📺 SYMPOSIUM 3A: Applying the Latest Antithrombotic Guidelines to Your Practice: A Case-Based Approach

Moderator: Neena S. Abraham, MD, MSc (Epid), MACG

📍 Exhibit Hall C2

• The How and Why of Elective Antithrombotic Management

Neena S. Abraham, MD, MSc (Epid), MACG

Describe the appropriate utilization of antithrombotic agents in patients undergoing elective endoscopic procedures, including patient and procedure-related factors influencing decisions regarding medication cessation and re-initiation.

• Management of Antithrombotics in Patients With Gastrointestinal Bleeding

Alan N. Barkun, MD, CM, MSc (Clin Epi), FACG

Outline the management of antithrombotics in patients presenting with acute GI bleeding.

• Mitigating Post-Procedural Bleeding: What You Need to Know

John R. Saltzman, MD, FACG

Define important risk factors and explore treatment strategies to minimize the risk and extent of post-procedural bleeding.

SYMPOSIUM 3B: Non-Inflammatory Bowel Disease Colonic Disorders

Moderator: Lin Chang, MD, FACG

📍 Exhibit Hall C1

• Diarrhea-Predominant IBS: What We Knew, What We Know, and What We Think for the Future

Lin Chang, MD, FACG

Explain the historical treatment of IBS-D, current treatments, and therapeutic possibilities for the future.

• Is This Infectious Colitis? How to Identify and Diagnose Infectious Colitides

Caterina M. Oneto, MD

Describe a differential diagnosis for acute infectious diarrheal diseases and understand best practices for therapy.

• Diverticular Disease and Segmental Colitis Associated With Diverticular Disease: A Clinician's Crash Course

Neil H. Stollman, MD, FACG

Discuss the different classifications of diverticular disease, management of acute diverticulitis, and the complications, with a separate focus on SCAD.

SYMPOSIUM 3C: Case-Based Tours of Recent Advances in the Diagnosis and Management of Esophageal Disorders

Moderator: Paul Moayyedi, MB ChB, PhD, MPH, FACG

📍 Richardson Ballroom

• PPI Risks Versus Benefits: Separating Fact From Fiction

Paul Moayyedi, MB ChB, PhD, MPH, FACG

Assess the risks and benefits of long-term PPI therapy, and review indications for de-escalation.

• Revealing Reflux: How to Utilize Impedance and Novel Parameters on Ambulatory Reflux Monitoring

Christine Y. Hachem, MD, FACG

Discuss the role of impedance and pH monitoring in patients with esophageal reflux disorders.

• Digging Into Dysphagia: Provocative Maneuvers at Manometry and the Functional Lumen Imaging Probe

Amit Patel, MD, FACG

Analyze the use of additional protocols in manometry and FLIP for the evaluation of dysphagia.

ANNUAL SCIENTIFIC MEETING

MONDAY THROUGH WEDNESDAY, OCTOBER 24-26, 2022 | ☎ ALL TIMES ARE EASTERN

*Underlined names are presenting authors.

LATE-BREAKING ABSTRACT

53. Laparoscopic Toupet Fundoplication Normalizes Esophageal Acid Exposure While Preserving Foregut Motility and Lung Function in Lung Transplant Recipients

Sheetal Patel, MD, Celeste G. Yergin, PhD, Kelly M. Herremans, MD, Andres Pelaez, MD, Tiago N. Machuca, MD, PhD, Alexander L. Ayzengart, MD, MPH, Manuel A. Amaral, MD; University of Florida, Gainesville, FL

3:00 pm – 5:00 pm Scientific Poster Session E Open - Tuesday

Afternoon Posters

📍 Crown Ballroom

3:45 pm – 4:30 pm Break – Visit Exhibit Hall

📍 Exhibit Hall AB

3:45 pm – 4:45 pm Scientific Poster Session E - Tuesday Afternoon Posters - Authors Present / Poster Rounds With the Experts

📍 Crown Ballroom

📺 4:30 pm – 5:00 pm

Emily Couric Memorial Lecture – Colon Cancer Screening: What Do We Need to Build and Who Will Come?

Aasma Shaukat, MD, MPH, FACP

Introduced by: Samir A. Shah, MD, FACP, ACG President

Discuss the current colon cancer screening tests and how to increase screening in all populations.

5:00 pm – 5:10 pm Break

SIMULTANEOUS SYMPOSIA SESSION 4 – Choose from 2

5:10 pm – 6:25 pm

SYMPOSIUM 4A: It's No Longer Obscure! Small Bowel Bleeding in 2022

Moderator: Luis F. Lara, MD

📍 Exhibit Hall C2

• Approach to Small Bowel Bleeding: The Clinical History and Approach to Evaluation

Luis F. Lara, MD

Outline clinical risk factors for small bowel bleeding and identify strategies to maximize the diagnostic yield of small bowel bleeding evaluation.

• More Than Just Enteroscopy: Diagnostic Modalities for the Assessment of Small Bowel Bleeding and Quality Measures

Jodie A. Barkin, MD

Explore the modalities available for the assessment of small bowel bleeding including capsule endoscopy, enteroscopy, cross-sectional imaging, bleeding scans, and explore their appropriate use and quality reporting.

• It Keeps Happening...Medical Management of Recurrent Small Bowel Bleeding

Shabana F. Pasha, MD, FACP

Discuss concepts and apply strategies to optimize evaluation of and therapy for recurrent small bowel bleeding.

SYMPOSIUM 4B: Just Because They're Common Doesn't Make Them Easy: Management of Common GI Issues

Moderator: Amy S. Oxentenko, MD, FACP

📍 Exhibit Hall C1

• Management of Chronic Diarrhea: No Fun With the Runs

Amy S. Oxentenko, MD, FACP

Compare different management options for patients suffering from chronic diarrheal conditions.

• Management of Chronic Abdominal Pain: Make It Wane

Brian E. Lacy, MD, PhD, FACP

Formulate a strategy for treating patients with chronic abdominal pain.

• Management of Bloating and Distention: Tips Worth Noting

Kyle D. Staller, MD, MPH

Identify tips and tricks for dealing with GI's most irksome symptoms.

6:25 pm Adjourn for the Day

ANNUAL SCIENTIFIC MEETING

MONDAY THROUGH WEDNESDAY, OCTOBER 24-26, 2022 | ⌚ ALL TIMES ARE EASTERN

63. (S723). An Open-Label Study (ECOSPOR IV) to Evaluate the Safety, Efficacy and Durability of SER-109, an Investigational Oral Microbiome Therapeutic, in Adults With Recurrent *Clostridioides difficile* Infection (rCDI)

Sahil Khanna, MBBS, MS, FACP¹, Paul Feuerstadt, MD, FACP², Edward Huang, MD, MPH³, Caterina Oneto, MD⁴, Darrell S. Pardi, MD, MS, FACP¹, Elaine E. Wang, MD⁵, Ananya De, PhD⁵, Kelly Brady, MD⁵, Asli Memisoglu, PhD⁵, David Lombardi, PhD⁵, Brooke Hasson, PhD⁵, Barbara McGovern, MD⁵, Lisa Von Moltke, MD⁵; ¹Mayo Clinic, Rochester, MN, ²PACT Gastroenterology Center and Yale University School of Medicine, New Haven, CT, ³Sutter Health Research Enterprise, Mountain View, CA, ⁴Vanguard Gastroenterology, New York, NY, ⁵Seres Therapeutics, Cambridge, MA

ANNUAL SCIENTIFIC MEETING

MONDAY THROUGH WEDNESDAY, OCTOBER 24-26, 2022 | ⌚ ALL TIMES ARE EASTERN

📺 INDICATES LIVESTREAM SESSION FOR VIRTUAL REGISTRANTS

*Underlined names are presenting authors.

PLENARY SESSION 4B LIVER

Moderators: Mitchell A. Mah'moud, MD, FACP, and Patricia D. Jones, MD, MSCR
📍 Exhibit Hall C1

65. (S1174). The Global Landscape of Nonalcoholic Fatty Liver Disease: Results From the Global Burden of Disease Study, 1990-2019

★ Outstanding Research Award in the Liver Category

Yichen Wang, MD¹, Mark M. Aloysius, MD, PhD², Bing Chen, MD³, Howard Chung, MD⁴, Beishi Zheng, MD⁵, Tian Li, MD⁶, Xin Zheng, DO⁷, Yuntao Zou, MD⁸, Xiaoquan Huang, MD⁹; ¹Trinity Health of New England, Springfield, MA, ²The Wright Center for Graduate Medical Education, Geisinger Commonwealth School of Medicine, ATSU-SOMA, Scranton, PA, ³New York University School of Medicine, New York, NY, ⁴New York University School of Medicine, Brooklyn, NY, ⁵Woodhull Medical and Mental Health Center, Brooklyn, NY, ⁶State University of New York Downstate Medical Center, Brooklyn, NY, ⁷Loma Linda University Medical Center, Loma Linda, CA, ⁸Saint Peter's University Hospital, New Brunswick, NJ, ⁹Zhongshan Hospital of Fudan University, Shanghai, China

66. (S1175). Bariatric Surgery Reduces the Risk of Major Liver and Renal Outcomes in Patients With Nonalcoholic Fatty Liver Disease: A Large Population-Based Multicenter Study

Arukumar Krishnan, MBBS, Yousaf Hadi, MD, Shyam Thakkar, MD, Shailendra Singh, MD; West Virginia University School of Medicine, Morgantown, WV

67. (S1176). Dual Therapy With Metformin and Glucagon-Like Peptide-1 Receptor Agonists (GLP1-RA) Improves Mortality in Diabetic Cirrhotic Patients

Daniel J. Huynh, BS¹, Benjamin D. Renelus, MD², Daniel S. Jamorabo, MD³; ¹Renaissance School of Medicine, Stony Brook, NY, ²Morehouse School of Medicine, Atlanta, GA, ³Stony Brook Medicine, Stony Brook, NY

68. (S1177). Use of GLP1 Agonists or SGLT2 Inhibitors in Non-Alcoholic Steatohepatitis Patients With T2DM Is Associated With a Lower Risk of Cirrhosis: A Nationwide Population-Based Study

Ahmed Eitelbany, MD, MPH, Osama Hamid, MD, MRCPI, Khaled Alsabbagh Alchirazi, MD, Abdul Mohammed, MD, Omar Massoud, MD; Cleveland Clinic, Cleveland, OH

69. (S1178). Patients With Non-Alcoholic Fatty Liver Disease Demonstrate Heterogenous Risk Factors but Similar Rate of Progression to Cirrhosis Across the Age Spectrum

Matthew J. Miller, MD¹, Emily Harding-Theobald, MD², Zhe Zhao, MS², Jacob V. DiBattista, MD², Daniel A. Burkholder, MD², Anna S. Lok, MD², Vincent L. Chen, MD²; ¹University of Michigan, Livonia, MI, ²University of Michigan, Ann Arbor, MI

70. (S1180). Doppler Ultrasound of the Portal Vein Assessed via Artificial Intelligence With and Without AFP Can Identify Hepatocellular Carcinoma

★ ACG Governors Award for Excellence in Clinical Research

Jose D. Debes, MD, PhD¹, David Jonason, MD², Tiancong Cheng, BS¹, Ju Sun, PhD¹; ¹University of Minnesota, Minneapolis, MN, ²University of Minnesota Medical Center, Minneapolis, MN

10:15 am – 10:20 am Break

📺 10:20 am – 10:50 am

David Y. Graham Lecture – Why Do All Diseases Start in the Gut?

Emeran A. Mayer, MD

Introduced by: Samir A. Shah, MD, FACP, ACG President

Explain how the gut connectome translates microbial signals into health and disease.

10:50 am – 11:00 am Break

SIMULTANEOUS SYMPOSIA SESSION 5 - Choose from 2

11:00 am – 12:15 pm

SYMPOSIUM 5A: New Kids on the Block: Approved Therapies in the Expanding Medicine Cabinet

Moderator: Anita Afzali, MD, MPH, MHCM, FACP

📍 Exhibit Hall C2

• IL-12s/23s Antagonists: Same Road or Different Paths?

Anita Afzali, MD, MPH, MHCM, FACP

Describe the similarities, differences, and positioning of the IL 12/23R vs IL23R antagonists within the IBD treatment algorithm.

• The Janus Kinase Inhibitors: Two Faces for Efficacy and Safety?

Peter D.R. Higgins, MD, PhD, MSc

Differentiate the types of Jak inhibitors in terms of effectiveness, safety, and monitoring.

• The S1Ps: Where Do They Fit In?

Russell D. Cohen, MD, FACP

Explain clinical scenarios where S1P receptor agonists should be considered as a treatment option for patients with ulcerative colitis.

SYMPOSIUM 5B: Artificial Intelligence in Gastroenterology and Endoscopy

Moderator: Vivek Kaul, MD, FACP

📍 Exhibit Hall C1

• ABCs of Artificial Intelligence: Basics and Definitions

Sravanthi Parasa, MD

Explain AI-related terms and comprehend AI-related data in the GI practice.

• Current Applications of AI in Gastrointestinal Endoscopy

Vivek Kaul, MD, FACP

Identify how to implement AI in GI practice using currently available tools.

• Future Directions of AI in Gastroenterology

Nasim Parsa, MD

Analyze the current challenges that prevent generalization of AI into practice and explore AI modalities under investigation and their future potential applications in gastroenterology.

12:15 pm Annual Scientific Meeting Adjourns

ACCREDITATION / CME / MOC

The American College of Gastroenterology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American College of Gastroenterology designates this other activity (blended learning) for a maximum of 55.25 *AMA PRA Category 1 Credits*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

AMA PRA Category 1 Credits™ are awarded as follows: 30.25 *AMA PRA Category 1 Credits*™ for the Annual Meeting, and 25 *AMA PRA Category 1 Credits*™ for the Annual Scientific Meeting Bonus (Breakfast) Sessions (Bonus Session must be purchased separately).

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 55.25 MOC

points in the American Board of Internal Medicine's (ABIM) and the American Board of Pediatrics' (ABP) Maintenance of Certification (MOC) programs. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM and ABP MOC credit.

On-Demand ANNUAL SCIENTIFIC MEETING BONUS SESSIONS

Add this optional package to your Annual Scientific Meeting registration for even more first-class education that provides an additional 25 hours of CME/MOC credit, and access to over 70 recorded presentations (and slides) from 24 sessions. These sessions are pre-recorded presentations by faculty, and will be available until March 31, 2023 on the ACG 2022 Conference Platform. (There will be no in-person Bonus Sessions offered in Charlotte, and they will not be livestreamed.) Visit the Registration Desk on Level 1 to purchase access to these sessions.

NEW! "Meet the Experts" Breakfast Sessions ACG is introducing "Meet the Experts" sessions, to be offered on Monday and Tuesday mornings. These in-person, open-to-all, 45-minute sessions will be tied to select topic areas from the optional Annual Scientific Meeting Bonus Sessions. Sessions on Monday (7:00 am - 7:45 am) will cover Liver, IBD, Emerging Technology, Oncology, and Women's Health. Tuesday sessions (7:30 am - 8:15 am) will cover Pancreas, Functional GI, CAM, IBD, and Colonoscopy. Coffee and light breakfast items will be provided. While purchase of the Bonus Sessions is not required to attend these sessions, attendees who have purchased and watched the on-demand Bonus Sessions in advance will benefit most from these casual in-person opportunities for Q&A with faculty experts.

ACG thanks Ferring Pharmaceuticals, Inc. for their support.

"Meet the Experts" | ☉ Monday, Oct 24, 7:00 am - 7:45 am | ♀ Room E218

BONUS SESSION A - ACG Liver Guidelines

Moderator: Alexandra Shingina, MD

- **Alcohol-Associated Liver Disease**
Ashwani K. Singal, MD, MS, FACP
Apply the current evidence-based guidelines in the diagnosis and management of alcohol-associated liver disease.
- **Acute Liver Failure vs Acute-on-Chronic Liver Failure**
Alexandra Shingina, MD
Distinguish acute liver failure from acute-on-chronic liver failure, and apply evidence-based strategies for management of these patients.
- **Hemochromatosis**
Manida Wungjiranirun, MD
Describe the diagnosis and management of patients with iron overload.

"Meet the Experts" | ☉ Monday, Oct 24, 7:00 am - 7:45 am | ♀ Room E219A

BONUS SESSION B - Multidisciplinary Management of the Four Challenging P's of IBD: Perianal Crohn's, Peristomal, Proctitis, and Pouchitis

Moderator: David A. Schwartz, MD, FACP

- **Perianal Crohn's Disease**
David A. Schwartz, MD, FACP
Summarize best practices and emerging therapies for medical and surgical management of perianal Crohn's disease.
- **Peristomal Complications**
Virginia A. Hanchett, FNP, DCNP, CWCN, COCN
Recognize peristomal complications of IBD and identify appropriate management strategies.
- **Proctitis (Moderate to Severe)**
Amanda M. Johnson, MD
Describe the role of topical, oral, and immunosuppressive therapies for the management of refractory proctitis.
- **Pouchitis**
Maia Kayal, MD
Highlight strategies to address pouchitis beyond antibiotics.

"Meet the Experts" | ☉ Monday, Oct 24, 7:00 am - 7:45 am | ♀ Room E219BC

BONUS SESSION C - Emerging Uses of Technology in Gastroenterology

Moderator: Folasade P. May, MD, PhD, MPhil

- **Leveraging Social Media to Advance Health Equity in Gastroenterology**
Folasade P. May, MD, PhD, MPhil
Explain how social media can be used to improve health equity.
- **Leveraging Social Media to Learn, Educate, and Enhance Your Practice/Brand**
Amy S. Oxentenko, MD, FACP
Demonstrate ways to use social media to maximize the impact to your patients and practice.
- **Virtual Reality: A New Therapeutic Modality?**
Brennan M. Spiegel, MD, MSHS, FACP
Define the role of virtual reality in the therapeutics of various GI conditions.

"Meet the Experts" | ☉ Monday, Oct 24, 7:00 am - 7:45 am | ♀ Room E219D

BONUS SESSION D - Onco-Gastroenterology: What You Need to Know About GI Toxicity of Novel Cancer Therapies and Genetic Testing

Moderator: Shilpa Grover, MD, MPH

- **GI Toxicity of Emerging Cancer Therapies: Targeted Therapy, Checkpoint Inhibitors, and Beyond**
Shilpa Grover, MD, MPH
Recognize the spectrum of GI toxicity of molecular-targeted agents, checkpoint inhibitors, and emerging cancer treatment modalities, and formulate strategies for management.
- **Checkpoint-Inhibitor Hepatitis**
Joseph K. Lim, MD, FACP
Outline an approach to identify and manage patients with checkpoint-inhibitor hepatitis.
- **Next Generation Sequencing: Genetic Testing to Identify High-Risk Patients and Guide Screening**
Aparajita Singh, MD
Recognize the indications for genetic evaluation and the role of next generation sequencing to guide management of hereditary gastrointestinal cancer syndromes.

"Meet the Experts" | ☉ Monday, Oct 24, 7:00 am - 7:45 am | ♀ Room E212

BONUS SESSION E - Management of the Pregnant Patient

Moderator: Sunanda V. Kane, MD, MSPH, FACP

- **Special Considerations in the Performance of Endoscopy in the Pregnant Patient**
Eugenia Shmidt, MD
Outline key aspects in the performance of endoscopic procedures in pregnant patients.
- **Management of the Pregnant IBD Patient**
Sunanda V. Kane, MD, MSPH, FACP
Discuss the different management strategies of IBD during pregnancy.
- **Liver Disease and Pregnancy**
Nancy S. Reau, MD, FACP
Describe the evaluation and management of a variety of liver diseases manifesting during pregnancy.

On-Demand ANNUAL SCIENTIFIC MEETING

BONUS SESSIONS

"Meet the Experts" | ☉ Tuesday, Oct 25, 7:30 am - 8:15 am | ♡ Room E218

BONUS SESSION F - Advances in Acute Pancreatitis: Fluids, Feeds, and Future Complications

Moderator: Jodie A. Barkin, MD

- **The First 24 Hours: Insights in Fluid Management in Acute Pancreatitis**
Anna Evans Phillips, MD
Evaluate the evidence for rehydration strategies in the early management of acute pancreatitis.
- **NPO on Day 3 No More: Early Re-Initiation of Enteral Nutrition in Acute Pancreatitis**
Darwin L. Conwell, MD, MS, FACG
Examine the data for nutritional complications in acute pancreatitis and describe approaches to early refeeding with acute pancreatitis.
- **Long-Term Sequelae of Acute Pancreatitis: Exocrine and Endocrine Pancreatic Insufficiency**
Jodie A. Barkin, MD
Identify patients at risk for exocrine pancreatic insufficiency and diabetes after acute pancreatitis and discuss appropriate management strategies.

"Meet the Experts" | ☉ Tuesday, Oct 25, 7:30 am - 8:15 am | ♡ Room E219A

BONUS SESSION G - Gastroparesis and Functional Dyspepsia in 2022

Moderator David Armstrong, MD, FACP

- **The Latest and Greatest: ACG's New Gastroparesis Guidelines**
David Armstrong, MD, FACP
Outline the newest ACG guidelines for the diagnosis and management of gastroparesis.
- **Two Sides of the Same Coin: Sliding Along the Functional Dyspepsia/Gastroparesis Spectrum**
Lavanya Viswanathan, MD, MS
Describe the distinguishing and overlapping features of functional dyspepsia and gastroparesis.
- **Making Sense of When to Use Pyloric Interventions**
Jennifer A. Christie, MD
Recognize the applications and limitations of pyloric therapies for gastroparesis.

"Meet the Experts" | ☉ Tuesday, Oct 25, 7:30 am - 8:15 am | ♡ Room E219BC

BONUS SESSION H - You CAM Do It! Alternative Approaches to Digestive Care

Moderator: Linda Ahn B. Nguyen, MD, FACP

- **Cannabinoids: Turn On, Tune In, Drop Out**
Edith Y. Ho, MD, MS, FACP
Identify the therapeutic uses of cannabinoids in GI and recognize potential pitfalls.
- **Your Patients Are Taking Them Anyway: Understanding Nutraceuticals in DGBIs**
Linda Ahn B. Nguyen, MD, FACP
Summarize the evidence behind common and popular nutraceuticals on the market.
- **There's an App for That: Evaluating the Digital App Landscape in GI**
Eric D. Shah, MD, MBA, FACP
Analyze available apps for clinical use in GI for both physician and patient.

"Meet the Experts" | ☉ Tuesday, Oct 25, 7:30 am - 8:15 am | ♡ Room E219D

BONUS SESSION I - Blood, Bowel, and Biomarkers: From Selection to Monitoring in IBD

Moderator: Adjoa N. Anyane-Yeboah, MD, MPH

- **Discussion of Risks and Positioning of Therapy in IBD**
Meenakshi Bewtra, MD, PhD, MPH
Recognize safety and risks of therapy balanced with positioning of treatment options.
- **Lab Testing for Treatment and Disease Monitoring Strategies**
Adjoa N. Anyane-Yeboah, MD, MPH
Interpret lab testing and monitoring strategies to optimize disease management.
- **Therapeutic Drug Monitoring in IBD**
Andres J. Yarur, MD, FACP
Explain drug and antibody level monitoring strategies with both TNF and non-TNF antagonist therapies.

"Meet the Experts" | ☉ Tuesday, Oct 25, 7:30 am - 8:15 am | ♡ Room E212

BONUS SESSION J - Interventional Colonoscopy: What Gastroenterologists Need to Know

Moderator: Mohamed O. Othman, MD

- **Basic Polypectomy Techniques: Cold or Hot Snare or Forceps?**
Saowanee Ngamruengphong, MD
Identify options for colon polyp resection, and when to employ specific techniques.
- **Advanced Endoscopic Resection: When Basic Isn't Enough**
Mohamed O. Othman, MD
Apply advanced techniques to facilitate comprehensive endoscopic resection of challenging polyps.
- **Endoscopic Evaluation and Management of IBD and Complications**
Gursimran S. Kochhar, MD
Explain the role of advanced endoscopic imaging and interventions in the management of IBD and its complications.

BONUS SESSION K - Leadership, Diversity, Ethical Care, and Equity

Moderator: Sophie M. Balzora, MD, FACP

- **Comprehensive Care of Common GI Conditions for LGBTQI+ Communities**
Sonali Paul, MD, MS
Explain how practitioners can appropriately care for members of the LGBTQI+ community.
- **Allyship for URMs in GI Challenges and Solutions to Satisfy an Unmet Need**
Cassandra D. Fritz, MD
Identify ways that allies can support underrepresented minorities in medicine.
- **The Impact of the Social and Structural Determinants of Health on Vulnerable Populations With Chronic Liver Disease Epidemiology and Solutions**
Lauren D. Nephew, MD
Describe the barriers to healthcare faced by vulnerable populations and how providers can assist these patients.

On-Demand ANNUAL SCIENTIFIC MEETING

BONUS SESSIONS

BONUS SESSION L - Celebrating Women in GI

Moderator: Asmeen Bhatt, MD, PhD

- **Promoting Gender Diversity in Non-Clinical Realms: Engaging Women in Research and Authorships**
Millie D. Long, MD, MPH, FACG
Appraise high-impact publications led by female physician scientists.
- **It's Time to Break Another Glass Ceiling: Women and Interventional Endoscopy**
Allison R. Schulman, MD, MPH
Discuss barriers that women face in pursuing advanced endoscopy training, and recent inroads that have been made.
- **Ergonomics in Endoscopy – What Do Women Do Differently?**
Asmeen Bhatt, MD, PhD
Demonstrate gender differences in endoscopy preferences and work-related physical injury.

BONUS SESSION M - Complications of Portal Hypertension

Moderator: Patricia L. Bloom, MD

- **Recent Updates in the Management of Varices**
Uchenna A. Agbim, MD
Describe updated medical and interventional therapies for the management of varices.
- **Portal and Hepatic Vein Thrombosis**
Joseph Ahn, MD, MS, MBA, FACG
Recognize diagnostic, surveillance, and treatment strategies for portal and hepatic vein thrombosis.
- **Acute Kidney Injury in Cirrhosis: Everything is Not Hepatorenal Syndrome**
Patricia L. Bloom, MD
Identify and manage acute kidney injury in patients with cirrhosis.

BONUS SESSION N - Fatty Liver Disease

Moderator: Robert J. Wong, MD, MS, FACG

- **NAFLD vs. MAFLD: What's in a Name?**
Robert J. Wong, MD, MS, FACG
Discuss the differences between nonalcoholic fatty liver disease (NAFLD) and metabolic dysfunction-associated liver disease (MAFLD) nomenclature and its relevance to clinical management.
- **Emerging Medical Therapies for ALD and NAFLD**
Mary E. Rinella, MD, FACG
Evaluate recent advances in new and emerging treatments for the management of alcohol-associated liver disease and nonalcoholic fatty liver disease.
- **In Search of the Optimal NAFLD Clinical Care Pathway**
Joseph K. Lim, MD, FACG
Describe the effectiveness of optimal clinical care models in improving the NAFLD care cascade from early diagnosis to management.

acgmeetings.gi.org

On-Demand ANNUAL SCIENTIFIC MEETING

BONUS SESSIONS

BONUS SESSION O - Cystic Neoplasms of the Pancreas

Moderator: V. Raman Muthusamy, MD, MAS, FACG

- **Diagnostic Evaluation of Pancreatic Cystic Lesions**

V. Raman Muthusamy, MD, MAS, FACG

Compare key aspects of the diagnostic evaluation of pancreatic cystic lesions including radiologic and endoscopic imaging, fluid analysis and tissue acquisition.

- **Surveillance of Pancreatic Cystic Neoplasms: Making Sense of the Guidelines**

Anne Marie Lennon, MD, PhD, MBBCh, FACG

Explain and summarize the similarities and key differences among existing guidelines.

- **Update on Endoscopic Ultrasound-Guided Cyst Ablation**

John M. DeWitt, MD, FACG

Describe key features of EUS-guided ablation including patient selection, choice of ablative agent and adverse events.

BONUS SESSION P - Let's Bring Nutrition Back to the Gastroenterology Clinic

Moderator: Shirley C. Paski, MD

- **Identification and Evaluation of Malnutrition in a Gastroenterology Practice**

Dejan Micic, MD

Identify screening strategies for malnutrition and the basic interventions in a malnourished patient.

- **What Happens After a PEG? Basics of Enteral Nutrition Support**

Shirley C. Paski, MD

Explain the basic principles of the provision of enteral nutrition.

- **My Tube is Leaking...Complications and Management of Troublesome Enteral Tubes**

John C. Fang, MD

Define the basic complications of enteral tube placement and the management of troublesome tubes.

BONUS SESSION Q - Practicing GI in 2022: What Does the Physician Need to Do to Prepare?

Moderator: Vonda G. Reeves, MD, MBA, FACG

- **The Great Recalibration of 2022: Is it Time for a Career Change and What Does That Mean?**

Vonda G. Reeves, MD, MBA, FACG

Evaluate your current professional role and assess alignment with long-term goals and ambitions.

- **Are You Professionally Exhausted? What Is it and How Can I Fix the Problem?**

David J. Hass, MD, FACG

Identify signs of professional exhaustion and develop strategies to mitigate this in the short- and long-term.

- **Keeping Your Career Sharp: How to Keep Yourself Invigorated and Excited for Your Future**

Sunanda V. Kane, MD, MSPH, FACG

Outline innovative methods to enhance your career path for long-term career satisfaction and achievement.

BONUS SESSION R - Controversies in the Management of Female Pelvic Floor Disorders

Moderator: Leila Neshatian, MD, MSc

- **Leave It to GI: Medical Management Is Best!**

Leila Neshatian, MD, MSc

Describe the medical therapies available for common pelvic floor disorders including novel medical and device therapies.

- **The Only Thing That Heals Is Cold Steel: Sometimes Only Surgery Will Do**

Tracy Hull, MD

Identify which patients with pelvic floor disorders are suitable candidates for surgery.

- **Pelvic Floor Physical Therapy and Biofeedback First**

Jen Shifferd, PT, CLT, WCS

Discuss the best uses and limitations of pelvic floor physical therapy and biofeedback.

BONUS SESSION S - Emerging Issues in Alcohol-Associated Liver Disease

Moderator: Ashwani K. Singal, MD, MS, FACG

- **Changing Epidemiology Worldwide and in the COVID Era**

Renuathy Dhanasekaran, MD

Describe the global healthcare burden of ALD in the COVID-19 era.

- **Updates in the Management of Alcohol-Associated Hepatitis**

Binu V. John, MD, MPH, FACG

Outline the current medical treatment options for and recognize the evolving role of liver transplantation in patients with alcohol-associated hepatitis.

- **Integrated Care Model for Alcohol-Associated Liver Disease**

Ashwani K. Singal, MD, MS, FACG

Recognize the dual pathology of liver disease and alcohol use disorder in patients with alcohol-associated liver disease and demonstrate the role of integrated care in improving their long-term outcome.

BONUS SESSION T - Evaluating Evidence-Based Medicine: Exploring ACG's Newest Publication, "Evidence-Based GI"

Moderator: Philip Schoenfeld, MD, MSc, MSc(Epi), FACG

- **Introducing the New ACG Evidence-Based GI Publication and Why It Matters**

Jessica R. Allegretti, MD, MPH, FACG

Explain the concept and the utility of the new evidence based journal review.

- **How to Review Articles and Evidence Using GRADE Methodology**

Robert J. Wong, MD, FACG

Recognize how to assess scientific publications and the impact they should have on clinical practice.

- **Highlighting High-Impact GI Articles From the Inaugural Year**

Philip Schoenfeld, MD, MSc, MSc(Epi), FACG

Summarize the high-impact articles covered in the ACG Evidence-Based GI publication.

On-Demand ANNUAL SCIENTIFIC MEETING

BONUS SESSIONS

ANNUAL SCIENTIFIC MEETING *Faculty*

BONUS SESSION U - "Post"-COVID-19: What Should Stay and What Should Change in the Practice of GI?

Moderator: Daniel J. Pambianco, MD, FACP

- **The Financial and Emotional Impact of COVID-19 on GI Practice**
Harish K. Gagneja, MD, FACP
Explain the financial and psychological burdens of the pandemic on GI practice.
- **Changes in Practice Management Due to the Pandemic**
Daniel J. Pambianco, MD, FACP
Discuss the scheduling, clinic visits, and endoscopic procedural changes made due to the pandemic and which ones will or should become permanent.
- **Virtual Platforms for Interviews, Education, and Conference Participation**
Amy S. Oxentenko, MD, FACP
Identify the changes in practice and education with the increase in virtual interactions and suggest which should continue and how they will evolve after the pandemic.

BONUS SESSION V - A New Take on Celiac Disease – Updates on the Diagnosis and Management

Moderator: Joseph A. Murray, MD, FACP

- **First, Let's Make the Diagnosis**
Ciarán P. Kelly, MD, FACP
Explain the role of serology and endoscopy for the diagnosis of celiac disease in adult patients.
- **Novel Therapies for Celiac Disease**
Joseph A. Murray, MD, FACP
Examine the upcoming therapies for celiac disease and their role in disease management.
- **Diagnosis and Management of Refractory Celiac Disease**
Peter H.R. Green, MD, FACP
Evaluate the presentation, diagnostic criteria, and management of refractory celiac disease.

BONUS SESSION W - Sustainability in GI

- **What Is Climate Change and How Will it Impact GI?**
Desmond J. Leddin, MB, MSc, FRCPC, FRCPI
Describe the causes of climate change and state the effects which global warming will have on digestive health.
- **Climate Change From the Health and Healthcare Systems Perspective**
Bishr Omary, MD, PhD
Explain the circular relationship of climate change, health and healthcare systems, and recognize the importance of decarbonizing health care systems and comprehend national and international approaches to achieving this goal.
- **The Role of Environmental Ethics in Endoscopic Decision-Making**
Nitin K. Ahuja, MD, MS
Identify the incentives, ethical and otherwise, prioritized by the current status quo of individualized clinical decision-making, and evaluate the feasibility of including sustainability and justice concerns into future models of healthcare delivery.
- **How to Reduce the Carbon Footprint of Your GI Academic and Community Practice**
Swapna Gayam, MD, FACP
Discuss the contribution of GI and endoscopy towards climate change and identify immediately implementable tips and steps to begin reducing the carbon footprint and reducing waste in practice.

BONUS SESSION X - A Deep Dive into Central Neuromodulators

- **Neuromodulators for Functional GI Disorders – A Presentation and Panel Discussion**
Speaker: Douglas A. Drossman, MD, MACG
Panelists: Lin Chang, MD, FACP; Douglas A. Drossman, MD, MACG; Albenia D. Halpert, MD; Johannah Ruddy, MD; Gregory S. Sayuk, MD, MPH
Discuss disorders of the gut-brain interaction and how neuromodulators may help these patients.

Bincy P. Abraham, MD, FACP

Associate Professor of Clinical Medicine, Weill Cornell Medical College; Adjunct Associate Professor of Internal Medicine, Texas A&M University, College of Medicine; Director, Gastroenterology Fellowship Program, Houston Methodist Distinguished Professor and Director, Underwood Center - Fodren Inflammatory Bowel Disease Program, Houston Methodist, Houston, TX

Neena S. Abraham, MD, MSc (Epid), MACG

Professor of Medicine, Mayo Clinic, Scottsdale, AZ

Jean-Paul Achkar, MD, FACP

Staff Physician, Cleveland Clinic Digestive Disease Center, Cleveland Clinic Foundation, Cleveland, OH

Anita Afzali, MD, MPH, MHCM, FACP

Executive Vice Chair, Department of Internal Medicine; Associate Chief Medical Officer, UC Health and Cincinnati Children's Hospital, University of Cincinnati, Dublin, OH

Uchenna A. Agbim, MD

Assistant Professor of Medicine, University of Tennessee Health Science Center, Memphis, TN

Joseph Ahn, MD, MS, MBA, FACP

Professor of Medicine, Oregon Health & Science University, Portland, OR

Nitin K. Ahuja, MD, MS

Assistant Professor of Clinical Medicine, University of Pennsylvania, Philadelphia, PA

Jessica R. Allegretti, MD, MPH, FACP

Director of Clinical Research; Director, Fecal Microbiota Transplant Program; Associate Director, Crohn's and Colitis Center, Brigham and Women's Hospital; Assistant Professor of Medicine, Harvard Medical School, Cambridge, MA

Adjoa Anyane-Yeboah, MD, MPH

Faculty Gastroenterologist, Massachusetts General Hospital, Boston, MA

David Armstrong, MD, FACP

Professor of Medicine, Douglas Family Chair in Nutrition Research, Farncombe Family Digestive Health Research Institute, McMaster University, Hamilton, Ontario, Canada

Jordan E. Axelrad, MD, MPH

Assistant Professor, NYU Grossman School of Medicine, New York, NY

Jasmohan S. Bajaj, MD, MSc, FACP

Professor, Virginia Commonwealth University School of Medicine, Richmond, VA

Jodie A. Barkin, MD

Associate Professor of Clinical Medicine, University of Miami Miller School of Medicine, Miami, FL

Alan N. Barkun, MD, CM, MSc (Clin Epi), FACP

Professor of Medicine, Douglas G. Kinneir Chair in Gastroenterology, McGill University Health Center, Montreal, Quebec, Canada

Meenakshi Bewtra, MD, PhD, MPH

Associate Professor of Medicine and Epidemiology, University of Pennsylvania, Philadelphia, PA

Asmeen Bhatt, MD, PhD

Assistant Professor, UT Health Sciences Center at Houston, Houston, TX

Patricia P. Bloom, MD

Assistant Professor, University of Michigan, Ann Arbor, MI

Carol A. Burke, MD, FACP

Director, Center for Colon Polyp and Cancer Prevention; Vice Chair, Department of Gastroenterology and Hepatology, Cleveland Clinic Foundation, Cleveland, OH

ANNUAL SCIENTIFIC MEETING

Faculty

Brooks D. Cash, MD, FACC

Dan and Lillie Sterling Professor of Medicine; Chief, Division of Gastroenterology, Hepatology, and Nutrition, University of Texas Health Science Center at Houston, Houston, TX

Lin Chang, MD, FACC

Professor of Medicine, David Geffen School of Medicine at UCLA, Los Angeles, CA

Jennifer A. Christie, MD

Professor, Emory University School of Medicine, Atlanta, GA

Stanley M. Cohen, MD, FACC

Medical Director, Hepatology, University Hospital/Cleveland Medical Center, Cleveland, OH

Russell D. Cohen, MD, FACC

Professor of Medicine, Director, Inflammatory Bowel Disease Center, Co-Director, Advanced IBD Fellowship Program, University of Chicago, Chicago, IL

Darwin L. Conwell, MD, MS, FACC

Professor and Jack M. Gill Endowed Chair, Department of Internal Medicine, University of Kentucky College of Medicine, Lexington, KY

Carl V. Crawford, Jr., MD

Assistant Attending Physician, New York-Presbyterian Hospital, Assistant Professor of Clinical Medicine, Weill Cornell Medical College, New York, NY

Rabia de Latour, MD

Director of Endoscopy, Bellevue Hospital Center, Associate Program Director, NYU Gastroenterology Fellowship, Assistant Professor of Medicine, NYU School of Medicine, NYU School of Medicine, New York, NY

John M. DeWitt, MD, FACC

Professor of Medicine, Director of Endoscopic Ultrasound, Indiana University Health, Indianapolis, IN

Renumathy Dhanasekaran, MD

Assistant Professor, Stanford University, Cupertino, CA

Douglas A. Drossman, MD, MACG

Professor of Medicine and Psychiatry (Emeritus), University of North Carolina at Chapel Hill School of Medicine, Founder, Center for Education and Practice of Biopsychosocial Patient Care and Drossman Gastroenterology, Durham, NC

Dayna S. Early, MD, FACC

Professor, Washington University-GI Division, St. Louis, MO

Gary W. Falk, MD, MS, FACC

Professor of Medicine, University of Pennsylvania Perelman School of Medicine, Philadelphia, PA

John C. Fang, MD

Professor of Medicine and Clinical Director, Division of Gastroenterology, University of Utah, Salt Lake City, UT

Paul Feuerstadt, MD, FACC

Assistant Clinical Professor of Medicine/Attending Gastroenterologist, Yale University, School of Medicine/PACT Gastroenterology Center, Hamden, CT

Cassandra D.L. Fritz, MD

Assistant Professor, Barnes-Jewish Hospital at Washington University in St. Louis, St. Louis, MO

Harish K. Gagneja, MD, FACC

Partner Physician, Austin Gastroenterology, Austin, TX

Swapna Gayam, MD, FACC

Associate Professor, West Virginia University, Section of Gastroenterology and Hepatology, Morgantown, WV

Peter H. R. Green, MD, FACC

Phyllis & Ivan Seidenberg Professor of Medicine, Columbia University, New York, NY

Ruby C. Greywoode, MD

Assistant Professor of Medicine, Albert Einstein College of Medicine, Bronx, NY

Seth A. Gross, MD, FACC

Associate Professor of Medicine, NYU School of Medicine; Chief of Gastroenterology, Tisch Hospital, NYU Langone Health, New York, NY

Shilpa Grover, MD, MPH

Director, Onco-Gastroenterology Program, Brigham and Women's Hospital, Boston, MA

Alexandra Guillaume, MD

Assistant Professor of Medicine, Stony Brook Medicine, Stony Brook, NY

C. Prakash Gyawali, MD, FACC

Professor of Medicine, Washington University, St. Louis, MO

Christine Y. Hachem, MD, FACC

Professor of Internal Medicine, St. Louis University, St. Louis, MO

Albena D. Halpert, MD

Assistant Professor of Medicine, Boston University, Boston, MA

Stephen B. Hanauer, MD, MACG

Professor of Medicine, Feinberg School of Medicine, Northwestern University, Chicago, IL

Virginia A. Hanchett, FNP, DCNP, CWCN, COCN

Senior Nurse Practitioner and Program Director, University of Rochester, Rochester, NY

David J. Hass, MD, FACC

Associate Clinical Professor of Medicine, Yale University School of Medicine, Hamden, CT

Peter D. Higgins, MD, PhD, MSc

Director, IBD Program; Professor, Internal Medicine, University of Michigan, Ann Arbor, MI

Edith Y. Ho, MD, MS, FACC

Clinical Associate Professor of Medicine, Stanford University, Redwood City, CA

Immanuel K.H. Ho, MD, FACC

Clinical Professor of Medicine, University of Pennsylvania, Philadelphia, PA

Tracy Hull, MD

Professor of Surgery, Cleveland Clinic Foundation, Cleveland, OH

Brian C. Jacobson, MD, MPH, FACC

Director of Program Development for GI, Massachusetts General Hospital, Boston, MA

Laith H. Jamil, MD, FACC

Section Head of Gastroenterology and Hepatology, Professor of Medicine, Beaumont Hospital, Royal Oak, Oakland University William Beaumont School of Medicine, Royal Oak, MI

Binu V. John, MD, MPH, FACC

Associate Professor, University of Miami, Miami, FL

Amanda Johnson, MD

Instructor in Medicine, Mayo Clinic, Rochester, MN

Patricia D. Jones, MD, MSCR

Assistant Professor of Clinical Medicine, University of Miami Miller School of Medicine, Miami, FL

Patrick S. Kamath, MD

Professor of Medicine, Mayo Clinic College of Medicine and Science, Rochester, MN

Sunanda V. Kane, MD, MSPH, FACC

Professor of Medicine, Mayo Clinic, Rochester, MN

Vivek Kaul, MD, FACC

Segal-Watson Professor of Medicine, University of Rochester Medical Center, Rochester, NY

Maia Kayal, MD, MS

Assistant Professor, Icahn School of Medicine at Mount Sinai, New York, NY

Costas H. Kefalas, MD, MMM, FACC

Partner, Akron Digestive Disease Consultants, Inc., Akron, OH

Ciarán P. Kelly, MD, FACC

Professor of Medicine, BIDMC & Harvard Medical School, West Newton, MA

Gursimran Kochhar, MBBS, MD

Gastroenterologist, Cleveland Clinic Foundation, Cleveland, OH

Paul Y. Kwo, MD, FACC

Professor of Medicine, Stanford University, Redwood City, CA

Brian E. Lacy, MD, PhD, FACC

Professor of Medicine, Mayo Clinic, Jacksonville, FL

Luis F. Lara, MD

Associate Professor, The Ohio State University Wexner Medical Center, Columbus, OH

Desmond J. Leddin, MB, MSc, FRCPC, FRCPI

Adjunct Professor, Dalhousie University; Chair, Canadian Association of Gastroenterology Climate Interest Group, Halifax, Nova Scotia, Canada

Jonathan A. Leighton, MD, FACC

Professor of Medicine, Mayo Clinic, Scottsdale, AZ

Anne Marie Lennon, MD, PhD, FACC

Professor of Medicine, Johns Hopkins Medical Institutions, Baltimore, MD

Joseph K. Lim, MD, FACC

Professor of Medicine; Director, Clinical Hepatology, Yale University School of Medicine, New Haven, CT

Millie D. Long, MD, MPH, FACC

Associate Professor of Medicine, University of North Carolina, Chapel Hill, NC

Kristle L. Lynch, MD

Associate Professor of Clinical Medicine, The University of Pennsylvania Perelman School of Medicine, Philadelphia, PA

Haripriya Maddur, MD

Medical Director of Liver Transplantation, Transplant Hepatologist, HCA West Florida Largo Medical Center, Largo, FL

Mitchell A. Mah'moud, MD, FACC

Professor of Medicine, Duke University School of Medicine, Durham, NC

Lisa B. Malter, MD, FACC

Professor of Medicine, NYU School of Medicine/Bellevue Hospital, New York, NY

Folasade P. May, MD, PhD, MPHil

Assistant Professor of Medicine, UCLA Health/Veterans Affairs, Culver City, CA

Emeran A. Mayer, MD

Faculty and Center Director, University of California, Los Angeles, Topanga, CA

Dejan Micic, MD

Assistant Professor of Medicine, University of Chicago Medicine, Chicago, IL

Paul Moayyedi, MB ChB, PhD, MPH, FACC

Professor, Department of Medicine; Division of Gastroenterology, McMaster University, Hamilton, Ontario, Canada

Baharak Moshiree, MD, MSc, FACC

Professor of Medicine, Atrium Health, Charlotte, NC

ANNUAL SCIENTIFIC MEETING

Faculty

Cynthia A. Moylan, MD, MHS

Associate Professor of Medicine, Duke University School of Medicine, Durham, NC

Joseph A. Murray, MD, FACC

Professor of Medicine, Consultant, Division of Gastroenterology and Hepatology and Department of Immunology, Mayo Clinic, Rochester, MN

V. Raman Muthusamy, MD, MAS, FACC

Professor of Clinical Medicine; Director of Endoscopy, University of California, Los Angeles, Los Angeles, CA

Lauren Nephew, MD, MSCE

Assistant Professor, Indiana University, Indianapolis, IN

Leila Neshatian, MD, MSC

Clinical Associate Professor, Stanford University, Redwood City, CA

Saowanee Ngamruengphong, MD

Associate Professor of Medicine, Johns Hopkins Medicine, Baltimore, MD

Linda Anh B. Nguyen, MD, FACC

Clinical Professor, Stanford University School of Medicine, Redwood City, CA

Patrick I. Okolo, III, MD, FACC

System Chief/ Executive Medical Director, Rochester Regional Health, Rochester, NY

Bishr Omary, MD, PhD

Professor, Rutgers University, Piscataway, NJ

Caterina M. Oneto, MD

Clinical Instructor, Department of Medicine, NYU Grossman School of Medicine, New York, NY

Mohamed O. Othman, MD

Professor of Medicine, Baylor College of Medicine, Houston, TX

Amy S. Oxentenko, MD, FACC

Professor of Medicine and Chair, Department of Medicine, Mayo Clinic, Rochester, MN

Daniel J. Pambianco, MD, FACC

Gastroenterology Specialist, Charlottesville Gastroenterology Associates, Charlottesville, VA

Sravanthi Parasa, MD

Gastroenterologist, Swedish Medical Center, Seattle, WA

Nasim Parsa, MD

Consultant, Gastroenterology and Hepatology, CentraCare, St. Cloud, MN

Shabana F. Pasha, MD

Professor of Medicine, Mayo Clinic, Scottsdale, AZ

Shirley C. Paski, MD, MSC

Director, Small Bowel Diseases and Nutrition, Cedars-Sinai Medical Center, Los Angeles, CA

Amit Patel, MD, FACC

Associate Professor, Duke University School of Medicine and Durham VA Medical Center, Cary, NC

Sonali Paul, MD, MS

Assistant Professor, University of Chicago Medicine, Chicago, IL

Anna Evans Phillips, MD

Clinician-Researcher, Division of Gastroenterology, Hepatology, and Nutrition, University of Pennsylvania Medical Center, Pittsburgh, PA

Jessica R. Philpott, MD, PhD

Gastroenterologist, Center for Inflammatory Bowel Disease, Department of Gastroenterology, Cleveland Clinic, Cleveland, OH

Mark B. Pochapin, MD, FACC

Director, Division of Gastroenterology and Hepatology, NYU Langone Health, New York, NY

Nancy S. Reau, MD, FACC

Professor of Medicine, Associate Director of Solid Organ Transplantation; Section Chief, Hepatology, Richard B. Capps Chair of Hepatology, Rush University Medical Center, Chicago, IL

Vonda G. Reeves, MD, MBA, FACC

Physician, GI Associates Endoscopy Center, Flowood, MS

Mary E. Rinella, MD, FACC

Professor of Medicine, University of Chicago Medical Center, Chicago, IL

Johannah Ruddy, MEd

Chief Operating Officer, Rome Foundation, Raleigh, NC

John R. Saltzman, MD, FACC

Professor of Medicine (part-time), Harvard Medical School, Boston, MA

Bruce E. Sands, MD, MS, FACC

Chief, Division of Gastroenterology, Icahn School of Medicine at Mount Sinai, New York, NY

Gregory S. Sayuk, MD, MPH

Associate Professor of Medicine and Psychiatry, Associate Director, Fellowship Training Program, Washington University School of Medicine and John Cochran Veterans Affairs Medical Center, St. Louis, MO

Felice Schnoll-Sussman, MD, MSC, FACC

Professor of Clinical Medicine, Weill Cornell Medical College, New York, NY

Philip S. Schoenfeld, MD, MEd, MSc (Epi), FACC

Chief (Emeritus)-Gastroenterology Section, John D. Dingell VA Medical Center, Detroit, MI

Allison R. Schulman, MD, MPH

Associate Professor of Medicine & Surgery, Director of Bariatric Endoscopy, University of Michigan, Ann Arbor, MI

David A. Schwartz, MD, FACC

Professor of Medicine, Vanderbilt University Medical Center, Nashville, TN

Samir A. Shah, MD, FACC

Clinical Professor of Medicine, Alpert Medical School of Brown University; Chief of Gastroenterology, The Miriam Hospital, Gastroenterology Associates, Inc., Providence, RI

Eric D. Shah, MD, MBA, FACC

Director, GI Motility, Esophageal and Swallowing Disorders Center; Assistant Professor of Medicine, Geisel School of Medicine, Dartmouth-Hitchcock Health, Lebanon, NH

Aasma Shaikat, MD, MPH, FACC

Robert M. and Mary H. Glickman Professor of Medicine; Professor of Population Health; Director GI Outcomes Research, NYU Langone Health, New York, NY

Jen J. Shiffert, PT, CLT, WCS

Director of Women's Health Residency, Physical Therapy Clinical Specialist, Michigan Medicine, Brighton, MI

Alexandra Shingina, MD, MSC

Assistant Professor of Medicine, Vanderbilt University Medical Center, Nashville, TN

Eugenia Shmidt, MD

Assistant Professor, University of Minnesota, Minneapolis, MN

Ashwani K. Singal, MD, MS, FACC

Professor, Hepatologist, and Chief of Clinical Research Affairs, University of South Dakota, Avera University Hospital and Transplant Institute, and Institute of Human Genetics Research, Sioux Falls, SD

Harminder Singh, MD, FACC

Assistant Professor of Medicine, University of Manitoba, Winnipeg, Manitoba, Canada

Aparajita Singh, MD, MPH

Associate Professor, Gastroenterology, University of California San Francisco, San Francisco, CA

Brennan M. Spiegel, MD, MSHS, FACC

Professor of Medicine and Public Health, Director of Health Services Research, Cedars-Sinai Health System; Cedars-Sinai Site Director, Clinical and Translational Science Institute (CTSI); Assistant Dean, David Geffen School of Medicine at UCLA, Cedars-Sinai Medical Center, Los Angeles, CA

Kyle D. Staller, MD, MPH

Director, GI Motility Laboratory, Massachusetts General Hospital, Boston, MA

Neil H. Stollman, MD, FACC

Associate Clinical Professor of Medicine, University of California San Francisco; Chief, Division of Gastroenterology, Alta Bates Summit Medical Center, Oakland, CA

Arun C. Swaminath, MD, FACC

Chief, Division of Gastroenterology; Director, IBD Program, Lenox Hill Hospital / Northwell Health, New York, NY

Thomas A. Ullman, MD, FACC

Professor of Medicine & Chief, Division of Gastroenterology, Albert Einstein College of Medicine / Montefiore Medical Center, Bronx, NY

Kenneth J. Vega, MD, FACC

Professor of Medicine and Chief, Division of Gastroenterology and Hepatology, Augusta University-Medical College of Georgia, Augusta, GA

Lavanya Viswanathan, MD, MS

Associate Professor of Medicine, Uniformed Services University of the Health Sciences, Travis AFB, CA

Renee L. Williams, MD, MHPE, FACC

Associate Professor of Medicine; Program Director, Division of Gastroenterology, NYU Grossman School of Medicine, New York, NY

Robert J. Wong, MD, MS, FACC

Clinical Associate Professor (Affiliated), Stanford University Medical Center, Veterans Affairs Palo Alto Healthcare System, Palo Alto, CA

Manida Wungjiranirun, MD.

Assistant Professor of Medicine, School of Medicine, Oregon Health and Science University, Portland, OR

Rena H. Yadlapati, MD, MSHS, FACC

Associate Professor, University of California San Diego, San Diego, CA

Andres J. Yarur, MD, FACC

Associate Professor of Medicine, Cedars Sinai Medical Center, Los Angeles, CA

Rowen K. Zetterman, MD, MACG

Professor Emeritus of Internal Medicine, University of Nebraska, Omaha, NE

POSTER PRESENTATIONS

NEW FOR 2022! While posters will still be presented Sunday - Tuesday, the number of sessions has been expanded from 3 to 5 — with a session on Sunday afternoon, and separate morning and afternoon sessions on both Monday and Tuesday. Plan time to view the posters each day, interact with the presenters, and even join a Poster Round with the Experts session. **The Poster Hall will be held in the Crown Ballroom.**

Join us during each session for a chance to win prizes!

POSTER SESSION A | Sunday, October 23 (afternoon)

Poster Display Time	Authors Standing with Posters	Poster Hall Location
Ⓢ 5:00 pm - 7:00 pm	Ⓢ 5:30 pm - 6:30 pm	📍 Crown Ballroom
Biliary/Pancreas.....		A0001 - A0083
Colon.....		A0084 - A0162
Colorectal Cancer Prevention.....		A0163 - A0180
Esophagus.....		A0181 - A0245
Functional Bowel Disease.....		A0246 - A0263
General Endoscopy.....		A0264 - A0286
GI Bleeding.....		A0287 - A0328
IBD.....		A0329 - A0415
Interventional Endoscopy.....		A0416 - A0452
Liver.....		A0453 - A0591
Obesity.....		A0592 - A0599
Pediatrics.....		A0600 - A0618
Practice Management.....		A0619 - A0633
Small Intestine.....		A0634 - A0680
Stomach.....		A0681 - A0735

POSTER SESSION B | Monday, October 24 (morning)

Poster Display Time	Authors Standing with Posters	Poster Hall Location
Ⓢ 10:00 am - 12:00 pm	Ⓢ 10:30 am - 11:30 am	📍 Crown Ballroom
Biliary/Pancreas.....		B0001 - B0083

Small Intestine.....		E0634 - E0680
Stomach.....		E0681 - E0735

INDUSTRY-SPONSORED

Satellite Symposia

Industry-sponsored satellite symposia provide additional educational opportunities for attendees. These programs are independent of the ACG 2022 Annual Scientific Meeting and Postgraduate Course programs. The ACG is not the continuing medical education provider of these programs. Unless otherwise noted, all symposia will take place at the Westin Charlotte. For more information, see the company sponsor.

SATURDAY, OCTOBER 22

Managing Effects of ACLF and Portal Hypertension: Variceal Bleeding, Respiratory and Renal Disease in Patients with Cirrhosis

Paul Y. Kwo, MD, FACP; Robert S. Brown, Jr., MD, MPH, FACP; Nancy S. Reau, MD, FACP

🕒 5:30 am - 7:30 am | 📍 Charlotte Convention Center - Richardson Ballroom C

Acute-on-Chronic Liver Failure (ACLF) typically describes a patient with underlying cirrhosis experiencing an acute insult such as infection in the context of intense systemic inflammation, accompanied by single- or multi-organ failure, that significantly increases the risk of 28-day mortality. Portal hypertension (PH) is one of the earliest and most significant complications of cirrhosis, resulting from increased intrahepatic resistance combined with increased portal and hepatic arterial blood flow. Clinically-significant PH, identified by a hepatic venous pressure gradient >10mmHg, predicts the development of variceal hemorrhage, hepatic encephalopathy, ascites, and hepatorenal syndrome, all hallmarks of decompensation and multi-organ failure. This symposium will discuss the continuum of care of patients with chronic liver disease progressing to ACLF, and effective clinical decision-making by the gastroenterology team as the disease progresses.

This activity is supported by an educational grant from Mallinckrodt Pharmaceuticals.

A Clinical Overview of a Prescription Treatment for Patients With Moderately to Severely Active Ulcerative Colitis

Asher Kornbluth, MD

🕒 5:30 pm - 7:30 pm | 📍 Westin Charlotte - Grand Ballroom AB

Dr. Kornbluth will discuss the clinical data and safety profile of a prescription treatment for adult patients with moderately to severely active ulcerative colitis.

This program is sponsored by Pfizer.

Eosinophilic Esophagitis: Novel Therapeutic Developments and Impact on Treatment Paradigms

Evan S. Dellon, MD, MPH, FACP (Activity Chair); Claire A. Beveridge, MD; Mirna Chahade, MD, MPH; Ikuo Hirano, MD, FACP

🕒 5:30 pm - 7:30 pm | 📍 Westin Charlotte - Grand Ballroom C

In this educational program, expert clinicians will review the pathogenesis and best practices for accurate diagnosis of eosinophilic esophagitis (EoE). They will also explore current treatment guidelines and the clinical data supporting the use of recently approved and emerging therapies for EoE. Interactive case discussions are included to challenge the audience's ability to apply the learnings from the didactic presentations.

This activity is supported by an independent medical education grant from Regeneron Pharmaceuticals, Inc. and Sanofi.

Breaking the Cycle: The Role of Microbiota-Based Biotherapies in the Reduction of Recurrent *Clostridioides difficile*

Paul Feuerstadt, MD, FACP; Sahil Khanna, MBBS, MS, FACP; Caterina M. Oneto, MD

🕒 7:30 pm - 9:30 pm | 📍 Westin Charlotte - Grand Ballroom D

This CME activity will inform clinicians about the diagnosis and treatment of recurrent *Clostridioides difficile* (*C. difficile*) infections. Faculty present case-based clinical scenarios to demonstrate the best practices for management of recurrent *C. difficile* infections, including the emerging role of microbiota restoration therapies in their treatment.

Sponsored by the Academy for Continued Healthcare Learning (ACHL).

*The Patient With Erosive Esophagitis: What's Next?

Rena H. Yadlapati, MD, MSHS, FACP; C. Prakash Gyawali, MD, MRCP, FACP; Felice Schnoll-Sussman, MD, MSc, FACP

🕒 7:30 pm - 9:30 pm | 📍 Westin Charlotte - Providence Ballroom

Gastroesophageal reflux disease (GERD) is a highly prevalent, chronic gastrointestinal disorder. GERD that remains undiagnosed and/or undertreated can result in serious complications, including erosive esophagitis (EE), esophageal strictures, Barrett esophagus, and esophageal adenocarcinoma. In this live, interactive townhall, expert faculty will discuss the latest evidence regarding the diagnosis and management of GERD and EE, including new medical therapies. Faculty will use patient cases to contextualize clinical information that learners can apply in their own practices.

Supported by an independent educational grant from Phathom Pharmaceuticals.

SUNDAY, OCTOBER 23

*Guide to the Guidelines: Comparing and Contrasting ACG and AGA IBS Recommendations

Lin Chang, MD, FACP (Chair); Brian E. Lacy, MD, PhD, FACP; Anthony J. Lembo, MD, FACP; Baharak Moshiree, MD, MSc, FACP

🕒 5:30 am - 7:30 am | 📍 Charlotte Convention Center - Room W207A

We will review the methodology and data from the recent ACG and AGA IBS treatment guidelines and methodologies and discuss patient cases that highlight the different treatments that can be used based on ACG and AGA guidelines.

This program is sponsored by Ironwood Pharmaceuticals.

*Microbiome Therapeutics and Recurrent *Clostridioides difficile*: Where Do We Go From Here?

Paul Feuerstadt, MD, FACP; Jessica R. Allegretti, MD, MPH, FACP; Krishna Rao, MD, MS

🕒 7:30 pm - 9:30 pm | 📍 Westin Charlotte - Grand Ballroom AB

Clostridioides difficile can cause a serious infection of the lower intestine, resulting in significant morbidity and sometimes death. The primary risk factor for *C. difficile* infection (CDI) is exposure to broad-spectrum antibiotics, which disrupt the normal composition and function of the gut microbiome. Antibiotics for CDI treatment do not kill bacterial spores, and recurrence is common. Restoring a healthy gut microbiome is therefore often critical for achieving a durable clinical response. In this live CME event, three clinician experts will review treatments for recurrent CDI that target the gut microbiome, including fecal microbiota transplantation and emerging live biopharmaceutical products. Faculty will discuss these therapies in the context of interactive patient cases; audience participation will be encouraged through a live Q&A.

Supported by an independent educational grant from Seres Therapeutics, Inc. & Aimmune Therapeutics.

THEY'RE STILL
LIVING WITHIN

C. DIFF THE RETURN

Visit ACG Booth #227

Patients with recurrent *C. diff* can face a battle with

ENDLESS SEQUELS

Microbiome restoration helps prevent *C. diff* spore germination—and can change the ending of the same frightening plot¹⁻⁸

- After the first *C. diff* recurrence, a patient's risk of subsequent recurrences increases to >40%⁹
- Although *C. diff*-targeted antibiotics kill vegetative toxin-producing bacteria, dormant *C. diff* spores remain—increasing a patient's risk of recurrence^{3,4,10,11}
- *C. diff*-targeted antibiotics disrupt the microbiome, which can produce a favorable environment for the unaffected dormant *C. diff* spores to rapidly germinate and grow^{3,4,10-14}

While antibiotics are effective in treating *C. diff*, they disrupt the microbiome and inherently do not protect against recurrence^{3,4,10-12}

Explore the role of the microbiome at
CdiffSequels.com

INDUSTRY-SPONSORED

Satellite Symposia (cont.)

SUNDAY, OCTOBER 23

***Elevating Outcomes and Breaking Down Barriers in Inflammatory Bowels Disease**

Anita Afzali, MD, MPH, FACP; David T. Rubin, MD, FACP; Aline Charabaty, MD, FACP; Nana E. Bernasko, CRNP, WHNP-BC, DNP

🕒 7:30 pm - 9:30 pm | 📍 Westin Charlotte - Grand Ballroom C

This live, interactive, case-based symposium will increase awareness of disparities in the management of inflammatory bowel disease (IBD) among patients of different racial and ethnic groups residing in different geographic regions of the country. An expert panel of clinicians will use patient cases to illustrate key concepts in IBD management, and present the latest evidence in risk stratification, treat-to-target principles, patient-reported outcomes, individualizing treatment, and shared decision-making. Faculty will also discuss strategies for increasing access to culturally competent care among diverse IBD patient groups.

This program is supported by an independent educational grant from Janssen Biotech Inc., administered by Janssen Scientific Affairs, Takeda Pharmaceuticals U.S.A., Inc. and AbbVie.

MONDAY, OCTOBER 24

***Assessing Ulcerative Colitis: Is There Something Your Patient Isn't Telling You?**

🕒 5:30 am - 7:30 am | 📍 Charlotte Convention Center - Room E217

Join us for this hybrid interactive case-based discussion exploring unmet patient needs related to ulcerative colitis assessment and management. The symposium will take place on Monday, October 24th from 6:30–7:30 AM (EST). Breakfast will be served starting at 5:30 AM.

This program is sponsored by Eli Lilly.

***Exploring Cholestatic Pruritus in PBC—are we even scratching the surface?**

Alan Bonder, MD; Robert G. Gish, MD; Binu V. John, MD, MPH, FACP

🕒 7:00 pm - 9:00 pm | 📍 Westin Charlotte - Uptown Ballroom I

Previous studies have demonstrated low understanding of the mechanism of disease for cholestatic pruritus in PBC, as well as mismatch in the burden of disease experienced by the patient compared to the physician perception of that burden. This symposium will review the definition diagnosis of PBC and cholestatic pruritus (CP), as well as the patient journey and course of illness, mechanism of disease, disease burden, and current treatment options.

This program is sponsored by GlaxoSmithKline.

Most Patients With Ulcerative Colitis 'Can't Wait': The Impact and Clinical Assessment of Bowel Urgency

Marla C. Dubinsky, MD; David T. Rubin, MD, FACP; Subrata Ghosh, MD, FMedSci

🕒 7:00 pm - 9:00 pm | 📍 Westin Charlotte - Grand Ballroom C

Prof. Marla C. Dubinsky, Prof. David T. Rubin and Prof. Subrata Ghosh will discuss the impact and clinical assessment of bowel urgency.

This activity is supported by an educational grant from Lilly.

TUESDAY, OCTOBER 25

Marla C. Dubinsky, MD; Miguel D. Regueiro, MD, FACP

🕒 6:00 am - 8:00 am | 📍 Charlotte Convention Center - Room E217

This program is sponsored by Pfizer.

Cutting-Edge Therapies and Cross-Disciplinary Approaches for Crohn's Perianal Fistulas

Mahmoud Al-Hawary, MD, FSAR; Tina Aswani-Omprakash; David P. Hudesman, MD, FACP; Amy Lightner, MD; Kelsey N. Trull, PA-C

🕒 7:00 pm - 9:00 pm | 📍 Westin Charlotte - Grand Ballroom AB

Review the latest advances in care for patients with Crohn's perianal fistulas (CPF), including emerging clinical evidence, novel treatments, stem cell therapies, and evolving approaches for multidisciplinary coordination of care. Firsthand perspectives from patients with CPF will provide a window into the need for patient-centric care in daily practice.

This activity is supported by an educational grant from Takeda Pharmaceuticals U.S.A., Inc.

***Partnering With Patients: Personalizing Care for IBS-C**

Brooks D. Cash, MD, FACP; Amol Sharma, MD, FACP

🕒 7:00 pm - 9:00 pm | 📍 Westin Charlotte - Grand Ballroom C

Irritable bowel syndrome with constipation (IBS-C) is a chronic disease that substantially impacts patients' physical and psychosocial well-being. Many patients go years before being diagnosed, and a significant proportion remain undiagnosed and untreated. In this live symposium, expert faculty will discuss the latest clinical evidence and best practices for the diagnosis and treatment of IBS-C. Presentations will be aided by a clinical whiteboard to illustrate key concepts in the complex pathophysiology of IBS-C that can now be targeted by FDA-approved treatments. In addition, a patient with IBS-C will join the panel and provide her perspective on the diagnostic and treatment journey, as well as tips for improving dialogue with patients to optimize care of patients with this burdensome condition.

This program is supported by an independent educational grant from Ardelyx.

***Session will be recorded and made available on the ACG Virtual Conference Platform after the live program.**

SUNDAY, OCTOBER 23

Crohn's Disease Deep Dive: Exploring Clinical and Endoscopic Endpoints

Stephen B. Hanauer, MD, MACG

⌚ 5:15 pm – 6:00 pm

This program is sponsored by AbbVie.

Identifying and Treating Patients With Moderately to Severely Active UC

Michael V. Chiorean, MD, FACP

⌚ 6:15 pm – 7:00 pm

Join Bristol Myers Squibb for a conversation with Dr. Chiorean on patient identification and treatment considerations for patients with moderately to severely active UC.

This program is sponsored by Bristol Myers Squibb.

MONDAY, OCTOBER 24

Could It Be More Than Occasional Constipation? Time To Have A Deeper Conversation With Your Patient

Darren M. Brenner, MD, FACP

⌚ 10:30 am – 11:30 am

IBS-C impacts nearly 11.5 million Americans. It's a condition that is characterized by constipation, as well as chronic and burdensome symptoms like pain, bloating, and discomfort. Research shows many patients are uncomfortable discussing the totality of their symptoms with their healthcare provider. Come to a clinical review to learn more about a treatment that may help adults with IBS-C.

This program is sponsored by Ironwood Pharmaceuticals.

From Diagnosis to Treatment: Assessing Moderately to Severely Active Crohn's Disease

Anita Afzali, MD, MPH, MHCM, FACP

⌚ 11:45 am – 12:15 pm

An interactive case study discussing a hypothetical Crohn's disease patient. This case will cover patient presentation, biomarker and imaging findings, treatment options, and follow-up.

Sponsored by Takeda Pharmaceuticals U.S.A., Inc.

Emerging Concepts in Nonalcoholic Steatohepatitis (NASH)

Naim Alkhoury, MD, and Kimberly A. Brown, MD

⌚ 12:30 pm – 1:00 pm

This session will explore several emerging concepts in NASH including: (1) epidemiology and comorbidities, (2) pathophysiology and the role of lipotoxicity in the liver, (3) morbidity and mortality, (4) patient identification and monitoring approaches, and (5) disease management strategies.

This program is sponsored by Madrigal Pharmaceuticals.

UC Powerful Evidence: A therapy that helps deliver clinical remission and histologic and endoscopic outcomes for adult TNFi-IR patients with moderate to severe ulcerative colitis (UC)

Miguel D. Regueiro, MD, FACP

⌚ 1:15 pm – 1:45 pm

The program is sponsored by AbbVie.

Eosinophilic Esophagitis: Discover a New Treatment Option for Your Appropriate Patients

Ikuo Hirano, MD, FACP

⌚ 2:00 pm – 2:30 pm

Take an afternoon break with us to learn about an exciting new advancement in the treatment of eosinophilic esophagitis.

An expert will walk us through clinical data, an example of an appropriate patient, and answer your questions!

This program is sponsored by Regeneron Pharmaceuticals, Inc. and Sanofi.

An Innovative Approach to the Treatment of Adults With Irritable Bowel Syndrome With Constipation (IBS-C)

Susan L. Lucak, MD

⌚ 2:45 pm – 3:15 pm

Please join us for an engaging session about an innovative approach to treat adults with Irritable Bowel Syndrome with Constipation (IBS-C).

This program is sponsored by Ardelyx.

The Power of the Microbiome: Can it be harnessed to break the cycle of recurrent *Clostridioides difficile* infection (rCDI)?

Paul Feuerstadt, MD, FACP

⌚ 3:45 pm – 4:45 pm

Understand the role of the microbiome in overall health and the essential, symbiotic roles of Bacteroidetes and Firmicutes

- Explore the relationship between the gut microbiome, pathogenesis of *Clostridioides difficile* infection (CDI), and the cycle of recurrence
- Describe the profound burden of rCDI during and beyond acute infection
- Evaluate the potential of microbiome-based therapeutics in the management of rCDI.

This program is sponsored by Ferring Pharmaceuticals, Inc.

TUESDAY, OCTOBER 25

The Power to Eradicate *H. pylori* Infection in Adults

Colin W. Howden, MD, FACP

⌚ 10:35 am – 11:30 am

Join Dr. Colin Howden for an engaging session on a new therapeutic option in the treatment of *H. pylori* infection and the role of acid suppression in enhancing antibiotic effectiveness.

This product theater is sponsored by Phathom Pharmaceuticals and is not a continuing medical education program.

Long-term Safety and Efficacy Data for a Chronic Hepatitis B (CHB) Treatment Option

⌚ 11:45 am – 12:15 pm

During this presentation, we will discuss the prevalence of chronic hepatitis B, the burden of disease, and the current treatment guidelines. We will also share the latest updated efficacy and safety data for a CHB treatment.

Sponsored by Gilead Sciences, Inc.

Presenting New 4-Year Data in UC and 5-Year Data in CD

Anita Afzali, MD, MPH, MHCM, FACP, and Jennifer Seminerio, MD

⌚ 12:30 pm – 1:00 pm

New 4-year efficacy and safety data in UC. Join a peer discussion on Lasting® Remission at the STELARA® Product Theater "In both the CD and UC studies, many patients achieved clinical remission at 1 year with STELARA®"

This program is developed and sponsored by Janssen Biotech, Inc.

Eosinophilic Esophagitis: Discussing the Clinical Implications of Disease Progression

Joy W. Chang, MD

⌚ 1:15 pm – 1:45 pm

Join us as we bring type 2 inflammation to the discussion in a way that is meaningful to your patients with eosinophilic esophagitis and clinical practice. Hear about the clinical implications of uncontrolled type 2 inflammation on the chronic and progressive nature of this disease.

Sponsored by Regeneron Pharmaceuticals, Inc. and Sanofi.

How Race Affects the Treatment and Diagnostic Journey in IBD

Evelyn Lewis, MD, MA, FAAP, DABDA; Marie L. Borum, MD, EdD, MPH, FACP; and Melodie Narain-Blackwell

⌚ 2:00 pm – 2:30 pm

Join Dr. Marie Borum, a gastroenterologist with expertise treating patients from minority groups, and Melodie Narain-Blackwell, a Black patient with Crohn's disease, for a discussion about disparities in diagnosis and healthcare resource utilization across racial and ethnic groups in inflammatory bowel disease (IBD). This panel discussion aims to help raise awareness about current challenges and how they can be addressed with the goal of improving patient outcomes.

This program is sponsored by Takeda Pharmaceuticals U.S.A., Inc.

HANDS-ON ENDOSCOPY Workshops

Hands-On Endoscopy Workshop Directors: Laith H. Jamil, MD, FACG, and Lauren G. Khanna, MD, MS

LEARN FROM THE EXPERTS WHEN YOU ATTEND ONE OF THE MANY HANDS-ON ENDOSCOPY WORKSHOP SESSIONS OFFERED AT ACG 2022!

Watch expert faculty demonstrate various endoscopic procedures, and try out the latest products and equipment.

USE THE APP TO REGISTER FOR A HANDS-ON ENDOSCOPY WORKSHOP SESSION!

All Hands-on Workshop registration and check-in will be done using the ACG 2022 Meeting App on your mobile device. Note: These sessions are available for in-person attendees only.

1. Get the app

- Scan the QR code below, or search the Apple App Store or Google Play Store for “ACG Mobile” to install the app on your mobile device.
- Once you’ve installed ACG Mobile, tap the ACG 2022 tile.
- Log in using the same email that you used to register for ACG 2022, and your name badge number as your password/access key.

2. Register for a Hands-on Workshop session

- Tap the Hands-on Workshop tile on the App’s main screen.
- Select a session and tap its title to open a new screen.
 - If registration is open for that session, tap the orange Register ticket at the bottom of the page.
 - If seats are available, you will be registered for that session. Please note that attendees may only register for one session per day.

3. Check-in for your Hands-on Workshop session

- The QR code on your name badge acts as your ticket, and will be scanned outside the Hands-on Workshop Center.

All Hands-on Workshop registration will be done through the ACG 2022 Meeting App.

Registration for Sunday sessions
Open at 12:45 pm on Saturday, October 22.

Registration for Monday sessions
Open on at 12:45 pm on Sunday, October 23.

Registration for Tuesday sessions
Open on at 12:45 pm on Monday, October 24.

The Hands-On Endoscopy Workshop Center is located in the Exhibit Hall, and will be open when the Exhibit Hall is open. Exhibit Hall hours are:

Sunday, October 23..... 3:00 pm – 7:00 pm

Monday, October 2410:00 am – 4:45 pm

Tuesday, October 25.....10:00 am – 4:30 pm

9 Meters Biopharma, Inc. | Booth 324

8480 Honeycutt Road, Suite 120, Raleigh, NC 27615
<http://9meters.com>

9 Meters Biopharma is a clinical-stage company pioneering novel treatments for people with rare digestive diseases, GI conditions with unmet needs, and debilitating disorders in which the biology of the gut is a contributing factor. The Company is advancing vurolenatide, a proprietary long-acting GLP-1 agonist for short bowel syndrome (SBS); larazotide, a tight junction regulator in a Phase 2 study for multisystem inflammatory syndrome in children (MIS-C); and a number of near clinical-stage assets.

AbbVie - EPI | Booth 1901

1 North Waukegan Road, North Chicago, IL 60064
<http://www.abbvie.com/>

AbbVie's mission is to discover and deliver innovative medicines that solve serious health issues today and address the medical challenges of tomorrow. We strive to have a remarkable impact on people's lives across several key therapeutic areas. For more information about AbbVie, please visit us at www.abbvie.com. Follow @abbvie on Twitter, Facebook, Instagram, YouTube and LinkedIn

AbbVie - HCV | Booth 1403

1 North Waukegan Road, North Chicago, IL 60064
<https://www.commercialconventions.com/treatHepCin8weeks>
AbbVie's mission is to discover and deliver innovative medicines that solve serious health issues today and address the medical challenges of tomorrow. We strive to have a remarkable impact on people's lives across several key therapeutic areas. For more information about AbbVie, please visit us at www.abbvie.com. Follow @abbvie on Twitter, Facebook, Instagram, YouTube and LinkedIn

AbbVie & Ironwood | Booth 2001

5 Giralda Farm, Madison, NJ 07940
<http://www.abbvie.com>

AbbVie is a global, research-driven biopharmaceutical company committed to developing innovative advanced therapies for some of the world's most complex and critical conditions, such as irritable bowel syndrome with diarrhea (IBS-D).

Ironwood Pharmaceuticals is a pioneer and champion in the development of a market-leading therapy for irritable bowel syndrome with constipation (IBS-C) and chronic idiopathic constipation (CIC) and is singularly focused on advancing the treatment of GI diseases.

AbbVie Medical Affairs | Booth 1637

1 North Waukegan Road, North Chicago, IL 60064
<http://www.abbvie.com/>

AbbVie's mission is to discover and deliver innovative medicines that solve serious health issues today and address the medical challenges of tomorrow. We strive to have a remarkable impact on people's lives across several key therapeutic areas: immunology, oncology, neuroscience, eye care, virology, women's health and gastroenterology, in addition to products and services across its Allergan Aesthetics portfolio. For more information about AbbVie, please visit us at www.abbvie.com.

AbbVie: Immunology - Gastroenterology | Booth 1501

1 North Waukegan Road, North Chicago, IL 60064
<http://ibd.abbvie.net>

AbbVie is a global, research-based biopharmaceutical company which combines the focus of a leading-edge biotech with the expertise and structure of a long-established pharmaceutical leader. AbbVie is committed to using unique approaches to innovation to develop and market advanced therapies that address some of the world's most complex and serious diseases.

Adler MicroMed, Inc. | Booth 814

6842 Elaine Way, San Diego, CA 92120
<http://www.adlermicromed.com>

Adler MicroMed has you covered for all your Hemorrhoid Banding needs! High quality ligators at a fraction of the cost. With multiple styles of ligators we have a ligator to fit the needs of every office. Booth 814.

Advanced Pathology Solutions | Booth 1835

5328 Northshore Cove, North Little Rock, AR 72118
<http://apslabgroup.com>

Advanced Pathology Solutions is a CLIA-accredited anatomic and molecular pathology laboratory dedicated to bringing the highest quality pathology services to Gastroenterologists, Podiatrists, Wound Specialists, Pain Specialists, Orthopedists, and Plastic Surgeons.

We are confident that our pathologists can positively impact your practice with the precise and clinically actionable pathology reports that our team of experienced sub-specialty trained GI and Skin pathologists deliver.

Advocate Aurora Health | Booth 1137

3000 W. Montana Street, Milwaukee, WI 53215
<http://www.advocateaurorahealth.org/>

Aurora Health is one of the largest not-for-profit integrated health systems in the nation. Our integrated delivery model allows our clinicians to offer state-of-the-art, top tier quality care throughout eastern Wisconsin and northern and central Illinois. With a commitment to an autonomous practice environment, our patients and their families are at the heart of everything we do. Visit docjobs.aah.org to explore our clinician opportunities.

Alcresta Therapeutics | Booth 1538

130 Turner Street, Waltham, MA 02452
<http://www.alcresta.com>

Alcresta is committed to developing rare disease, enzyme-based products helping to address fat malabsorption in patients who are enterally fed. Our RELIZORB® (immobilized lipase) cartridge contains iLipase®, a patented microbead/enzyme technology that breaks down fat for easy ingestion and absorption. RELIZORB® (immobilized lipase) is indicated for use in pediatric patients (ages 5 years and above) and adult patients to hydrolyze fats in enteral formula. Please see Instructions for Use for full safety information at www.relizorb.com.

Alexion AstraZeneca Rare Disease | Booth 1935

121 Seaport Boulevard, Boston MA 02210
<https://alexion.com>

Alexion, AstraZeneca Rare Disease, is the group within AstraZeneca focused on rare diseases, created following the 2021 acquisition of Alexion Pharmaceuticals, Inc. As a leader in rare diseases for 30 years, Alexion is focused on serving patients and families affected by rare diseases and devastating conditions. Headquartered in Boston, Massachusetts, Alexion has offices around the globe and serves patients in more than 50 countries. (Intended for US audiences only. MM/US/DISEASE/0907)

Alnylam | Booth 742

675 W. Kendall Street, Cambridge, MA 02142
<http://www.alnylam.com/>

Since its founding 20 years ago, Alnylam has led the translation of RNA interference (RNAi) into a new class of approved and investigational medicines for rare genetic, cardio-metabolic, hepatic infectious, and central nervous system (CNS)/ocular diseases. Alnylam is headquartered in Cambridge, MA. For more information, visit www.alnylam.com.

EXHIBITORS

at ACG 2022

Color of Crohn's and Chronic Illness | Booth 2037

9103 Woodmore Center Drive, Suite 2004, Glenarden, MD 20706

<http://www.cocci.org>

Color of Crohn's & Chronic Illness (COCCI) is a leading national non-profit focused on Health Equity and the digestive health of BIPOC communities. Our mission is to improve the quality of life for BIPOC patients who are affected by IBD, Digestive Disorders and associated Chronic Illnesses. Headquartered in the Washington, D.C. metropolitan area, we provide advocacy, education, awareness, and community opportunities to more than 600 members.

Colorectal Cancer Alliance | Booth 1141

1025 Vermont Avenue NW, Suite 1066, Washington DC 20005

<http://www.ccalliance.org>

The Colorectal Cancer Alliance is the nation's largest and leading national patient advocacy organization dedicated to increasing screening rates and survivorship of colorectal cancer. We know first-hand how devastating this cancer can be. We also know it doesn't have to be this way. Our mission is to end colon cancer in our lifetime. We are doing this by championing prevention, funding cutting-edge research, and providing the highest quality patient support services.

ColoWrap | Booth 342

3333 Durham-Chapel Hill Boulevard, Suite A200, Durham, NC 27707

<https://www.colowrap.com>

ColoWrap's Colonoscopy Compression Device is the first and only non-invasive device that has been clinically proven to mitigate looping during colonoscopy. Applied to the patient during the exam, the device delivers targeted, adjustable abdominal pressure to minimize sigmoid and transverse looping—speeding cecal intubation and reducing ergonomic risks for physicians and staff. In clinical trials, ColoWrap has been shown to shorten procedure time, improve patient comfort, and reduce staff-reported musculoskeletal pain by 85%.

Commonwealth Diagnostics International, Inc. | Booth 2229

39 Norman Street, Salem, MA 1970

<https://commdx.com>

Commonwealth Diagnostics International (CDI) is a CLIA-certified laboratory that helps providers identify and diagnose common sources of digestive distress and functional gastrointestinal ailments. CDI's non-invasive at-home breath test kits for SIBO, IMO, and carbohydrate malabsorption help providers obtain accurate results to inform diagnostic and treatment plans. Our cost-effective portfolio of diagnostic products and technology solutions support meaningful GI health outcomes and is easy to use, quick, and safe for patients.

CompHealth | Booth 430

7259 S. Bingham Junction Boulevard, Midvale, UT 84047

GIQuIC | Booth 730

6400 Goldsboro Road, Suite 200, Bethesda, MD 20817

<http://giquic.gi.org/>

The GI Quality Improvement Consortium (GIQuIC) is a quality benchmarking registry that has been demonstrated to improve the quality of patient healthcare by allowing physicians and facilities to track and assess performance. Data in GIQuIC is used to advance the field of gastroenterology and participants can use the registry for MIPS Quality reporting requirements.

GIQuIC is a joint initiative of the American College of Gastroenterology and the American Society for Gastrointestinal Endoscopy.

GlaxoSmithKline | Booth 534

410 Blackwell Street, Durham, NC 27701

<http://www.gsk.com>

GSK unites science, technology, and talent to get ahead of disease together. We prevent and treat disease with vaccines, specialty and general medicines.

GoPath Diagnostics | Booth 428

1000 Corporate Grove Drive, Buffalo Grove, IL 60089

<http://www.gopathlabs.com>

Our expert pathologists and lab clinicians provide cutting-edge testing and diagnostic resources from our state-of-the-art CAP-accredited, CLIA-certified molecular diagnostic laboratory. Whether we're partnering with oncology practices and hospitals to create strong testing programs and streamlined billing, empowering biopharma to develop precise, effective treatments, or inspiring patients to reclaim their autonomy through an easy-to-use digital portal and a long list of viable treatment options, our mission is simple: to make the complex clear for everyone.

GRAIL | Booth 1636

1525 O'Brien Drive, Menlo Park, CA 94025

<http://galleri.com>

GRAIL is a healthcare company whose mission is to detect cancer early when it can be cured. The Galleri® test complements guideline-recommended screenings and can detect a cancer signal across more than 50 types of cancer through a routine blood draw. When cancer is detected, the Galleri test can predict the cancer signal origin with high accuracy. For more information visit Galleri.com or Booth #1636.

Guthrie Medical Group | Booth 1340

One Guthrie Square, Sayre, PA 18840

<http://www.guthrie.org>

Guthrie Physicians and Advanced Practitioners provide more than 1 million patient visits per year to enhance the health and well-being of those we serve within an environment of compassion, learning, and discovery.

Happy Colon Foods | Booth 1241

3825 NW 166th Street, Suite B3, Edmond, OK 73012

<http://www.happycolonfoods.com>

One of the most significant barriers to compliance with colonoscopy recommendations are the prep related side effects. Happy Colon Foods is a standardized, low residue, comfort food regimen. It contains three meals, three snacks and flavored colorless drink mixes that can be combined with physician approved OTC or prescription laxatives. Patients love having this option.

Visit us at Booth 1241

www.happycolonfoods.com;

HealthWell Foundation | Booth 1045

20440 Century Boulevard, Suite 250, Germantown, MD 20874

<http://www.HealthWellFoundation.org>

A nationally recognized, independent non-profit organization founded in 2003, HealthWell Foundation has served as a safety net for more than 727,000 underinsured patients by providing access to life-changing medical treatments they otherwise would not be able to afford. HealthWell provides financial assistance to adults and children facing medical hardship resulting from gaps in their insurance that cause out-of-pocket medical expenses to escalate rapidly. HealthWell assists with the treatment-related cost-sharing obligations of these patients. Visit: www.HealthWellFoundation.org.

Hepatiq Inc. | Booth 2034

9 Corporate Park, Suite 130, Irvine, CA 92606

<http://www.hepatiq.com>

Hepatiq is an FDA cleared diagnostics software product currently being used at leading hospitals. Hepatiq quantifies Liver Function by analyzing images from a SPECT scan. There is currently no other product on the market that provides quantitative liver function. All of the alternative techniques estimate the amount of Fibrosis in the liver. Fibrosis measurements lack strong predictive power because liver disease outcomes are driven by the residual liver function, not the extent of fibrosis.

Hologic | Booth 1540

250 Campus Drive, Marlborough, MA 01752

<https://www.hologic.com/>

Hologic is a global medical technology company specializing in women's health—offering innovative solutions for screening, detecting and treating conditions affecting women throughout their lives, including breast and cervical cancer testing, gynecological and skeletal issues, and sexually transmitted diseases.

Prometheus Laboratories, Inc. | Booth 1308

9410 Carroll Park Drive, San Diego, CA 92121

<http://www.prometheuslabs.com>

We empower you to deliver precision-guided care with testing services that support diagnosis, therapy optimization, and disease and drug monitoring for IBD. Our newest innovation, PredictrPK® IFX, now available for both induction and maintenance phases of infliximab (IFX) therapy, is the first precision-guided test that offers forward-looking dose optimization strategies. PredictrPK IFX measures current IFX and anti-drug antibody levels AND predicts optimal, individualized dosing by analyzing your patient's unique pharmacokinetics.

Provation | Booth 1335, 1339

533 3rd Street, Suite 300, Minneapolis, MN 55415

<https://www.provationmedical.com>

Provation is a leading provider of healthcare software and SaaS solutions for clinical productivity, care coordination, quality reporting, and billing. Our purpose is to empower providers to deliver quality healthcare for all. Our comprehensive portfolio spans the entire patient encounter, from pre-procedure through post-procedure, with solutions for physician and nursing documentation (Provation® MD, Provation® Apex, MD-Reports, Provation® endoPRO®, and Provation® MultiCaregiver), anesthesia documentation (#1 Best in KLAS Provation® iPro), patient engagement and surgical care coordination.

Provider Solutions & Development | Booth 2136

4400 NE Halsey Street, Portland, OR 97213

<https://psdconnect.org/>

Provider Solutions & Development is reinventing recruitment. With exclusive access to hundreds of positions across the nation, we offer holistic career guidance for physicians and advanced practice clinicians that puts your needs first.

We don't just fill positions; we fulfill individuals by helping you find where you're meant to be.

QDx Pathology Services | Booth 903

300 Columbus Circle, Suite A, Edison, NJ 08837

<http://www.qdxpath.com>

QDx Pathology Services is a national, independent, full-service clinical and anatomical pathology laboratory dedicated to providing diagnostic excellence. Our CLIA certified facility utilizes the latest in state-of-the-art instrumentation and medical technology. Our board-certified pathologists and cytotechnologists strive to meet high standards of care that our clinical practices extend to their patients. We do not just go to the next step; we believe in leaving no stone unturned in our quest for excellence.

Qleanse | Booth 538

1808 Janke Drive, Suite L, Northbrook, IL 60062

<http://qleanse.com/gihealth>

Qleanse is a personal care company focused on improving hygiene and environmental sustainability in the bathroom. Our toilet paper foam provides a cleaner, more comfortable, and clog-free way to wipe for patients with sensitive bottoms that typically make wiping challenging. Patients shouldn't have to worry about potential pipe clogs or the harsh chemicals from using wet wipes (even those labeled as "flushable"). Free samples at the booth and learn about our medical office solutions!

QOL Medical, LLC | Booth 927

3405 Ocean Drive, Vero Beach, FL 32963

<http://www.qolmed.com>

QOL Medical, LLC is a patient-centric company with a focus on the acquisition and commercialization of orphan drug therapies in underserved markets. QOL Medical's goal is to expand clinical awareness and patient access to help make a difference in people's lives in the treatment of orphan diseases. QOL Medical currently markets two FDA-approved products: Sucraid® (sacrosidase) Oral Solution and Ethamolin® (ethanolamine oleate) Injection 5%.

Quad A | Booth 337

7500 Grand Avenue, Suite 200, Gurnee, IL 60031

ACG 2022 Meeting App

Included with your registration is complimentary access to the course presentations via the ACG 2022 Meeting app, available within the ACG Mobile App (search for "ACG Mobile" in the Apple app store or in Google Play). The mobile app can be used to view faculty presentations, offers note-taking and highlighting capabilities, and allows users to download or print the presentation slides. While at the meeting, attendees who download slides onto a mobile device can take notes during the presentations, view speaker bios, explore the list of exhibitors, view the ePosters, and much more! Handouts and slides will remain available on the ACG mobile app after the ACG 2022 Conference Platform closes at the end of March, 2023.

◀ Scan this QR Code to download the ACG Mobile app.

How to **RECEIVE CME & MOC** *For ACG 2022*

Successful completion of each CME activity, which includes participation in the evaluation component, enables the participant to earn MOC points in the American Board of Internal Medicine's (ABIM) and American Board of Pediatrics' (ABP) Maintenance of Certification (MOC) programs. **Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity.** It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM and ABP MOC credit.

An equal number of CME credits and MOC points will be awarded for each course, as reflected in the maximums listed below. Please note, claiming CME and MOC are TWO DIFFERENT processes, and you **cannot make changes or adjust your CME credits after you submit** your course evaluation.

Practice Management Course

GI Pathology and Imaging Course

What's New in GI Pharmacology Course

Postgraduate Course

Postgraduate Course Learning Luncheons

Annual Meeting

Annual Scientific Meeting Bonus Sessions

3.75 AMA PRA Category 1 Credits™ and MOC Points

5.25 AMA PRA Category 1 Credits™ and MOC Points

3.25 AMA PRA Category 1 Credits™ and MOC Points

18.75 AMA PRA Category 1 Credits™ and MOC Points

18 AMA PRA Category 1 Credits™ and MOC Points

30.25 AMA PRA Category 1 Credits™ and MOC Points

25 AMA PRA Category 1 Credits™ and MOC Points

ABIM Board Certified physicians with an end of 2022 MOC deadline will need to complete their MOC submission by December 31, 2022 in order for the MOC points to count for 2022. **No MOC credit will be awarded after April 29, 2023 for these activities. All ABP learner completion data should be submitted within 30 days of activity completion.**

CLAIM YOUR CME AND MOC *in Four Easy Steps*

STEP 1: COMPLETE A CME EVALUATION FOR EACH COURSE.

Visit evals.gi.org/am/2022 to complete your CME Evaluation. MOC points will automatically be set to the number of CME credits claimed for the activity. **Once you submit your evaluation for CME credits, this total CANNOT BE ADJUSTED.**

STEP 2: ACCESS THE MOC ASSESSMENT FOR THE COURSE.

After the CME evaluation has been completed, the MOC link on the evaluation page (evals.gi.org/am/2022) will be accessible. Access to the MOC assessment is only provided AFTER completing the course evaluation and claiming CME credit. ABP MOC can be claimed by emailing education@gi.org to obtain the required forms for completion. ABP diplomates can NOT use the MOC link on the evaluation site to claim MOC points as outlined in Step 3.

STEP 3: COMPLETE THE ASSESSMENT AND SUBMIT FOR MOC POINTS.

Participants are asked to reflect on and summarize what they have learned, and indicate what they will do differently, stop doing, or keep doing in their practice with more confidence, relative to identified key learning objectives.

★ **IMPORTANT NOTE:** You will need your 6-digit ABIM ID number and date of birth to submit your completion information to ACCME for the purpose of granting ABIM MOC points.

STEP 4: REVIEW FEEDBACK.

After a successful submission, participants are prompted to review the expert feedback on the self-reflection question(s).

**ASGE will provide information on how to claim CME and MOC following the completion of the ASGE Endoscopy Course.*

BRIEF SUMMARY: Before prescribing, please see Full Prescribing Information and Medication Guide for SUTAB® (sodium sulfate, magnesium sulfate, potassium chloride) tablets for oral use.

INDICATIONS AND USAGE: An osmotic laxative indicated for cleansing of the colon in preparation for colonoscopy in adults.

DOSAGE AND ADMINISTRATION: Split Dose (2-Day) Regimen:

Dose 1 – On the day prior to colonoscopy: A low residue breakfast may be consumed.

After breakfast, only clear liquids may be consumed until after the colonoscopy. Early in the evening prior to colonoscopy, open one bottle of 12 tablets. Fill the provided container with 16 ounces of water (up to the fill line). Swallow each tablet with a sip of water and drink the entire amount over 15 to 20 minutes. Approximately one hour after the last tablet is ingested, fill the provided container a second time with 16 ounces of water (up to the fill line) and drink the entire amount over 30 minutes. Approximately 30 minutes after finishing the second container of water, fill the provided container with 16 ounces of water (up to the fill line) and drink the entire amount over 30 minutes. Dose 2 – Day of colonoscopy: Continue to consume only clear liquids until after the colonoscopy. The morning of colonoscopy (5 to 8 hours prior to the colonoscopy and no sooner than 4 hours from starting Dose 1), open the second bottle of 12 tablets. Fill the provided container with 16 ounces of water (up to the fill line). Swallow each tablet with a sip of water and drink the entire amount over 15 to 20 minutes. Approximately one hour after the last tablet is ingested, fill the provided container a second time with 16 ounces of water (up to the fill line) and drink the entire amount over 30 minutes. Approximately 30 minutes after finishing the second container of water, fill the provided container with 16 ounces of water (up to the fill line) and drink the entire amount over 30 minutes. Complete all SUTAB tablets and required water at least 2 hours before colonoscopy. **CONTRAINDICATIONS:** Use is contraindicated in the following conditions: gastrointestinal obstruction or ileus, bowel perforation, toxic colitis or toxic megacolon, gastric retention, hypersensitivity to any ingredient in SUTAB. **WARNINGS AND PRECAUTIONS:** Serious Fluid and Electrolyte Abnormalities: Advise all patients to hydrate adequately before, during, and after the use of SUTAB. If a patient develops significant vomiting or signs of dehydration after taking SUTAB, consider performing post-colonoscopy lab tests (electrolytes, creatinine, and BUN). Fluid and electrolyte disturbances can lead to serious adverse events including cardiac arrhythmias, seizures and renal impairment. Correct fluid and electrolyte abnormalities before treatment with SUTAB. Use SUTAB with caution in patients with conditions, or who are using medications, that increase the risk for fluid and electrolyte disturbances or may increase the risk of adverse events of seizure, arrhythmias, and renal impairment; Cardiac arrhythmias: Use caution when prescribing SUTAB for patients at increased risk of arrhythmias (e.g., patients with a history of prolonged QT, uncontrolled arrhythmias, recent myocardial infarction, unstable angina, congestive heart failure, or cardiomyopathy). Consider pre-dose and post-colonoscopy ECGs in patients at increased risk of serious cardiac arrhythmias; Seizures: Use caution when prescribing SUTAB for patients with a history of seizures and in patients at increased risk of seizure, such as patients taking medications that lower the seizure threshold (e.g., tricyclic antidepressants), patients withdrawing from alcohol or benzodiazepines, or patients with known or suspected hyponatremia; Use in Patients with Risk of Renal Injury: Use SUTAB with caution in patients with impaired renal function or patients taking concomitant medications that may affect renal function (such as diuretics, angiotensin converting enzyme inhibitors, angiotensin receptor blockers, or non-steroidal anti-inflammatory drugs). These patients may be at risk for renal injury. Advise these patients of the importance of adequate hydration with SUTAB and consider performing baseline and post-colonoscopy laboratory tests (electrolytes, creatinine, and BUN) in these patients; Colonic Mucosal Ulcerations and Ischemic Colitis: Osmotic laxative products may produce colonic mucosal aphthous ulcerations, and there have been reports of more serious cases of ischemic colitis requiring hospitalization. Concurrent use of stimulant laxatives and SUTAB may increase these risks. Consider the potential for mucosal ulcerations resulting from the bowel preparation when interpreting colonoscopy findings in patients with known or suspect inflammatory bowel disease (IBD); Use in Patients with Significant Gastrointestinal Disease: If gastrointestinal obstruction or perforation is suspected, perform appropriate diagnostic studies to rule out these conditions before administering SUTAB. Use with caution in patients with severe active ulcerative colitis. Hypersensitivity Reactions: Serious hypersensitivity reactions, including anaphylaxis, angioedema, dyspnea, rash, pruritis and urticaria have been reported with SUTAB. Inform patients of the signs and symptoms of anaphylaxis and instruct them to seek immediate medical care should signs and symptoms occur. **ADVERSE REACTIONS:** Most common gastrointestinal adverse reactions are: nausea, abdominal distension, vomiting and upper abdominal pain. Postmarketing Experience: Gastrointestinal: gastric ulceration, gastritis; Hypersensitivity: anaphylaxis, angioedema, dyspnea, rash, pruritus, urticaria. **POTENTIAL FOR DRUG ABSORPTION:** SUTAB can reduce the absorption of other co-administered drugs. Administer oral medications at least one hour before starting each dose of SUTAB. Administer tetracycline and fluoroquinolone antibiotics, iron, digoxin, chlorpromazine, and penicillamine at least 2 hours before and not less than 6 hours after administration of each dose of SUTAB to avoid chelation with magnesium. **Pregnancy:** There are no available data on SUTAB use in pregnant women to evaluate for a drug-associated risk of major birth defects, miscarriage, or adverse maternal or fetal outcomes. No reproduction or developmental studies in animals have been conducted with sodium sulfate, magnesium sulfate, and potassium chloride (SUTAB). **Lactation:** There are no available data on the presence of SUTAB in human or animal milk, the effects on the breastfed child, or the effects on milk production. **Pediatric Use:** Safety and effectiveness in pediatric patients has not been established. **Geriatric Use:** Of the 471 patients who received SUTAB in pivotal clinical trials, 150 (32%) were 65 years of age or older, and 25 (5%) were 75 years of age or older. No differences in safety or effectiveness of SUTAB were observed between geriatric patients and younger patients. Elderly patients are more likely to have decreased hepatic, renal or cardiac function and may be more susceptible to adverse reactions resulting from fluid and electrolyte abnormalities. **STORAGE:** Store at 20° to 25°C (68° to 77°F). Excursions permitted between 15° to 30°C (59° to 86°F). See USP controlled room temperature. Rx only. Manufactured by Braintree Laboratories, Inc. Braintree, MA 02185

THE TABLET CHOICE IN BOWEL PREPARATION

SUTAB[®]
(sodium sulfate, magnesium sulfate, and potassium chloride)
Tablets
1.479 g/0.225 g/0.188 g

- **NO SODIUM PHOSPHATE¹**
- **SAFE AND EFFECTIVE^{1,2}**
- **ACG-RECOMMENDED SPLIT-DOSE REGIMEN³**
 - Two SUTAB doses are required for a complete preparation¹
 - Dose 1** consists of 12 tablets and 16 oz of water
 - Dose 2** consists of 12 tablets and 16 oz of water
 - Each dose is followed by two additional 16 oz of water

92% OF PATIENTS IN TWO PIVOTAL TRIALS ACHIEVED SUCCESSFUL BOWEL CLEANSING WITH SUTAB^{1,2*}

91% OF PATIENTS IN ONE PIVOTAL TRIAL RATED SUTAB AS TOLERABLE TO VERY EASY TO CONSUME^{2†}

- 52% of all SUTAB and MoviPrep[®] patients reported at least one selected gastrointestinal adverse reaction^{1,2‡}
- More SUTAB patients reported experiencing nausea and vomiting than competitor, with ≤1% of these reports considered severe^{2‡}

78% OF PATIENTS IN ONE PIVOTAL TRIAL WOULD REQUEST SUTAB AGAIN FOR A FUTURE COLONOSCOPY^{2†}

*Success was the primary endpoint and was defined in non-inferiority trials as an overall cleansing assessment of 3 (good) or 4 (excellent) by the blinded endoscopist; scores were assigned following completion of the colonoscopy.

†Patients completed a preference questionnaire following completion of study drug to capture their perceptions of the preparation experience. This questionnaire has not undergone formal validation.

‡Patients were queried for selected gastrointestinal adverse reactions of upper abdominal pain, abdominal distension, nausea, and vomiting following completion of study drug, rating the intensity as mild, moderate, or severe.^{1,2}

IMPORTANT SAFETY INFORMATION

SUTAB[®] (sodium sulfate, magnesium sulfate, potassium chloride) tablets for oral use is an osmotic

laxative indicated for cleansing of the colon in preparation for colonoscopy in adults. **DOSAGE AND**

ADMINISTRATION: A low residue breakfast may be consumed. After breakfast, only clear liquids may be consumed until after the colonoscopy. Administration of two doses of SUTAB (24 tablets) are required for a complete preparation for colonoscopy. Twelve (12) tablets are equivalent to one dose. Water must be consumed with each dose of SUTAB and additional water must be consumed after each dose. Complete all SUTAB tablets and required water at least 2 hours before colonoscopy. **CONTRAINDICATIONS:** Use is contraindicated in the following conditions: gastrointestinal obstruction or ileus, bowel perforation, toxic colitis or toxic megacolon, gastric retention, hypersensitivity to any ingredient in SUTAB. **WARNINGS AND PRECAUTIONS:** Risk of fluid and electrolyte abnormalities: Encourage adequate hydration, assess concurrent medications and consider laboratory assessments prior to and after each use; Cardiac arrhythmias: Consider pre-dose and post-colonoscopy ECGs in patients at increased risk; Seizures: Use caution in patients with a history of seizures and patients at increased risk of seizures, including medications that lower the seizure threshold; Patients with renal impairment or taking concomitant medications that affect renal function: Use caution, ensure adequate hydration and consider laboratory testing; Colonic mucosal ulcerations: Consider potential for mucosal ulcerations when interpreting colonoscopy findings in patients with known or suspected inflammatory bowel disease. Suspected GI obstruction or perforation: Rule out the diagnosis before administration. Hypersensitivity reactions, including anaphylaxis: Inform patients to seek immediate medical care if symptoms occur. **ADVERSE REACTIONS:** Most common gastrointestinal adverse reactions are: nausea, abdominal distension, vomiting and upper abdominal pain. **DRUG INTERACTIONS:** Drugs that increase risk of fluid and electrolyte imbalance.
