

# ACG CLINICAL RESEARCH AWARDS

## 2021 MEDICAL RESIDENT RESEARCH AWARD Request for Applications

This is a one-year resident research project, performed under the mentorship of an ACG member.

 DEADLINE: **FRIDAY, DECEMBER 4, 2020 AT 11:59 PM EDT**

 APPLY: [gi.org/acg-institute/research-awards](https://gi.org/acg-institute/research-awards)

 Award Amount: **\$10,000**

 Award period/length of award: **July 1, 2021–June 30, 2022**

---

The ACG Institute for Clinical Research and Education and the American College of Gastroenterology (ACG) are proud to support original clinical research performed by trainees at the resident level, and invite eligible applicants to apply. The purpose of these awards is to recognize and support promising trainees as they develop a career in clinical research in gastroenterology and hepatology. The project is to be completed under the mentorship of an ACG member.

**All applications must be submitted online. The grant site will open to submissions in early September 2020, and close on Friday, December 4, 2020, at 11:59pm (Eastern time).**

The goal of the Medical Resident Research Award is to promote interest in gastroenterology or hepatology in promising residents, by funding a mentored research experience. Projects may include case series, quality improvement projects, retrospective cohort studies, meta-analysis, etc. Successful applicants are also eligible for reimbursement for travel expenses to attend the ACG Annual Scientific meeting.

Since its inception in 1994, the ACG Institute has provided over \$22 Million in funding for Clinical Research Awards to over 660 recipients. This is the second year this grant category is being offered.

## GRANT OVERVIEW

A key mission of the ACG and its Institute for Clinical Research and Education is to fund innovative patient-oriented research awards. For the purposes of these awards, patient-oriented research is defined as:

1. Research conducted with human subjects
2. Research on new diagnostic and therapeutic interventions
3. Research on material of human origin, such as tissues and specimens While research that explores mechanisms of human disease is highly encouraged, the research projects should be translational in nature; i.e., have direct applicability to clinical care.

*Note: Studies involving animals will not be considered unless the work cannot be done in humans.*

The ACG Clinical Research Awards are a project of the ACG Institute and are supported by charitable contributions to the G.U.T. Fund.

### ELIGIBILITY

✓ **Applicants must meet all the following criteria:**

- Internal medicine residents in their first or second year of training in the U.S. or Canada, or
- Pediatrics residents in their first or second year of training in the U.S. or Canada
- Mentor must be an ACG Member\* (at time of submission)
- Availability to complete a one-year original clinical research project at the resident level in Gastroenterology or Hepatology

*\*Important! Please note your mentor must be an ACG member to apply for this grant. All member applications must be submitted by September 25, 2020 in order to be eligible for review at the October Credentials Committee meeting, which is the last opportunity to be approved for full membership prior to the grant application deadline. To Join ACG, [click here](#). For questions on ACG membership, please email [membership@gi.org](mailto:membership@gi.org) or call 301-263-9000.*

### PREPARING THE RESEARCH PROPOSAL

📄 **A complete application consists of two separate components:**

1. A single Adobe PDF document comprising (but not limited to) the following: research proposal (limited to 5 pages), budget, mentor biosketch and other support, applicant biosketch, and mentor and residency program director letters of support. IRB forms, and COI statement (if applicable).
2. Completion of required tasks via the online grant system: upload the completed research proposal PDF; provide confirmation of mentor's ACG membership; provide full contact information for all investigators; submit a 350-word abstract of the proposed research; indicate IRB approval status; list all investigators and any potential conflicts of interest. See "Submitting the Application" below for instructions and requirements.

📄 **Required elements for the full research proposal document** (i.e., the PDF that will be uploaded to the online grant system):

- A. FORMATTING**—Format all pages with ½" margins and use a font no smaller than 11 point. All pages must include a page number in the left header. All pages must include the Resident's name and grant type in the right header, in the following format:
- Last name, First name  
Award Type
- B. RE-SUBMISSIONS**—The Committee requires applicants who have applied previously to provide additional information and resubmit the application. For re-submissions, in addition to selecting "Yes" in the re-submission field of the online system, you must provide a cover letter responding to the reviewer's critiques/ outlining how you have updated your application. This should be included as the first section of your Research Proposal, as part of the PDF upload to the grant system. Limit to 2 pages.

## PREPARING THE RESEARCH PROPOSAL (Cont.)

**C. RESEARCH PROPOSAL**—Limit to 5 pages (excluding references). Outline the proposed research. This should include the following sections:

- **Specific Aims**—Provide a clear description of the specific objectives for the research you propose to conduct. Consider the following questions: What is the hypothesis to be addressed? What are the immediate objectives? What are the ultimate objectives? How does the proposed research fit into an overall research program?
- **Background/Significance**—State how the proposed work bears on prior work and indicate how it will extend the boundaries of current knowledge.
- **Pilot Data/Previous Work**—No preliminary data are required. However, if either the mentor or the mentee have prior data pertinent to the present application, it should be briefly presented here. References to published work are preferred to detailed descriptions of published manuscripts.
- **Research Plan**—Provide the details of the research plan, including the inclusion/exclusion criteria for enrollment, methods to be used, the kinds of data that are to be collected, and how these data will be analyzed. Provide detailed sample size estimates. Grants without a statistical analysis section or sample size justification are unlikely to be successful. Please provide a timeline for the project, which should be completed prior to the applicant's graduation from the residency program.

**D. REFERENCES**—List citations numerically in the order in which they appear in the application. Be judicious in the use of references.

**E. BUDGET AND JUSTIFICATION**—Include a separate section for the budget and justification. The budget should be listed as a table, indicating all expenses for the grant period. The budget justification should be listed after the budget table, with an explanation for each budget item, including facility fees if funds are requested for this purpose. Funding for this award will provide support of up to \$10,000 for research costs. Support will be provided for supplies and equipment. Salary support will be provided for other personnel (research nurse, computer programmer) if adequately justified. Costs not supported: major equipment acquisition; travel and manuscript preparation; indirect costs (i.e., university overhead); and salary support for resident, co-investigators, and mentor.

**F. INSTITUTIONAL REVIEW BOARD (IRB) STATUS**—Include the IRB approval letter, or indicate if IRB approval is pending. If IRB approval is pending at the time of submission and the grant proposal is subsequently approved for funding, funds will not be released until the IRB approval letter is received by the ACG. If the proposal is requesting funds for reimbursement of human subjects, a copy of the IRB-approved consent form is required prior to funding as well.

**G. CONFLICT OF INTEREST STATEMENT**—Include, if applicable.

**H. BIOSKETCHES**—Provide this for the resident and mentor (required), and for any other investigators involved in the research project. Use the NIH format and adhere to the NIH 5-page limit. (For sample format see the NIH webpage at [grants.nih.gov/grants/forms/biosketch.htm](https://grants.nih.gov/grants/forms/biosketch.htm).) The applicant statement section of the biosketch should explain how receipt of this award fits into the trainee's larger career trajectory.

**I. OTHER RESEARCH SUPPORT**—Provide for Mentor. List this information on separate pages. List the title, funding agency, total direct costs, dates, including expected dates of notification of pending applications for all current and pending funding for Resident, Mentor, and any co-investigators. (Use NIH format: [grants.nih.gov/grants/forms/othersupport.htm](https://grants.nih.gov/grants/forms/othersupport.htm).)

**J. LETTERS OF SUPPORT:**

- **Mentor Letter**—This letter from the resident's mentor should include an assessment of the academic potential of the trainee, an acknowledgment of the mentor's responsibility for the successful completion of the project and the educational experience of the resident, and the plan for mentoring the resident through successful completion of the project. The mentor should describe past experience that qualifies him/her as the appropriate mentor for this award. Limit to 1 page.
- **Residency Program Director Letter**—This letter from the primary residency program director should confirm that the resident will have adequate time and support allocated to allow completion of the project. Limit to 1 page.
- **Other Letters of Support (optional)**—Provide letters from any other collaborators, such as those supplying patient referrals, if applicable.

**K. APPENDICES**—Use (if needed) for data collection forms. Do not use to expand Research Proposal.

 **All applications must be submitted online.** The online grant application site will open in early September; a link to the site will be available at [gi.org/acg-institute/research-awards](https://gi.org/acg-institute/research-awards). The submission **deadline is Friday, December 4, 2020 at 11:59 pm Eastern Time.** This deadline will be strictly enforced, and no exceptions will be made.

Once you begin the online application process, you will be able to save your work and return to complete it until the submission deadline. As part of the online application process, applicants are required to provide information about others, such as institutional addresses and potential conflicts of interest for co-investigators, the responsible mentor, etc. We encourage applicants to gather all the necessary information early, and to not wait until the last minute.

## SUBMITTING THE APPLICATION

## SUBMITTING THE APPLICATION (Cont.)

The following tasks must be completed via the online grant system in order to successfully submit an application for grant consideration:

- A. INDICATE PROPOSAL TITLE AND SELECT GRANT TYPE**—The title should be concise and clearly reflect the proposed research. Select the “Medical Resident Clinical Research Award” grant type.
- B. ACG MEMBERSHIP VERIFICATION**—You must provide an ACG member ID for your mentor. The mentor can look up the ID number by logging into [gi.org/membership/my-acg-login](https://gi.org/membership/my-acg-login) then clicking “My Contact Information” from the menu on the left. Member ID is listed below Date of Birth.
- C. ADD INVESTIGATORS**—List the Medical Resident, Co-Investigators, and Responsible Mentor. Enter their names, ACG member status (ACG Trainee Membership is not required, however indicate this for the Mentor, and Co-investigators, and trainee if applicable, e.g., Trainee Member, Member, Fellow “FACG” and year joined if available), titles, email address, role (Resident, Co-investigator, Responsible Mentor), and institution names and addresses.
- D. INVESTIGATOR ADDITIONAL INFORMATION**—Provide Medical Resident current year of residency. Indicate if the Resident is a trainee. Add the Responsible Mentor’s name and email.
- E. RESEARCH PROPOSAL ABSTRACT**—Provide an abstract of no more than 350 words that summarizes the proposed research.
- F. IRB STATUS**—Verify current IRB status.
- G. RESEARCH GRANT PROPOSAL PDF UPLOAD**—Format the file as required in the “Preparing the Research Proposal” section, including all required elements, and upload the file as directed. The file name should include the medical resident’s first and last name.
- H. ACKNOWLEDGEMENT OF RESPONSIBLE INVESTIGATOR**—Indicate agreement to abide by the grant requirements, if awarded grant funding. This must be signed by the Responsible Mentor. The grant system will prompt you to select a responsible mentor, who will then receive an email to complete this form.
- I. CONFLICT OF INTEREST**—A potential conflict of interest (COI) exists when research involves a device from which any investigator(s) or a company may benefit. It also exists when research involves a pharmaceutical agent that is not FDA-approved for any indication. A conflict of interest exists if any investigator holds or has submitted a patent on a device or pharmaceutical agent or is a major shareholder in a company involved in the research. If applicable, select “Yes” and include a detailed explanation within the grant system, including names of each investigator and their potential COIs.

## APPLICATION REVIEW PROCESS

👁 **Immediately following the application submission period, all applications are reviewed and scored by the ACG Research Committee**, following its standardized process.

Reviewers consider the following when scoring applications: scientific merit, clinical significance of the research proposal, methods, as well as the merits of the applicant and the mentoring team in providing support. The Committee will consider the following:

- Project’s Scientific Merit (50%)—composed of the following:
  - Clinical Significance (25%)
  - Feasibility (including availability of adequate resources, personnel, and facilities) (25%)
  - Methods (50%)
- Merit of the Applicant (25%)—previous academic achievements, excellent training, and previous evidence of intellectual rigor
- Mentor (25%)—previous mentoring record of the group, publishing record of the group, and evidence of ability to support a new investigator

The same project should not be submitted for multiple grant types, and will not be considered if this occurs.

## AWARD NOTIFICATION AND GRANT REQUIREMENTS

- 🔔 **Notification of Awards will be completed by March 31, 2021.** Please do not contact ACG prior to this date to inquire about the status of your application.
- **Funding:** Awards consist of up to \$10,000. These grants are not meant to partially fund an established lab or clinical research unit, instead they are designed to be independent projects for the trainees. Separate from the funds received for this award, successful applicants are also eligible for reimbursement for travel expenses to attend the ACG Annual Scientific Meeting in the year of their award.
- **Travel to ACG Annual Scientific Meeting:** The ACG considers attendance at our national meeting a seminal experience for medical residents with an interest in gastroenterology and hepatology. For that reason, awardees will be supported to attend this meeting in the year of their award (ACG 2021 will be held in Las Vegas, October 22-27). For those selected for funding this support will include: registration at the ACG Annual Scientific Meeting (free for residents, but must still pre-register), travel costs of up to \$1,500, consistent with the policies of the College, will be reimbursed (e.g. hotel, coach airfare or train, mileage, parking, and/or taxi) after submission of receipts to the ACG Institute. For those selected for funding, further details on travel reimbursement and meeting registration will be provided in the award letter.
- **Required Progress Reports:** Awardees must file a mid-project progress report, and a final progress report by December 31, 2022. Progress reports will be submitted online through the ACG website [gi.org/reporting-form-for-past-acg-grant-recipients](https://gi.org/reporting-form-for-past-acg-grant-recipients), and financial statements will be emailed to [research@gi.org](mailto:research@gi.org).
- **Abstract Presentation at an ACG Annual Scientific Meeting:** ACG encourages the selected awardee to submit any abstracts to the ACG Annual Scientific Meeting (see ACG abstract submission details for requirements).
- **Publication:** All publications arising from work funded by this award must acknowledge support of an ACG Research Award.
- **Membership:** All successful applicants will be awarded a one-year ACG trainee membership.

## QUESTIONS OR ASSISTANCE

For any questions about grant requirements, please refer to the [FAQs](#).

Prior grant application submitters must create a new login for the grant system each year, even if you have applied for an ACG grant previously.

Technical support questions about the online submission system: Contact CadmiumCD Technical Support using the **Technical Support link on the upper right corner** of the submission site's screen, via email at [Help@ConferenceAbstracts.com](mailto:Help@ConferenceAbstracts.com), or via phone at (877) 426-6323.

For any questions not answered in the RFA or [FAQs](#), or reporting questions, contact us via email at [research@gi.org](mailto:research@gi.org).

## IMPORTANT DATES

September, 2020	Application submission period opens
September 25, 2020	ACG Membership application deadline (only for applications who are not ACG members—see the Eligibility Section for further details)
Friday, December 4, 2020	Application submission period closes (11:59 pm Eastern time)
By/before March 31, 2021	Award notifications are sent
July 1, 2021	Award period begins / disbursement check provided
January 1, 2022	Mid-project progress report due
December 31, 2022	Final report due

## ✓ APPLICATION CHECKLIST:

### ☑ Do you meet all of the following eligibility criteria—double check criteria prior to applying (full criteria listed in eligibility section)

- You are an Internal medicine residents in your first or second year of training in the U.S. or Canada, or
- You are a Pediatrics resident in your first or second year of training in the U.S. or Canada
- You have availability to complete a one-year original clinical research project at the resident level in Gastroenterology or Hepatology
- You have a mentor who will oversee your project.
- Your project involves patient-oriented clinical research in the field of gastroenterology or hepatology.
- Your project does not involve animals (this type of research is not eligible).

### ☑ Is your mentor a current ACG Member?—Confirm that they are an ACG member in good standing prior to applying—this is different than applying for membership—they must have an ACG member number (see instructions in eligibility section).

### ☑ Have you created an account in the grant system, and is your application formatted as required (see requirements in formatting section above)?

- You have created an account in the ACG grant system ([www.gi.org/acg-institute/research-awards](http://www.gi.org/acg-institute/research-awards)).
- Application is formatted to include: ½" margin, headers with name, award type, and page numbers.

### ☑ Have you provided the following required information in the grant system?

- Investigator information required for both medical student and for mentor: title, email, role for project, institution, address of institution (and ACG membership ID for mentor)
- Proposal title and grant type
- Information about any additional investigators
- Abstract
- COI
- IRB status
- Letters of support
- Re-submission status

### ☑ Have you prepared all of the following Research Proposal components, and compiled them into a single PDF document, in the following order?

- If yours is a re-submission, double-check that you have responded to the reviewer's critiques, and that you have updated your proposal with any suggested changes. If this is a different project, please include this information in the cover letter.
- Project Description—The project description includes all the sections outlined above (including specific aims, background/significance, pilot data/previous work if available, and research plan), adheres to the 5-page limit, and all tables or figures are labeled.
- References—These are listed where applicable and citations are included in the project description.
- Budget & Justification—A budget table is included with clear justification of all costs. Costs covered by the institution vs. covered by the ACG Medical Resident Research Award are clearly indicated. Any other costs needed for the project are clearly explained. By submitting the budget, you are verifying that there will be adequate resources to complete the project.
- The COI statement included, if applicable.
- Confirmation of IRB approval is included, if available.
- Information about other grant support, if applicable, is included.
- Biosketches—A biosketch for each investigator is included, and all are in the NIH format.
- Letters of Support—Letters of support from both the mentor and the residency program director are included. Letters of support from any co-investigator or for any other relationship, where needed to complete the project, are included.

### ☑ Are the PDF Components in the correct order and have you uploaded the complete PDF of your Research Proposal to the grant submission site?
