ACG’s NEW VIRTUAL IBD School

In order to maximize effective online clinical education, ACG will be offering IBD School as a flexible combination of on-demand education supported by engaging LIVE Q&A with expert faculty. With this ACG’s NEW VIRTUAL IBD School, you’ll receive on-demand access to over 5.5 hours of recorded lectures delivered by world-class faculty. Each of the 13 lectures will help you improve clinical judgment and address the art and science of IBD management. Videos will be available for viewing starting on Friday, May 29th. Watch the videos on your own time and have access to them for up to one year following the course.

Live Q&A Webcast Gives You Access to the Experts

Register by Friday, June 5th and you will also receive exclusive access to two LIVE Q&A webcast sessions! IBD experts Dr. Sunanda Kane and Dr. David Rubin will host LIVE Q&A with the IBD School faculty on June 5th from 6:00 pm - 7:00 pm and from 7:30 pm - 8:30 pm (Eastern time). Attendees will have the opportunity to submit questions in advance and during the live broadcasts. As an added resource, the recordings of the Q&A sessions will available to registrants following the sessions.

ACG’s NEW VIRTUAL Eastern Regional Postgraduate Course

In order to maximize effective online clinical education, ACG will be offering our Eastern Regional Postgraduate Course as a flexible combination of on-demand education supported by engaging LIVE Q&A with expert faculty. With this ACG’s NEW VIRTUAL Eastern Regional Postgraduate Course, you’ll receive on-demand access to over 9 hours of recorded lectures delivered by world-class faculty. Each of the 23 lectures will help you explore areas that the gastroenterologist often faces in clinical practice, and address management updates in a variety of gastrointestinal and hepatic areas. Videos will be available for viewing starting on Friday, May 29th. Watch the videos on your own time and have access to them for up to one year following the course.

Live Q&A Webcast Gives You Access to the Experts

Register by Saturday, June 6th and you will also receive exclusive access to three LIVE Q&A webcast sessions! Experts faculty will host LIVE Q&A webcasts on Saturday June 6th from 1:30 pm - 2:30pm, from 3:00 pm - 4:00 pm, and from 4:30 pm - 5:30 pm (Eastern time). The live Q&A sessions will be followed by a special satellite symposium from 5:30 pm - 6:30 pm. Attendees will have the opportunity to submit questions in advance and during the live broadcasts. As an added resource, the recordings of the Q&A sessions will be available to registrants following the sessions.

PLUS! Access to Exclusive Live Q&A Sessions

June 6, 1:30 pm - 2:30 pm (Eastern time) – Q&A Session #1 will focus on these topics:

SESSION 1: DISEASES OF THE UPPER GI TRACT
- Intestinal Metaplasia: What’s the Next Step?  
  Susana Gonzalez, MD
- Update in the Management of Celiac Disease  
  Joyann A. Kroser, MD, FACG
- Diagnosis and Management of SIBO  
  Satish S.C. Rao, MD, PhD, FACG

SESSION 2: DISEASES OF THE LOWER GI TRACT
- Updates in Diverticular Disease  
  Anne F. Peery, MD, MSCR
- Management of Anorectal Disorders  
  Anthony J. Lembo, MD, FACG
- What’s New in the Management of IBS?  
  Brian E. Lacy, MD, PhD, FACG
- Colon Cancer Screening: Where Are We and Where Are We Going?  
  Aasma Shaukat, MD, MPH, FACG

June 6, 3:00 pm - 4:00 pm (Eastern time) – Q&A Session #2 will focus on these topics:

SESSION 3: IBD & KEYNOTE
- Positioning Therapies in Ulcerative Colitis: How I Do It  
  David T. Rubin, MD, FACG

- Update in the Management of Hemochromatosis  
  Vinay Sundaram, MD
- Update on NAFLD  
  Karen L. Krok, MD
- The Latest in Alcoholic Liver Disease  
  Ashwani K. Singal, MD, MS, FACG
- Vascular Disorders of the Liver  
  Douglas A. Simonetto, MD

ON-DEMAND EDUCATION
SATTELITE SYMPOSIUM

Breakthroughs with NASH Management: What Do Gastroenterologists and Hepatologists Need to Know?
Stephen A. Harrison, MD; Zobair M. Younossi, MD, MPH, FACP, FACG, AGAF

Program Overview
Non-alcoholic steatohepatitis (NASH), an advanced form of non-alcoholic fatty liver disease (NAFLD), is a severe liver disorder with a rapidly progressive course that can lead to liver fibrosis, cirrhosis, and hepatocellular carcinoma. In order to prevent irreversible liver damage, patients with NASH should receive immediate treatment. However, distinguishing NASH from other liver disorders and identifying high-risk patients remain challenges, and there are limited treatment options once a patient is diagnosed. While there are no approved medical therapies for NASH, multiple investigational agents have shown promise in late-stage trials and are expected to be available for NASH treatment soon.

This activity, Breakthroughs with NASH Management: What Do Gastroenterologists and Hepatologists Need to Know? will provide clinicians with the most current guidance on NASH diagnostic strategies. Clinician learners will also receive information on the efficacy, safety, and potential use of novel agents in late-stage clinical investigation for the treatment of patients with NASH.

ADDITIONAL INFORMATION COMING SOON!
