ACG/LGS VIRTUAL Regional Postgraduate Course

In order to maximize effective online clinical education, ACG will be offering the Regional Postgraduate Course typically held in New Orleans as a flexible combination of on-demand education supported by engaging LIVE Q&A with expert faculty. With the ACG/LGS virtual Regional Postgraduate Course, you'll receive on-demand access to over 7.5 hours of recorded lectures delivered by world-class faculty. Each of the 15 lectures will help you explore areas that the gastroenterologist often faces in clinical practice, and address management updates in a variety of gastrointestinal and hepatic areas. Videos will be available for viewing starting on February 19, 2021. Watch the videos on your own time and have access to them for up to one year following the course.
