2026

ACG'S OBESITY AND METABOLIC DISORDERS SCHOOL & **SOUTHERN REGIONAL POSTGRADUATE COURSE**

JOIN COLLEAGUES IN LOUISVILLE FOR ACG'S OBESITY AND METABOLIC DISORDERS SCHOOL AND SOUTHERN REGIONAL POSTGRADUATE COURSE.

Both programs will take place at the Hyatt Regency Louisville, just moments from the energy of Fourth Street Live!, with its dining, nightlife, and entertainment.

Discover Louisville's rich history and culture with nearby attractions including the Louisville Slugger Museum & Factory, Muhammad Ali Center, and Kentucky Science Center, all within walking distance of the hotel.

➔ **For more information on what to see and do in Louisville, please visit [GoToLouisville.com](https://www.gotolouisville.com).**

WHO SHOULD ATTEND

BRING YOUR WHOLE PRACTICE! This program was developed specifically for gastroenterologists, gastroenterology trainees, primary care physicians, nurses, nurse practitioners, physician assistants, pharmacists, therapists, and other members of the GI patient care team.

**REGISTER BY NOVEMBER 6 AND SAVE:
[MEETINGS.GI.ORG](https://meetings.gi.org)**

DECEMBER 4-6, 2026

HYATT REGENCY LOUISVILLE • LOUISVILLE, KY

PROGRAM DESCRIPTION

ACG's Obesity and Metabolic Disorders School

Led by Course Directors A. Sidney Barritt, IV, MD, MSCR, FACC, and Catherine T. Hudson, MD, MPH, DABOM, ACG's Obesity and Metabolic Disorders School, offered on Friday, December 4, is a day-long interactive educational program combining the complexities and rapidly evolving options for medical and endoscopic management. Given the challenging realities of patient management for obesity and metabolic disorders, with its intensive evaluation and consultation requirements, the College aims to help GI and hepatology practices coordinate care effectively, promote adherence to therapy, and ultimately optimize patient outcomes.

Southern Regional Postgraduate Course

Led by Course Directors Elizabeth R. Paine, MD, FACC, and Judy A. Trieu, MD, MPH, the Southern Regional Postgraduate Course, offered on Saturday and Sunday, December 5-6, will explore areas that gastroenterologists often face in clinical practice and address management updates in a variety of gastrointestinal and hepatic areas. This course will cover multiple topics, including abdominal pain, "altered" bowel habits, nausea and vomiting (including a debate on THC use), endoscopic emergencies, dysphagia, liver, and more. This program offers a mixture of didactic presentations delivered by expert faculty, case presentations, and significant question-and-answer opportunities, as well as a Saturday afternoon hands-on workshop session.

A special Optional Sponsored Luncheon Symposium hosted by Eli Lilly will be offered on Friday at 12:45 pm.

Industry-sponsored programs provide additional educational opportunities for attendees. These programs are independent of the ACG programs. ACG is not the continuing medical education provider of these programs. For more information, see the company sponsor.

COURSE DIRECTORS:

A. SIDNEY BARRITT, IV, MD, MSCR, FACP

CATHERINE T. HUDSON, MD, MPH, DABOM

FRIDAY, DECEMBER 4, 2026

7:00 am Registration and Continental Breakfast

7:50 am Welcome and Introductions: Why Is Obesity and Metabolic School in session?

A. Sidney Barritt, IV, MD, MSCR, FACP, and Catherine T. Hudson, MD, MPH, DABOM

8:00 am The Metabolic Road Map for Modern GI Practice

Catherine T. Hudson, MD, MPH, DABOM
Describe the historical evolution of obesity and metabolic syndrome as distinct but overlapping diseases, and identify the role of gastroenterologists and hepatologists in managing obesity within various practice models.

SESSION 1: Understanding Obesity as a Disease

Moderator: Catherine T. Hudson, MD, MPH, DABOM

8:30 am Genetics, Environment, and Judgment: The Science (and Stigma) of Obesity

Danny Issa, MD

Explain genetic and environmental contributors to obesity pathophysiology and discuss how stigma impacts access, outcomes, and provider behavior.

8:50 am More Than a Number: Diagnosing Obesity Beyond BMI

Shelby A. Sullivan, MD, FACP

Interpret limitations of BMI and identify complementary measures of adiposity; outline appropriate screening for comorbidities and behavioral health integration.

9:10 am Scaling Success: Lifestyle Foundations for Long-Term Weight Health

Carolyn A. Newberry, MD, DABOM

Summarize evidence-based lifestyle interventions for weight management and apply motivational interviewing techniques to improve adherence.

9:30 am Q & A / Panel Discussion

9:50 am Break / Visit Exhibit Hall

SESSION 2: Treating Obesity and Metabolic Dysfunction

Moderator: Danny Issa, MD

10:10 am Gut Instincts: Hormones That Shape Metabolism

Sergio Sanchez-Luna, MD

Describe the role of foregut and hindgut signaling in appetite and energy balance, and explain how surgical and endoscopic procedures modify gut hormones.

10:30 am Endo-Game: The Expanding Role of Endobariatric Therapies

Danny Issa, MD

Identify primary endoscopic bariatric interventions and revision techniques, and compare gastric versus small bowel targets for weight and metabolic benefit.

10:50 am Inside Out: The GI Endoscopist's Role in Bariatric Surgery Complications

Sergio Sanchez-Luna, MD

Explain common post-bariatric complications and endoscopic management strategies, and explain stenting, endovac, dilation, and nutritional optimization for marginal ulcers.

- 11:20 am Beyond the Scale: GLP-1s as Chronic Disease Modifiers**
Donna H. Ryan, MD
 Discuss pharmacology and mechanisms of GLP-1 receptor agonists and related agents, and summarize evidence for GLP-1-based therapies across metabolic, cardiovascular, and neurocognitive domains.
- 11:50 am Access Denied? Navigating Coverage, Cost, and Compounding**
Shelby A. Sullivan, MD, FACG
 Consider insurance, PBM, and TROA barriers to GLP-1 access, and discuss ethical and practical considerations in compounding and telehealth models.
- 12:10 pm Q & A / Panel Discussion**
- 12:30 pm Break – Lunch Provided**
- 12:45 pm Optional Sponsored Luncheon Symposium (see page 3)**
- 1:30 pm Fuel and Function: Optimizing Nutrition After Obesity Interventions**
Neha Dilip Shah, MPH, RD, CNSC, CHES
 Identify common micronutrient deficiencies post-bariatric or GLP-1 therapy, and explain the role of protein and resistance training in preserving lean mass.

SESSION 3: Metabolic Dysfunction and the Liver

Moderator: A. Sidney Barritt, IV, MD, MSCR, FACG

- 1:50 pm MASLD: The Epidemic Hiding in Plain Sight**
A. Sidney Barritt, IV, MD, MSCR, FACG
 Describe the epidemiology and global burden of MASLD and MASH in patients with obesity and metabolic dysfunction.
- 2:10 pm New and Emerging Pharmacotherapy for MASLD/MASH**
Cynthia A. Moylan, MD, MHS
 Identify the mechanisms and clinical trial data for newly approved and late-stage investigational pharmacotherapies targeting MASLD/MASH.
- 2:30 pm The Impact of Nutrition and Metabolic Syndrome on Liver Disease: Beyond MASLD**
A. Sidney Barritt, IV, MD, MSCR, FACG
 Explain the role of sarcopenic obesity, frailty, and metabolic syndrome in the progression of chronic liver disease and cirrhosis.

- 2:50 pm Q & A / Panel Discussion**

- 3:10 pm Break / Visit Exhibit Hall**

SESSION 4: Obesity and Metabolic Dysfunction in a GI Practice

Moderator: Gerald W. Dryden, Jr., MD, MSPH, FACG

- 3:30 pm Inflamed and Overfed: Managing Obesity in IBD**
Gerald W. Dryden, Jr., MD, MSPH, FACG
 Discuss the impact of obesity on IBD activity and outcomes, and evaluate the safety and efficacy of GLP-1s and bariatric interventions in IBD.
- 3:50 pm Under Pressure: GERD, Surgery, and GLP-1s in Obesity**
Carolyn A. Newberry, MD, DABOM
 Explain the bidirectional relationship between obesity and reflux disease, and identify surgical and pharmacologic management strategies for reflux in high BMI patients.
- 4:10 pm Speed Up—Slow Down: Dysmotility Across the Obesity Spectrum**
Baharak Moshiree, MD, MSc, FACG
 Describe dysmotility patterns following bariatric procedures and GLP-1 therapy, and review management of dumping, gastroparesis, and candy cane syndrome.
- 4:30 pm The Road Ahead: Collaboration, Combination, and Compassion**
Donna H. Ryan, MD
 Summarize the multidisciplinary approach to obesity and metabolic dysfunction, and identify opportunities for advocacy, data collection, and collaborative care models.
- 4:50 pm Q & A / Panel Discussion**
- 5:10 pm Course Wrap-Up and Take-Away Points**
A. Sidney Barritt, IV, MD, MSCR, FACG, and Catherine T. Hudson, MD, MPH, DABOM
- 5:20 pm Course Adjourns**

ON-DEMAND LECTURES

WITH OPTIONAL VIRTUAL Q&A • SATURDAY, JANUARY 9, 2027

Attendees of ACG's Obesity and Metabolic Disorders School will also receive access to 8 pre-recorded lectures (45-minutes each), which can be watched on-demand before or after the course in Louisville.

All attendees will also have the option to attend a live Q&A with the 8 on-demand lecture faculty on January 9 (the live Q&A provides an additional 2 hours of CME and MOC credits).

Q & A SCHEDULE:

Q & A Hour 1

10:00 am – 11:00 am

Break

11:00 am – 11:15 am

Q & A Hour 2

11:15 am – 12:15 pm

Q & A HOUR 1 WILL COVER THE FOLLOWING TALKS:

Moderator: A. Sidney Barritt, IV, MD, MSCR, FACG

Meds, Endoscopy, and Surgery: Combination and Sequential Therapies for Obesity Treatment

Christopher C. Thompson, MD, MSc, FACG

Identify evidence supporting combination and sequential approaches to obesity treatment, discuss clinical decision-making regarding timing of medications before or after procedures, and explain strategies for defining treatment failure and managing weight plateau or regain.

Endoscopic Management of Bariatric Surgery

Complications: GI to the Rescue

Catherine T. Hudson, MD, MPH, DABOM

Discuss the gastroenterologist's role in preoperative assessment and postoperative complication management, describe endoscopic tools and techniques used to manage leaks, fistulas, strictures, ulcers, and altered anatomy, and review multidisciplinary approaches for optimizing outcomes and reducing reoperation rates.

Sarcopenic Obesity and Micronutrient Deficiencies

Lindsey Russell, MD, MSc, CNSC

Explain the pathophysiology and clinical significance of sarcopenia in patients with obesity and liver disease, identify risks for protein-calorie and micronutrient deficiencies associated with pharmacologic and procedural weight loss therapies, and discuss prevention and treatment strategies, including resistance training and targeted supplementation.

Opening the Floodgates: The Pharmacological Pipeline for the Treatment of Obesity and Metabolic Liver Disease

Naim Alkhouri, MD, DABOM

Identify emerging drug classes targeting obesity and steatotic liver disease beyond incretin mimetics, explain mechanisms of action, efficacy, and safety of multi-agonist and muscle-sparing therapies, and discuss how gastroenterologists can integrate forthcoming agents into clinical and research practice.

Q & A HOUR 2 WILL COVER THE FOLLOWING TALKS:

Moderator: Catherine T. Hudson, MD, MPH, DABOM

The Role of the Microbiome in Obesity and the Impacts of Obesity Treatment

Ali Rezaie, MD, MSc, FACG

Describe mechanisms by which the gut microbiome influences energy balance, inflammation, and metabolism, discuss how obesity treatments—pharmacologic, endoscopic, and surgical—affect microbial composition and function, and explore the therapeutic potential and current limitations of microbiome-targeted interventions.

Redesigning Your GI Practice to Incorporate the Elements Needed to Treat Obesity and Metabolic Liver Disease: Clinical Practice Pearls

Pooja Singhal, MD, FACG, DABOM

Identify key team members (dietitians, behavioral health specialists, pharmacists) essential for comprehensive obesity care, discuss workflow strategies for integrating metabolic care into a general or subspecialty GI practice, and outline best practices for managing prior authorizations and optimizing patient access.

Incorporating Counseling for Lifestyle Modifications Into Your Busy GI Practice While Reducing Stigma: Clinical Pearls From the Experts

Marianna Papademetriou, MD, FACG

Apply practical counseling strategies for lifestyle change within time-limited GI visits, recognize and address weight stigma through person-first language and supportive clinic environments, and develop approaches to foster non-scale goals and patient-centered care.

What to Know When You Are Considering ABOM Certification

Meagan E. Gray, MD, DABOM

Describe the pathway, requirements, and benefits of ABOM board certification, discuss how certification enhances the understanding of obesity as a disease and improves patient care, and evaluate whether ABOM certification aligns with individual professional goals and practice needs.

COURSE DIRECTORS:

ELIZABETH R. PAINE, MD, FACP

JUDY A. TRIEU, MD, MPH

SATURDAY, DECEMBER 5, 2026

7:00 am Registration and Continental Breakfast
in the Exhibit Hall

7:50 am Welcome and Introductions
*Elizabeth R. Paine, MD, FACP, and Judy
A. Trieu, MD, MPH*

SESSION 1: Abdominal Pain

Judy A. Trieu, MD, MPH

8:00 am Dyspepsia
Baharak Moshiree, MD, MSc, FACP
Define dyspepsia, differentiate functional
from organic causes, and apply diagnostic
and management strategies.

8:20 am GERD
Kerry B. Dunbar, MD, PhD
Identify typical and atypical presentations
of GERD and apply diagnostic and
management strategies, including lifestyle
modification, pharmacologic therapy, and
endoscopic and surgical interventions.

8:40 am Pancreaticobiliary Diseases
Judy A. Trieu, MD, MPH
Differentiate common pancreaticobiliary
etiologies of abdominal pain and review
diagnostic and management approaches,
including laboratory investigations,
imaging, and endoscopic interventions.

9:00 am Diseases of Gut-Brain Interaction
Christopher D. Vélez, MD
Define diseases of gut-brain interaction
(DGBI), explain the underlying
pathophysiology, and apply approaches to
diagnosis and management.

9:20 am Q & A / Panel Discussion

9:40 am Break / Visit Exhibit Hall

SESSION 2: Altered Bowel Habits

Moderator: Elizabeth R. Paine, MD, FACP

10:00 am Positioning Drugs for Inflammatory
Bowel Disease (for the Non-IBD
Specialist)

Elizabeth R. Paine, MD, FACP
Discuss optimized treatment of
Crohn's disease and ulcerative
colitis in a general gastroenterology
practice.

10:20 am Noninfectious Colitis
Darrell S. Pardi, MD, MS, FACP
Describe the common clinical
presentations and management
options for each type of noninfectious
colitis.

10:40 am Types of Constipation and Their
Management
Jill K. Deutsch, MD, MA
Explain the types of constipation and
explore practical considerations in the
treatment of these disorders.

11:00 am Irritable Bowel Syndrome Toolkit
William D. Chey, MD, MACG
Discuss the treatment options for
each type of IBS, including nutritional
and other non-pharmacologic
strategies.

11:20 am Q & A / Panel Discussion

11:40 am Break / Lunch Provided

SESSION 3: Nausea and Vomiting*Moderator: Baharak Moshiree, MD, MSc, FACG***12:40 pm Work-up of Nausea and Vomiting***Linda Anh B. Nguyen, MD, FACG*

Define an evidence-based approach to the initial evaluation of nausea and vomiting in clinical practice.

1:00 pm Gastroparesis*Baharak Moshiree, MD, MSc, FACG*

Review the clinical presentation, diagnostic approach, and current treatment options in gastroparesis.

1:20 pm Cyclic Vomiting*Katja K. Karrento, MD*

Compare and contrast the diagnostic evaluation and treatment paradigms for cyclic vomiting syndrome and marijuana hyperemesis syndromes.

1:40 pm Debate: Use of THC in Nausea and Gastroparesis-Related Abdominal Pain*Darren M. Brenner, MD, FACG, and Linda Anh B. Nguyen, MD, FACG*

Debate whether THC should be used in the therapeutic management of abdominal pain in nausea/vomiting disorders.

2:10 pm Q & A / Panel Discussion**2:30 pm Break / Dessert in the Exhibit Hall****SATURDAY AFTERNOON PRESENTATIONS / HANDS-ON WORKSHOP SESSIONS*:****Hands-On workshops do not offer CME.***3:00 pm Luminal Strictures** 📱 or 📱 **Hands-On***Thomas Tielleman, MD*

Describe the types of luminal strictures (e.g., peptic, radiation-induced, inflammatory, anastomotic) and appropriate use of endoscopy, dilation techniques, and adjunctive therapies, and when it is appropriate to refer to an advanced endoscopist.

3:50 pm Foreign Body Ingestion and Food Impaction 📱 or 📱 **Hands-On***Shifa Umar, MD*

Review the evidence-based guidelines for managing foreign body ingestions and food impactions, including clinical assessment, timing of endoscopy, peri-procedural preparations, and endoscopic strategies.

4:40 pm Non-Variceal GI Bleeding Tips and Tricks📱 or 📱 **Hands-On***Mohammad Bilal, MD, FACG*

Review the evidence-based guidelines for managing non-variceal GI bleeding, including clinical assessment, timing of endoscopy, peri-procedural preparations, and endoscopic strategies.

5:30 pm Course Adjourns for the Day**HANDS-ON WORKSHOPS SESSIONS**

Attendees will have the opportunity to participate in Hands-On Workshop sessions at no additional charge. These sessions focus on specific endoscopic procedures and offer participants a chance to gain tactile experience using a variety of tools and techniques. Faculty will demonstrate a device and/or technique, and attendees will have the opportunity to practice. While the Hands-On Workshop sessions do not offer CME, they are a valuable learning experience, and give attendees the chance to interact with the experts. Hands-On workshops will be concurrent with the Saturday afternoon presentations. **There are limited spaces available.**

Regional Course Workshop Directors:

Julie Yang, MD, FACG, and Sofiya Reicher, MD, FACG

5 Hands-On stations will be offered:

✓ EMR/Polypectomy

✓ Defect Closure

✓ Hemostasis

✓ Foreign Body Removal

✓ Hemorrhoid Banding

SUNDAY, DECEMBER 6, 2026

7:00 am Registration and Continental Breakfast in the Exhibit Hall

7:55 am Welcome and Announcements
Elizabeth R. Paine, MD, FACG, and Judy A. Trieu, MD, MPH

SESSION 4: Dysphagia

Moderator: Joan W. Chen, MD, MS

8:00 am Work-Up of Dysphagia
Cary C. Cotton, MD, MPH
Describe the clinical presentations of esophageal dysphagia, identify alarm features, and apply a stepwise, evidence-based diagnostic approach.

8:20 am Achalasia
Rishi D. Naik, MD, FACG
Review the pathophysiology of achalasia, diagnostic approach, and management strategies, including lifestyle, endoscopic, and surgical options.

8:40 am Non-Achalasia Esophageal Motility Issues
Joan W. Chen, MD, MS
Differentiate non-achalasia esophageal motility issues, the role of high-resolution manometry, and treatment strategies.

9:00 am Eosinophilic Esophagitis
Evan S. Dellon, MD, MPH, FACG
Review the pathophysiology of eosinophilic esophagitis and treatment strategies, including lifestyle modifications, available medications, and the role of endoscopy for disease surveillance and stricture management.

9:20 am Q & A / Panel Discussion

9:40 am Break / Visit Exhibit Hall

SESSION 5: Abnormal Liver Biochemistries

Moderator: Gyorgy Baffy, MD, PhD, FACG

10:00 am Work-Up of Abnormal Liver Biochemistries
Gyorgy Baffy, MD, PhD, FACG
Identify cost-effective ways to approach the evaluation of abnormal liver biochemistries.

10:20 am MASLD and MASH
Cynthia A. Moylan, MD, MHS
Differentiate MASLD and MASH and describe diagnostic strategies and therapeutic options in these conditions.

10:40 am Non-Rx Drug-Induced Liver Injury
Andrew M. Moon, MD, MPH, FACG
Review common over-the-counter medications and supplements that cause liver injury, with particular focus on the pattern of liver injury seen, and highlight any additional treatment aside from stopping the offending drug.

11:00 am Cirrhosis Management
Mohamed Shoreibah, MD, FACG
Review evidence-based practice strategies in the diagnosis and management of cirrhosis and its sequelae.

11:20 am Q & A / Panel Discussion

11:40 am Course Wrap-Up and Take-Away Points
Elizabeth R. Paine, MD, FACG, and Judy A. Trieu, MD, MPH

11:50 am Course Adjourns

**REGISTER BY
NOVEMBER 6 AND
SAVE!**

REGISTRATION INFORMATION

There are separate registration fees for ACG's Obesity and Metabolic Disorders School and the Southern Regional Postgraduate Course. The registration fee for each course includes admission to all sessions, continental breakfasts, lunch on Friday for Obesity and Metabolic Disorders School attendees, lunch on Saturday for Southern Regional Course attendees, and refreshment breaks. All registrants must pay the full registration fee; partial registration is unavailable. A full refund of registration fees will be given, less a \$25 administrative fee, if written notice of cancellation is received by ACG on **November 6, 2026**. No refunds will be given after this date. Attendees must register online at meetings.gi.org.

ACG'S OBESITY AND METABOLIC DISORDERS SCHOOL		
ACG MEMBER TYPE	EARLY BIRD (On or Before 11/6)	FEE (After 11/6)
Physician	\$125	\$175
Resident / Trainee / Candidate	\$75	\$125
Associate / Advanced Practice Provider	\$125	\$175
Medical Student	\$25	\$25
NON-MEMBER TYPE		
Physician / PharmD / PhD / Guest	\$175	\$225
Resident / Trainee	\$100	\$150
NP / PA / Allied Health (RN, LPN)	\$175	\$225
Medical Student	\$50	\$50

SOUTHERN REGIONAL POSTGRADUATE COURSE		
ACG MEMBER TYPE	EARLY BIRD (On or Before 11/6)	FEE (After 11/6)
Physician	\$449	\$499
Resident / Trainee / Candidate	\$179	\$254
Associate / Advanced Practice Provider	\$289	\$364
Medical Student	\$25	\$25
NON-MEMBER TYPE		
Physician / PharmD / PhD / Guest	\$549	\$599
Resident / Trainee	\$229	\$304
NP / PA / Allied Health (RN, LPN)	\$349	\$424
Medical Student	\$50	\$50

MOBILE APP INFORMATION

Included with your registration is complimentary access to the course presentations via the **ACG Mobile App**. The app can be used to view faculty presentations on tablets, mobile devices, and laptops. Attendees will be able to take notes and highlight key points on the presentation slides at the event, and can continue reviewing them after the course. PDFs of the presentations can be downloaded directly from the app or can be printed from the website version of the app. Pre-registrants will receive access to the app prior to the course to view, download, or print the presentation slides.

ACCREDITATION / CME / MOC

The American College of Gastroenterology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

ACG's Obesity and Metabolic Disorders School

The American College of Gastroenterology designates this Other activity (blended learning) for a maximum of 15.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

AMA PRA Category 1 Credits™ are awarded as follows: 13.75 *AMA PRA Category 1 Credits™* for the Live and On-Demand Lectures and 2 *AMA PRA Category 1 Credits™* for the Online Q & A with the On-Demand Faculty (separate evaluation will be required).

 Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 15.75 Medical Knowledge MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

NEW! *Applicants for certification through the American Board of Obesity Medicine (ABOM) may claim up to 15.75 GROUP TWO CME credits toward the ABOM application requirement for completion of ACG's Obesity and Metabolic Disorders School.*

Southern Regional Postgraduate Course

The American College of Gastroenterology designates this live activity for a maximum of 11 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

 Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 11 Medical Knowledge MOC points in the ABIM's MOC program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

ACCOMMODATIONS

Both programs will be held at Hyatt Regency Louisville in Louisville, KY.

To make a reservation, book online at <https://www.hyatt.com/events/en-US/group-booking/SDFRL/G-AGCP> or call 502-581-1234. Special meeting room rates per night are \$189 for a standard guestroom plus taxes (currently 17.66%) . Room rates include complimentary basic guest room internet and access to the hotel health club.

Reservations must be made by **November 6, 2026**, to receive the special meeting rate. Only a certain number of rooms are available at this rate and are available on a first-come, first-served basis. Once ACG's room block is sold out, the hotel may charge a higher rate for any additional rooms made available. All reservations require a deposit of one night's room and tax upon reservation. Cancellations made within 48-hours of check-in will be charged one night's room and tax.
