ACG'S OBESITY AND METABOLIC DISORDERS SCHOOL & **ACG / LGS REGIONAL POSTGRADUATE COURSE**

JOIN YOUR COLLEAGUES AT ONE OF ACG'S LONGEST- RUNNING REGIONAL COURSES.

Bring your entire practice and join colleagues at these two outstanding programs developed specifically for members of the GI patient care team interested in the latest information on hepatic disorders and diagnostic GI, and the state-of-the-art treatment of these illnesses.

Set in the iconic Arts & Warehouse District, the Higgins Hotel & Conference Center combines timeless New Orleans character with contemporary comfort. Featuring stylish accommodations, exceptional dining experiences, and sophisticated event facilities, the hotel provides an ideal setting for learning, networking, and exploring the city.

For more information about what there is to see and do in New Orleans, please visit neworleans.com.

MARCH 19-21, 2027

HIGGINS HOTEL NEW ORLEANS • NEW ORLEANS, LOUISIANA

PROGRAM DESCRIPTION

ACG's Obesity and Metabolic Disorders School

Led by A. Sidney Barritt, IV, MD, MSCR, FACP, and Catherine T. Hudson, MD, MPH, DABOM, ACG's Obesity and Metabolic Disorders School, offered on Friday, March 19, is a day-long interactive educational program combining the complexities and rapidly evolving options for medical and endoscopic management. Given the challenging realities of managing patients with obesity and metabolic disorders, with its intensive evaluation and consultation requirements, the College aims to help GI and hepatology practices coordinate care effectively, promote adherence to therapy, and ultimately optimize patient outcomes.

ACG/LGS Regional Postgraduate Course

Led by Catherine T. Hudson, MD, MPH, DABOM and Sarah C. Glover, DO, the 2027 ACG/LGS Regional Postgraduate Course offered from Friday to Sunday, March 19-21, will explore areas the gastroenterologist often faces in clinical practice and address management updates on a variety of gastrointestinal and hepatic topics. This course will cover multiple areas including IBD, pancreaticobiliary, hepatology, upper and lower GI disorders, and much more. The program's structure includes a mix of didactic presentations delivered by expert faculty, case presentations, and numerous Q & A opportunities.

WHO SHOULD ATTEND

Bring your whole practice and join colleagues at 2027 ACG's Obesity & Metabolic Disorders School & ACG/LGS Regional Postgraduate Course. This program was developed specifically for gastroenterologists, colorectal surgeons, primary care physicians, gastroenterology trainees, nurses, nurse practitioners, physician assistants, pharmacists, and other members of the GI patient care team.

COURSE DIRECTORS:

A. SIDNEY BARRITT, IV, MD, MSCR, FACP

CATHERINE T. HUDSON, MD, MPH, DABOM

FRIDAY, MARCH 19, 2027

7:00 am Registration and Continental Breakfast / Visit Exhibit Hall

7:50 am Welcome and Introductions: Why Is Obesity and Metabolic Disorders School in Session?

A. Sidney Barritt, IV, MD, MSCR, FACP, and Catherine T. Hudson, MD, MPH, DABOM

8:00 am The Metabolic Road Map for Modern GI Practice

Catherine T. Hudson, MD, MPH, DABOM

Describe the historical evolution of obesity and metabolic syndrome as distinct but overlapping diseases and identify the role of gastroenterologists and hepatologists in managing obesity within various practice models.

SESSION 1: Understanding Obesity as a Disease

Moderator: Catherine T. Hudson, MD, MPH, DABOM

8:30 am Genetics, Environment, and Judgment: The Science (and Stigma) of Obesity

Violeta Popov, MD, PhD, FACP

Explain genetic and environmental contributors to obesity pathophysiology and discuss how stigma impacts access, outcomes, and provider behavior.

8:50 am More Than a Number: Diagnosing Obesity Beyond BMI

Marianna Papademetriou, MD

Interpret limitations of BMI and identify complementary measures of adiposity; outline appropriate screening for comorbidities and behavioral health integration.

9:10 am Scaling Success: Lifestyle Foundations for Long-Term Weight Health

Carolyn A. Newberry, MD, DABOM

Summarize evidence-based lifestyle interventions for weight management and apply motivational interviewing techniques to improve adherence.

9:30 am Q & A / Panel Discussion

9:50 am Break / Visit Exhibit Hall

SESSION 2: Treating Obesity and Metabolic Dysfunction

Moderator: Violeta Popov, MD, PhD, FACP

10:10 am Gut Instincts: Hormones That Shape Metabolism

Danny Issa, MD

Describe the role of foregut and hindgut signaling in appetite and energy balance, and explain how surgical and endoscopic procedures modify gut hormones.

10:30 am Endo-Game: The Expanding Role of Endobariatric Therapies

Violeta Popov, MD, PhD, FACP

Identify primary endoscopic bariatric interventions and revision techniques and compare gastric versus small bowel targets for weight and metabolic benefit.

10:50 am Inside Out: The GI Endoscopist's Role in Bariatric Surgery Complications

Danny Issa, MD

Explain common post-bariatric complications and endoscopic management strategies, and explore stenting, endovac, dilation, and nutritional optimization for marginal ulcers.

11:20 am Beyond the Scale: GLP-1s as Chronic Disease Modifiers

Donna H. Ryan, MD

Discuss pharmacology and mechanisms of GLP-1 receptor agonists and related agents and summarize evidence for GLP-1-based therapies across metabolic, cardiovascular, and neurocognitive domains.

11:50 am Access Denied? Navigating Coverage, Cost, and Compounding

Marianna Papademetriou, MD

Consider insurance, PBM, and TROA barriers to GLP-1 access, and discuss ethical and practical considerations in compounding and telehealth models.

12:10 pm Q & A / Panel Discussion

12:30 pm Break – Lunch Provided / Visit Exhibit Hall

1:30 pm Fuel and Function: Optimizing Nutrition After Obesity Interventions

Neha Dilip Shah, MPH, RD, CNSC, CHES

Identify common micronutrient deficiencies post-bariatric or GLP-1 therapy, and explain the role of protein and resistance training in preserving lean mass.

SESSION 3: Metabolic Dysfunction and the Liver

Moderator: A. Sidney Barritt, IV, MD, MSCR, FACP

1:50 pm MASLD: The Epidemic Hiding in Plain Sight

A. Sidney Barritt, IV, MD, MSCR, FACP

Describe the epidemiology and global burden of MASLD and MASH in patients with obesity and metabolic dysfunction.

2:10 pm New and Emerging Pharmacotherapy for MASLD/MASH

Dina Halegoua-DeMarzio, MD

Identify the mechanisms and clinical trial data for newly approved and late-stage investigational pharmacotherapies targeting MASLD/MASH.

2:30 pm The Impact of Nutrition and Metabolic Syndrome on Liver Disease: Beyond MASLD

A. Sidney Barritt, IV, MD, MSCR, FACP

Explain the role of sarcopenic obesity, frailty, and metabolic syndrome in the progression of chronic liver disease and cirrhosis.

2:50 pm Q & A / Panel Discussion

3:10 pm Break / Visit Exhibit Hall

SESSION 4: Obesity and Metabolic Dysfunction in a GI Practice

Moderator: Millie D. Long, MD, MPH, FACP

3:30 pm Inflamed and Overfed: Managing Obesity in IBD

Millie D. Long, MD, MPH, FACP

Discuss the impact of obesity on IBD activity and outcomes, and evaluate the safety and efficacy of GLP-1s and bariatric interventions in IBD.

3:50 pm Under Pressure: GERD, Surgery, and GLP-1s in Obesity

Carolyn Newberry, MD, DABOM

Explain the bidirectional relationship between obesity and reflux disease, and identify surgical and pharmacologic management strategies for reflux in high BMI patients.

4:10 pm Speed Up—Slow Down: Dysmotility Across the Obesity Spectrum

Ali Rezaie, MD, MSc, FACP

Describe dysmotility patterns following bariatric procedures and GLP-1 therapy, and review management of dumping, gastroparesis, and candy cane syndrome.

4:30 pm The Road Ahead: Collaboration, Combination, and Compassion

Donna H. Ryan, MD

Summarize the multidisciplinary approach to obesity and metabolic dysfunction, and identify opportunities for advocacy, data collection, and collaborative care models.

4:50 pm Q & A / Panel Discussion

5:10 pm Course Wrap-Up and Take-Away Points

A. Sidney Barritt, IV, MD, MSCR, FACP, and Catherine T. Hudson, MD, MPH, DABOM

5:20 pm Course Adjourns

ON-DEMAND LECTURES

WITH OPTIONAL VIRTUAL Q&A • SATURDAY, APRIL 17, 2027

Attendees of ACG's Obesity and Metabolic Disorders School will also receive access to 8 pre-recorded lectures (45-minutes each), which can be watched on-demand before or after the course in New Orleans.

Q & A SCHEDULE:

Q & A Hour 1

10:00 am – 11:00 am

Break

11:00 am – 11:15 am

Q & A Hour 2

11:15 am – 12:15 pm

Q & A HOUR 1 WILL COVER THE FOLLOWING TALKS:

Moderator: A. Sidney Barritt, IV, MD, MSCR, FACG

Meds, Endoscopy, and Surgery: Combination and Sequential Therapies for Obesity Treatment

Christopher C. Thompson, MD, MSc, FACG

Identify evidence supporting combination and sequential approaches to obesity treatment, discuss clinical decision-making regarding timing of medications before or after procedures, and explain strategies for defining treatment failure and managing weight plateau or regain.

Endoscopic Management of Bariatric Surgery

Complications: GI to the Rescue

Catherine T. Hudson, MD, MPH, DABOM

Discuss the gastroenterologist's role in preoperative assessment and postoperative complication management, describe endoscopic tools and techniques used to manage leaks, fistulas, strictures, ulcers, and altered anatomy, and review multidisciplinary approaches for optimizing outcomes and reducing reoperation rates.

Sarcopenic Obesity and Micronutrient Deficiencies

Lindsey Russell, MD, MSc, CNSC

Explain the pathophysiology and clinical significance of sarcopenia in patients with obesity and liver disease, identify risks for protein-calorie and micronutrient deficiencies associated with pharmacologic and procedural weight loss therapies, and discuss prevention and treatment strategies, including resistance training and targeted supplementation.

Opening the Floodgates: The Pharmacological Pipeline for the Treatment of Obesity and Metabolic Liver Disease

Naim Alkhouri, MD, DABOM

Identify emerging drug classes targeting obesity and steatotic liver disease beyond incretin mimetics, explain mechanisms of action, efficacy, and safety of multi-agonist and muscle-sparing therapies, and discuss how gastroenterologists can integrate forthcoming agents into clinical and research practice.

Q & A HOUR 2 WILL COVER THE FOLLOWING TALKS:

Moderator: Catherine T. Hudson, MD, MPH, DABOM

The Role of the Microbiome in Obesity and the Impacts of Obesity Treatment

Ali Rezaie, MD, MSc, FACG

Describe mechanisms by which the gut microbiome influences energy balance, inflammation, and metabolism, discuss how obesity treatments—pharmacologic, endoscopic, and surgical—affect microbial composition and function, and explore the therapeutic potential and current limitations of microbiome-targeted interventions.

Redesigning Your GI Practice to Incorporate the Elements Needed to Treat Obesity and Metabolic Liver Disease: Clinical Practice Pearls

Pooja Singhal, MD, FACG, DABOM

Identify key team members (dietitians, behavioral health specialists, pharmacists) essential for comprehensive obesity care, discuss workflow strategies for integrating metabolic care into a general or subspecialty GI practice, and outline best practices for managing prior authorizations and optimizing patient access.

Incorporating Counseling for Lifestyle Modifications Into Your Busy GI Practice While Reducing Stigma: Clinical Pearls From the Experts

Marianna Papademetriou, MD, FACG

Apply practical counseling strategies for lifestyle change within time-limited GI visits, recognize and address weight stigma through person-first language and supportive clinic environments, and develop approaches to foster non-scale goals and patient-centered care.

What to Know When You Are Considering ABOM Certification

Meagan E. Gray, MD, DABOM

Describe the pathway, requirements, and benefits of ABOM board certification, discuss how certification enhances the understanding of obesity as a disease and improves patient care, and evaluate whether ABOM certification aligns with individual professional goals and practice needs.

COURSE DIRECTORS:

CATHERINE T. HUDSON, MD, MPH, DABOM

SARAH C. GLOVER, DO

FRIDAY, MARCH 19, 2027

- 5:30 pm** Registration Opens
- 5:45 pm** Welcome Reception - Open to All Course Attendees
- 6:30 pm** The David R. Raines, Jr., MD, FACP
Education Session: Fellow Case Presentations from Ochsner Clinic, Tulane University, LSU Shreveport, and LSU New Orleans
Panelists: Sarah C. Glover, DO, Vivek Kaul, MD, FACP, James D. Morris, MD, FACP, Reinaldo J. Quevedo, MD, and Jason R. Stibbe, MD, FACP
- 7:45 pm** LGS Membership Dinner
(Invitation only, RSVP required to attend)

SATURDAY, MARCH 20, 2027

- 7:00 am** Registration / Continental Breakfast / Visit Exhibits
- 7:50 am** Welcome and Introductions
Catherine T. Hudson, MD, MPH, and Sarah C. Glover, DO

SESSION 1: IBD

Moderator: Nisha Loganantharaj, MD

- 8:00 am** What's New in IBD?
Millie D. Long, MD, MPH, FACP
Discuss recent advances in inflammatory bowel disease (IBD), including emerging, updated treatment strategies, and evolving disease-monitoring approaches, and apply new evidence to clinical decision-making in everyday practice.

- 8:30 am** Treating Crohn's Disease in 2027: Positioning Therapies in a Pleasantly Crowded Landscape
Kara M. De Felice, MD, FACP
Evaluate current and emerging treatment strategies for Crohn's disease, including biologic and small molecule therapies, therapeutic optimization, and individualized approaches to disease management.
- 9:00 am** IBD Surgery: Timing, Risk Reduction, and Perioperative Care
Nisha Loganantharaj, MD
Identify indications for surgical intervention in inflammatory bowel disease and develop perioperative management strategies to reduce complications and optimize postoperative outcomes.
- 9:30 am** Q & A / Panel Discussion
- 9:45 am** Break / Visit Posters and Exhibits

SESSION 2: Pancreaticobiliary

Moderator: James C. Hobley, MD, MSc, FACG

- 10:15 am Pancreatic Cysts in 2027: Guidelines, Gray Zones, and Practical Decisions**
Tamas A. Gonda, MD
 Apply current guideline-based approaches to the evaluation, risk stratification, and surveillance of pancreatic cystic lesions, including identification of high-risk features requiring intervention.
- 10:45 am ERCP Quality Indicators Every Endoscopist Should Know**
Michelle A. Anderson, MD, MSc
 Review quality indicators and best practices in ERCP, including strategies to improve procedural success, minimize adverse events, and enhance patient safety.
- 11:15 am Common Benign Bile Duct Conditions**
Isaac Rajjman, MD
 Describe the common benign bile duct conditions encountered, including gallstones, strictures, inflammatory disorders, and congenital cysts.
- 11:45 am Q & A / Panel Discussion**
- 12:00 pm Break / Lunch Provided / Visit Posters and Exhibits**
- 12:45 pm Optional Product Theater Presentation**

SESSION 3: Hepatology

Moderator: Peng-Sheng (Brian) Ting, MD

- 1:30 pm Luis A. Balart, MD, MACG Memorial Lecture**
From Hepatitis C to MASH: The Evolution and Future of Hepatology
A. Sidney Barritt, IV, MD, MSCR, FACG
 Review the major therapeutic advances that transformed hepatology over the past several decades, including the evolution of hepatitis C treatment, and discuss the emerging pharmacologic landscape for metabolic dysfunction-associated steatohepatitis (MASH), with an emphasis on future challenges and opportunities in liver disease management.
- 2:15 pm Drug-Induced Liver Injury: Diagnosis, Pitfalls, and Management**
Dina Halegoua-DeMarzio, MD
 Recognize clinical presentations of drug-induced liver injury (DILI), differentiate DILI from competing liver diagnoses, and implement evidence-based management and monitoring strategies.
- 2:45 pm Liver Transplant Pearls for the Practicing Gastroenterologist**
Arun B. Jesudian, MD, FACG
 Discuss current indications, referral pathways, and post-transplant management considerations in liver transplantation, with an emphasis on optimizing patient outcomes across the continuum of care.
- 3:15 pm Q & A / Panel Discussion**
- 3:30 pm Announcement of Poster Session Winners / Adjourn for the Day**
Catherine T. Hudson, MD, MPH, and Sarah C. Glover, DO
- 3:45 pm LGS Annual Business Meeting**

REGISTER ONLINE:
[MEETINGS.GI.ORG](https://meetings.gi.org)

SUNDAY, MARCH 21, 2027

7:00 am Registration / Continental Breakfast / Visit Exhibits

7:50 am Welcome and Announcements
Catherine T. Hudson, MD, MPH,
and Sarah C. Glover, DO

SESSION 4: Upper GI Disorders

Moderator: Catherine T. Hudson, MD, MPH

8:00 am The Narrowing Esophagus: Barrett's, Strictures, and Dilation Pearls
Nicholas J. Shaheen, MD, MPH, MACG
Discuss evidence-based management of Barrett's esophagus and benign esophageal strictures, including surveillance strategies, endoscopic eradication therapy, and dilation techniques.

8:30 am Foreign Bodies and Food Impactions: Tools, Tricks, and Pitfalls
Sita S. Chokhavatia, MD, MACG
Identify optimal endoscopic techniques and devices for the management of gastrointestinal foreign bodies and food impactions while minimizing procedural complications.

9:00 am Small Bowel Bleeding: Capsule, Enteroscopy, and Beyond
F. Otis Stephen, MD
Develop a systematic diagnostic and management approach to suspected small bowel bleeding, including appropriate use of capsule endoscopy, imaging, and deep enteroscopy.

9:30 am Q & A / Panel Discussion

9:45 am Break / Visit Posters and Exhibits

SESSION 5: Lower GI Disorders

Moderator: Stephen W. Landreneau, MD, FACG

10:00 am Colon Polypectomy: Resection, Retrieval, and Risk Reduction
Vivek Kaul, MD, FACG
Review contemporary polypectomy techniques and lesion assessment strategies to improve complete resection rates while minimizing procedural complications.

10:30 am IBS in 2027: Sorting Through Constipation, Diarrhea, and Everything In Between

Brooks D. Cash, MD, FACG

Discuss evidence-based approaches to the diagnosis and management of irritable bowel syndrome, including constipation-predominant and diarrhea-predominant subtypes.

11:00 am Lower GI Bleeding: Timing, Intervention, and Risk Stratification

Neil H. Stollman, MD, FACG

Develop evidence-based strategies for the evaluation and management of acute lower gastrointestinal bleeding, including risk stratification, timing of colonoscopy, and endoscopic therapy.

11:30 am Q & A / Panel Discussion

11:45 am Course Wrap-Up and Take-Away Points

Catherine T. Hudson, MD, MPH,
and Sarah C. Glover, DO

12:00 pm Course Adjourns

REGISTRATION INFORMATION

There are separate registration fees for ACG's Obesity and Metabolic Disorders School and the ACG/LGS Regional Postgraduate Course. The registration fee for each course includes admission to all sessions, continental breakfasts, lunch on Friday for Obesity and Metabolic Disorders School attendees, lunch on Saturday for ACG/LGS Regional Course attendees, and refreshment breaks. All registrants must pay the full registration fee; partial registration is unavailable. A full refund of registration fees will be given, less a \$25 administrative fee, if written notice of cancellation is received by ACG by **February 18, 2027**. No refunds will be given after this date. Attendees must register online at meetings.gi.org.

ACG'S OBESITY AND METABOLIC DISORDERS SCHOOL		
ACG MEMBER TYPE	EARLY BIRD (On or Before 2/18)	FEE (After 2/18)
Physician	\$125	\$175
Resident / Trainee / Candidate	\$75	\$125
Associate / Advanced Practice Provider	\$125	\$175
Medical Student	\$25	\$25
NON-MEMBER TYPE		
Physician / PharmD / PhD / Guest	\$175	\$225
Resident / Trainee	\$100	\$150
NP / PA / Allied Health (RN, LPN)	\$175	\$225
Medical Student	\$50	\$50

ACG/LGS REGIONAL POSTGRADUATE COURSE		
ACG MEMBER TYPE	EARLY BIRD (On or Before 2/18)	FEE (After 2/18)
Physician	\$275	\$350
Resident / Trainee / Candidate	\$125	\$200
Associate / Advanced Practice Provider	\$150	\$225
Medical Student	\$25	\$25
NON-MEMBER TYPE		
Physician / PharmD / PhD / Guest	\$375	\$450
Resident / Trainee	\$175	\$250
NP / PA / Allied Health (RN, LPN)	\$200	\$275
Medical Student	\$50	\$50

MOBILE APP INFORMATION

Included with your registration is complimentary access to the course presentations via the **ACG Mobile App**. The app can be used to view faculty presentations on tablets, mobile devices, and laptops. Attendees will be able to take notes and highlight key points on the presentation slides at the event, and can continue reviewing them after the course. PDFs of the presentations can be downloaded directly from the app or can be printed from the website version of the app. Pre-registrants will receive access to the app prior to the course to view, download, or print the presentation slides.

ACCREDITATION / CME / MOC

ACG's Obesity and Metabolic Disorders School

The American College of Gastroenterology designates this Other activity (blended learning) for a maximum of 15.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. *AMA PRA Category 1 Credits™* are awarded as follows: 13.75 *AMA PRA Category 1 Credits™* for the Live and On-Demand Lectures and 2 *AMA PRA Category 1 Credits™* for the Online Q & A with the On-Demand Faculty (separate evaluation will be required).

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 15.75 Medical Knowledge MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

ACG/LGS Regional Postgraduate Course

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American College of Gastroenterology and the Louisiana Gastroenterology Society. The American College of Gastroenterology is accredited by the ACCME to provide continuing medical education for physicians.

The American College of Gastroenterology designates this live activity for a maximum of 10.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 10.75 Medical Knowledge MOC points in the ABIM's MOC program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

ACCOMMODATIONS

Both courses will be held at The Higgins Hotel New Orleans, located at 1000 Magazine Street, New Orleans, LA 70130. Check-in is 4:00 pm; check-out is 12:00 pm.

✓ To make a reservation, book online at <https://book.passkey.com/e/51342773> or call 833-357-1172. Special meeting room rates per night are \$289 plus tax (currently 17.5%). ACG's rate includes complimentary basic guestroom internet and access to the health club. The hotel offers self-parking for \$45 per day (plus tax), located in the WWII Museum garage, located just past the hotel entrance. **Reservations must be made by February 18, 2027 to receive the special meeting rate.** Only a certain number of rooms are available at this rate and are available on a first-come, first-served basis. Once ACG's room block is sold out, the hotel may charge a higher rate for any additional rooms made available. All reservations require a deposit of one night's room and tax upon reservation. All major credit cards are accepted. Cancellations made within 72 hours of check-in will be charged one night's room and tax.

📍 Visit higginshotelnola.com for additional information about the hotel.

MORE INFORMATION

For more information about these programs, contact ACG at education@gi.org. Americans with Disabilities Act (ADA): Attendees of these programs who need additional reasonable accommodations or who have special needs (including dietary needs) should contact the ACG office at registration@gi.org no later than **February 18, 2027**.
