Even during COVID-19, Colorectal Cancer screening is essential and should not be delayed. Colorectal Cancer is one of the most preventable types of cancer.

**COLORECTAL SCREENING is Safe and Important**
- Your healthcare team cares about your safety and comfort. During COVID-19, they are following careful steps and taking precautions to make sure you are safe when you have colonoscopy.

**Take Control of YOUR HEALTH DURING COVID-19**
- It is essential to take control of your health. Make a plan to talk to your healthcare providers about colorectal screening and get checked.

**Don’t Put Off PREVENTIVE HEALTH SCREENINGS**
- During the pandemic, do not put off needed health care, especially preventive tests.

**Never Ignore NEW OR WORRYING SYMPTOMS**
- Even during COVID-19, reach out to your health care providers if regardless of your age you have any new or worrying symptoms such as blood in the stool, a change in bowel habits, rectal or abdominal pain, or unexpected weight loss, unexplained or new anemia.
