

# GOT SCREENED? NO MORE EXCUSES.

Colorectal cancer is the third leading cause of cancer death in women in the U.S. and it doesn't always cause symptoms.

## The good news:

- ✓ Colorectal cancer is preventable and when caught early, treatments are more successful.
- ✓ Most health insurance plans cover screening colonoscopy.
- ✓ There are many gastroenterologists, both male and female, so you can find a provider with whom you are comfortable.

This year use the health insurance benefits you are paying for and get screened for colorectal cancer.

➔ **FIND A GASTROENTEROLOGIST** near you by visiting the American College of Gastroenterology: [patients.gi.org/find-a-gastroenterologist](https://patients.gi.org/find-a-gastroenterologist)

I GOT MY SCREENING,  
AND SO CAN YOU!

NO MORE EXCUSES.  
NO IFS, ANDS, OR BUTTS!
